HYPOCRISY EXPOSED.

When the Democrats in the House of Representatives were pressing their bill providing for the publication of campaign expenses before the election...

He pointed out the fact that there were many districts so overwhelmingly controlled by one party that the only fight to determine who should be Congressman was the fight in the primaries...

He further pointed out that if the purpose of this bill was to secure purity in the elections by the publicity of money spent in securing the election of a Congressman...

This proposition was so fair and vitally important to any effective bill for the publicity of campaign expenses...

Another amendment also offered, to the effect that not only should the persons who contributed campaign funds in the primaries...

These two amendments greatly rattled the Democratic House, and the result was that they proceeded to have the bill re-committed...

This performance shows how little real sincerity there is in the position assumed by the Democrats...

DO THEY WANT TO ECONOMIZE?

A measure to reduce the mileage pay of Congressmen was before Congress Monday, but the measure was defeated...

The Democratic politicians seem perfectly willing to hit some one else's pocketbook, but when it came to hitting their own—nay! nay!

Now, if the Democrats wanted to economize, as they claim they do, why didn't they vote to reduce the mileage pay to members to actual cost...

THE 300TH ANNIVERSARY OF ST. JAMES EDITION OF THE BIBLE.

On last Sunday a number of Episcopal churches in this country celebrated the three hundredth anniversary of the publication of the St. James version of the English Bible.

In 1607, King James, of England, appointed forty-four of the leading scholars of the universities of England to make a new authoritative translation of the Bible...

DEMOCRATS MUST GET A NEW PARAMOUNT.

Not that it makes any special difference, but as a matter of curiosity we would like to know what issue the Democratic leaders will try to paramount in the State next year.

For several years they ran their campaigns on the false issue of "negro domination" and even tried to inject the issue into the last campaign.

But since the campaign they have taken every one of these issues into their own ranks and they are now finally saddled on the Democratic party.

The Democratic papers have themselves made the charge that the campaigns in Charlotte and Asheville, as well as in some other towns...

And as to bonds, the last Legislature issued all the bonds that they thought it possible to float and gave about every town and county the authority to do the same thing.

Now as to the negro issue. During the session of the last Legislature a bill was introduced to prohibit concubinage and intimate, immoral relation between the two races.

But that isn't all. In the Democratic primaries in Raleigh last week, when only Democratic candidates were in the field...

Whether those negroes were registered for the purpose of voting for Josephus Daniels' ticket, or whether they were registered by the other Democratic faction...

During the prohibition campaign the Democrats got a number of negroes to register, even after the Grandfather Clause act had gone into effect.

Over in Franklin County there is a notorious case where a negro has no right to vote under the law.

Now, in summing up the whole situation, it will be seen that Democrats have the negro issue within their own ranks.

A harmless looking resolution was introduced by Democrats in Congress Monday, but the Republicans peeped into the resolution and found that it provided for nine extra Democratic clerks for the Expenditure Committee.

And still the Democrats claim they favor cutting out a lot of offices in order to save the Government money!

FRAUDULENT AND CORRUPTING DEMOCRATIC METHODS.

There have been many loud protests from Democrats in Asheville and Charlotte denouncing the election frauds in the recent Democratic primaries in those two towns...

The methods employed by Democrats against Democrats in these primaries are just the same as those employed by the Democratic machine in the last election against the Republican party.

For a long time it was the creed of the Democratic machine that they were justified in stealing votes and committing frauds against the negro.

In this connection, it is well to recall that Supreme Court Justice Garrison of New Jersey, in a charge to the grand jury at Camden a few months ago, said:

"One single suppression by fraud or force of the right of suffrage strikes at the institution of government more than would any number of assassinations of Presidents, or judges, or any other set of officials."

This bold declaration from the bench by this judge caused the organs of some of the Democratic ballot-box stuffing machines in the South to wince, and some of them went so far as to openly criticize the judge for using such vigorous language to protect the purity of the ballot which is the foundation stone of free government.

