a magnificent place for they sell for.

at an early hour this morning the day's crowd began to gather. At the time a bunch of wagons and drays were conveying to the grove the edibles for the day's consumption. The hauling of the large quantthes of food that had been provided was in itself no small item. People kept pouring in from early in the morning until dinner time-men, women and children-by twos and threes, by families, by bunches, by Such a crowd! And still they kept coming. A conservative estimate of the crowd would be 9,000 people, but including those who came from the country and city proper, there must have been considerably more than 10,000.

## Who Was There That You Knew?

IN the shadowy ranks of those who marched to defeat or death or victory fifty years ago in the mighty conflict that convulsed this great nation, is there father or grandfather or uncle of yours? Would you like to see a photograph of him in that long ago day of his youth-a photograph that he never knew was taken? Perhaps we can show you one; and in any case, we can tell you a story, stranger than any detective fiction, of 3,500 priceiess photographs that were lost and are found again.

### 3,500 Long Buried Photographs of the Civil War

THEY were taken by the greatest photographer in the United States of that day; they were bought by the United States Government for \$30,000; they were buried in the War Department for 50 years—they are buried there still. But a duplicate set was kept by the photographer who died poor and broken down; that duplicate set was knocked from pillar to post for nearly 50 years, until it was discovered by a New England collector. J. Pierpont Morgan tried to secure the collection-Ex-President Garfield and General Benjamin F. Butler said it was worth \$150,000-yet with the help of the REVIEW OF REVIEWS, the entire collection has been gathered into 10 great volumes and is placed within your reach at less than the value of one of the photographs. It is the one accurate, impartial history of the Civil Warfor the camera cannot lie. It tells the story of the War you never heard before. Taken under protection of the Secret Service, these photographs bring to light thousands of little-

known phases of the war; they penetrate to strange places and REMBMBER: - Our privilege of selling these books is limited as to time. Our supply of Free Portfolios is limited in quantity. You must be prompt to secure either. Better