THE HIGHWAY FROM MOREHEAD TO MURPHY.

The executive committee of the central highway trustees have just announced that on May 1st they will start on a trip over the route beginning at Morehead City, arriving at New Bern on May 9th, Kinston on May 10th, Goldsboro on May 11th, Smithfield on May 12th, and Raleigh on May 13th.

A resolution was passed asking the State Geological Survey to locate this highway as soon as possible, so that the counties along the line can begin work in co-operation with the State Central Highway Trustees or Commission.

The Central Executive Committee having this work in charge is as follows: H. B. Varner, chairman; William Dunn, of New Bern; Dr. J. N. Templeton, of Cary; R. R. Clark, of Statesville; W. T. Morgan, of McDowell, and J. A. Wellons, of Smithfield.

NEW JERSEY AND THE INLAND WATERWAY.

The Legislature of the State of New Jersey has just appropriated a million dollars to secure the rights-of-way along the route which has been surveyed by the Government for that link on the proposed inland waterway to connect Boston with the Gulf of Mexico.

North Carolina has in the past taken the lead in this movement for an inland waterway along the entire coast, and the recent deep waterway constructed from Pamlico Sound to Beaufort is an important link in the chain.

It now looks as if this long discussed and needed inland waterway route will soon reach a practical stage that will mean early work all along the line and an assured success.

A harmless looking resolution was introduced by Democrats in Congress Monday, but the Republicans peeped into the resolution and found that it provided for nine extra Democratic clerks for the Expenditure Committee.

PRIZES FOR THE BEST ACRE OF ITS DAYS OF USEFULNESS ARE CORN.

We are delighted to see that Mr. Bradford Knapp, who has succeeded his father, Dr. S. A. Knapp as head of the Farmers' Co-operative Demonstration Work, which is being carried on by the United States Department of Agriculture...

Mr. Starnes has written a most interesting series of articles which have been published in The Caucasian, giving an account of how he succeeded in winning the prize and also of his delightful trip to Washington.

One of our correspondents from Turkey, N. C., in a letter renewing his subscription to The Caucasian, says:

"We are all Republicans here and are always anxious to get The Caucasian. I honestly believe that if all the Democrats in the State would read The Caucasian one year that half of them would vote the Republican ticket."

We have received a number of letters praising the paper and requesting us to make it a daily paper.

When we have reached ten thousand subscribers we will consider the proposition to make the paper a daily.

In the arrangement of the Democratic Committees of the House of Representatives, Congressman Godwin of this State secured one of the two chairmanships accorded to North Carolina.

The committee over which Mr. Godwin was appointed to preside—reform in the civil service—has never been considered an important committee.

Congressman Gudger says that Congressman Kitchin should join the Republicans. As a matter of fact, all Democrats should try to get into the Republican party, but we want some of them to change their ways before being admitted.

ADVANTAGE OF THE PARCELS POST.

Seventy-Two Cents Sends Eleven Pounds 10,000 Miles by British Parcels Post; It Costs 64 Cents to Send 4 Pounds 10 Miles by United States Mail.

The following from Webster's Weekly, Democratic, shows that the days of usefulness of the Democratic party are over. Commenting on the recent Democratic primary held in Raleigh that paper says:

"The attempt made in Raleigh to vote negroes in the Democratic municipal primary is one of the most dangerous propositions imaginable. It is surprising to what lengths some men will allow their partisan zeal to carry them."

We are publishing the detailed census of North Carolina by townships, as recently announced by Census Director Durand. The report compares the census of 1900 and 1910 and shows the growth of each town and township during the past ten years.

When a Congressman refuses to vote for party measures and for reforms the people want, it is time to make a change.—Durham Herald.

And it seems that Josephus is still having a hard time of it. Some how he can't make all of those Raleigh Democrats see when he pops the whip.

The last Legislature disappointed the friends of the public schools by adding practically nothing to the fund for their support.—Charity and Children.

As long as we want to protect our own industries we do not see why we should find fault with the protective policies of the Republican party.—Durham Herald.

Much of the time of the recent session of the Legislature was devoted to raising the salaries of employees in State offices controlled by Democrats. The dance is over. The fiddler is yet to be paid.—Union Republican.

The judge who is opposing the "recall" needn't do anything to be recalled unless he wants to. Every judge should so act that he need not lose any sleep whether there is any recall or not.

When the tax assessors begin to bear down on you, there's nothing else to do but grin and bear it. The people had a chance last November to throw off this yoke of oppression, but they refused to do it, and now they can drink of the Democratic cup until they are full.—Clinton News-Dispatch.

The Durham Sun says there are fraudulent life insurance companies doing business in the State. Still the last Legislature refused to allow a resolution to be passed to investigate the conduct of life insurance companies in North Carolina.—Lincoln Times.

Other people say we have the best Remedy in the world for Eczema, Rheumatism, Old Sores, Scrofula. We will send you these testimonials if you will write for them.

Congressman Gudger says that Congressman Kitchin should join the Republicans. As a matter of fact, all Democrats should try to get into the Republican party, but we want some of them to change their ways before being admitted.

Messrs. Editors: There are always "things doing" in the matter of up-to-date universal parcels post. Unfortunately, it is not the United States that is doing them.

We take a back seat and maintain our excuses for not doing things on account of our long distance. From England to Abyssinia is no mean journey, yet the British Post-Office has recently announced an Abyssinian rate of 4s. 6d. (11.08) for eleven pounds, while the United States Post-Office still charges \$1.75 for eleven pounds, in three parcels, from New York to Brooklyn.

New Zealand with a wide-scattered population of less than 1,000,000, has a domestic parcels post rate ranging from 1 pound for 8 cents to 11 pounds for 48 cents; moreover, the small colony has a foreign parcels post with countries so numerous as to cover, with the various rates and regulations, 90 pages of the New Zealand Post and Telegraph Guide for January, 1911.

Our northern neighbor, Canada, has a similar list of farway lands with which her merchants can keep in touch by means of a low-priced parcels post. She manages to carry second-class matter for one-fourth of one cent a pound, and yet makes nearly \$1,000,000 profit annually on her postal business.

The United States Postal Guide enumerates only about 40 of these distant places as on our parcels post list. To about all of these, save France, our citizens can forward 11-pound packages at the rate of 12 cents a pound, or 4 cents a pound less than it costs to the nearest village.

Moreover, the American express companies carry for the British public all parcels up to 11 pounds from New York to any part of the Union at a flat rate of 34 cents, but no such figure is offered to Americans residing at home.

Why is this? This is because foreign rates are made by the President and Postmaster-General, while the making of domestic rates is in the hands of Congress. Is it not time the people instructed Congressmen and Senators as to their wishes?

EDWARD BERWICK, President Postal Progress League of California, Pacific Grove, Cal., April 10th.

Can't Do Without The Caucasian. The Caucasian, Raleigh, N. C.—You will find enclosed 50 cents for which send me The Caucasian for six months as I can't do without it any longer.

Very truly yours, B. D. JOHNSON, Stem, N. C., R. F. D. No. 2, April 22, 1911.

Her Work Cut Out for Her. Jimson—They say she married Jones for his money. Johnson—Well, if she can collect it it is more than anybody else can do.—Philadelphia Telegraph.

WHATEVER PRICE YOU CARE TO PAY FOR A SUIT. Expect to find here the most value and more style than others offer. From \$15 to \$20 you'll find all the goodness of tailoring and styling to be found in other stores at higher prices. Nobby fabrics—distinctive effects—patterns which are exclusive. From \$25 to \$32.50 we offer models of the highest clothes-making art—not bettered in beauty of design, fit or workmanship by the most expensive made-to-measure garments.
