

REACHED SOUTH POLE

Capt. Roald Edrundson, Norwegian Explorer Reached Pole Dec. 14

Capt. Amundsen Says He Will Submit His Charts and All Information Without Delay—Spent Three Days in the Vicinity Making Observations.

Christiania, Norway, March 8.—Two local newspapers received dispatches from Capt. Roald Amundsen, announcing that he reached the South Pole December 14, 1911. The message was sent from Hobart, Tasmania, where Amundsen arrived yesterday. It read: "Pole reached fourteen-seventh December." This is taken to mean the explorer remained three days in the vicinity of the Pole taking observations of his position.

Hobart, Tasmania, March 8.—Captain Roald Amundsen, the Norwegian explorer, denies having telegraphed anything regarding Capt. Robert Scott or the British expedition. Amundsen is the only member of the Antarctic expedition landed from the Fram. Nobody is allowed to go aboard the vessel. The explorer says he is pleased with the results of his expedition, but otherwise maintains absolute silence on the subject. Amundsen intends to stay here for a few days, then to go to Australia, afterwards departing for Europe by the circuitous route of Buenos Aires. Confirmation of Amundsen's attainment of the South Pole on December 14, 1911, by the explorer himself set at rest conflicting reports current on the subject yesterday. Nothing has been heard from Captain Scott. Amundsen for many years has been one of the most daring Arctic and Antarctic explorers. He started polar research at the age of twenty-five.

Willy Submit Proofs. London, March 8.—Capt. Amundsen states he will submit his charts and all information about his expedition without delay, according to dispatches from Hobart received by a special correspondent at Wellington, New Zealand.

THE DISCOVERY OF THE SOUTH POLE.

(Continued from page 1.)

sufrage have inaugurated what is little less than a revolution to force compliance by the Government. In Germany half a million miners are threatening to leave the workings and perhaps bring about a political climax of far-reaching importance. Revolutions are in progress in Paraguay and Ecuador, by no means abnormal developments, yet contributing to the general unrest. In this country a political campaign unparalleled in recent years for activity and earnestness and far-reaching possibilities has opened. Every day brings its fresh development supplying a sensation for a few hours. Congress is at work on matters of great importance, amending treaties of peace and investigating a wide variety of questions and passing the usual measures with exceptionally interesting discussions bearing closely upon the political situation. In the domestic industrial field are several centers of disturbance. At Lawrence, Mass., a strike is in progress with unusual accompaniments transcending previous troubles of the same sort. Negotiations are in progress that, failing, may result in the stoppage of the hard coal mining industry of ten years ago, which caused industry and a renewal of the condign distress and cost an immense sum. As an incident in this turmoil comes the discovery of the South Pole, an event in itself of the first importance, but, in the whirl of happenings, not receiving the consideration it deserves. It is a most particular reader indeed who is now being entertained and instructed and possibly startled from day to day by the public prints.

Tobacco Trust Bought the Bonds and Democratic Convention Consumed the Booze.

The little me-too Democratic sheets have begun to howl Butler, Bonds and Booze. Butler is all right and the Democrats are more afraid of him than of a rattlesnake. The bonds were sold by a Democratic administration to the Tobacco Trust, and the Booze was consumed by the Democratic Convention at Charlotte four years ago when Kitchin was railroaded in for Governor.

All Charged With Dynamiting Will be Tried October 1.

Indianapolis, Ind., March 13.—All the defendants indicted for violation of Federal Statutes governing transportation of explosives must go to trial in one case on October 1 according to the final ruling of Judge A. B. Anderson to-day after he had heard argument of attorneys for the defense on a motion for separate trials.

Four Negroes for the Chair.

Yesterday's Raleigh Times says the four convicted murderers awaiting the result of appeals or new sentences, and during the spring and summer the death chair at the State Penitentiary will have some work to do. All the convicted men are negroes.

Will Logan, convicted in Anson County of killing a Swede and sentenced to death, is the first victim scheduled for the chair. He has not yet been brought to the penitentiary and he may have taken an appeal.

John Ross, the Cleveland negro who confessed to killing Mr. John Dixon, will die April 12th. Ross was sentenced to die last month, but he was reprieved so that he could be used as a witness in case of further prosecutions in the killing of Mr. and Mrs. Dixon.

Brad Bagley, who was convicted of killing Chief-of-Police White of Williamston, lost his appeal to the Supreme Court, and as soon as a certified copy of this opinion reaches the Governor he will fix a new date for the execution.

G. G. Wilkins, who was found guilty of murdering his wife in Nash County also lost his appeal, and a date will be named for his electrocution.

SOME CONVENTIONS HELD.

Virginia Instructs for President Taft. Also One South Carolina District, While Oklahoma is for Colonel Roosevelt.

Roanoke, Va., March 12.—Four delegates at large instructed to vote for the renomination of President Taft were named late to-night by the Virginia Republican State Convention. This action puts into the Taft column the entire Virginia delegation of twenty-four votes in the Chicago convention. Only the two delegates from the Third District are uninstructed. The instructions of the delegates at large prescribe that the votes shall be cast for Mr. Taft on every ballot. They were adopted by the convention by a vote of 702 to 64. The resolutions declare that Virginia Republicans honor the President for the enemies he made in vetoing ill-considered tariff bills.

A motion by Dr. J. M. Daughtery, of Scott County, to strike out the instructions for President Taft was debated at length. The temporary chairman was chided for his forgetfulness in not mentioning the name of Roosevelt in his keynote speech. Every mention of Roosevelt's name produced an outburst of cheering. During speeches in favor of instructions, the name of Taft was equally cheered. After on speech on each side the confusion became so great that arguments could not be followed.

Two South Carolina Delegates for Taft.

Greenwood, S. C., March 12.—Third District of South Carolina delegates to the Republican National Convention at Chicago are R. R. Tolbert, Jr., and Ernest F. Cochran. They were instructed for Taft.

Delegates Uninstructed.

Union, S. C., March 12.—The Fourth District delegates to the National Republican Convention at Chicago are F. J. Young and Thomas J. Brier. They were uninstructed.

Oklahoma for Colonel Roosevelt.

It was announced some days ago that the delegation from Oklahoma was for Colonel Roosevelt. The State Convention will be held in that State to-day. Several Conventions will be held within the next few weeks.

A Telephone For the Deaf.

Boston Dispatch to Baltimore Sun.] William E. Shaw, an electrician, has invented an electrical device by means of which an operator at a keyboard can flash letters and numerals and make himself readily understood at the receiving end of the instrument. It is a telephone for deaf-mutes. Shaw has installed his new telephone in his home, his wife being a deaf mute, and it has worked so well that he has applied for a patent. Thirty-six letters and figures appear on the keyboard and the same number, in positions to correspond, on the receiving board.

The bonds were sold by a Democratic administration to the Tobacco Trust, and the Booze was consumed by the Democratic Convention at Charlotte four years ago when Kitchin was railroaded in for Governor.

Three Negroes Who Confessed to House-Burning are Lynched.

A press dispatch from Olar, S. C., last night says: "Three negroes in charge of two constables on their way from Olar to Bamberg to be lodged in the county jail were taken from the officers by a mob at Odom's Bridge, seven miles from this place, and shot to death this afternoon. "The negroes had confessed to attempting to burn the residence of J. E. Cook, mayor of Olar, early yesterday morning. On February 21st a destructive fire occurred in the business part of the town."

For a Cold.

A small bottle of a teaspoonful oil of mustard and tablespoonful oil tar gives relief in a cold. Inhaled after it will soon cure a cold if breathed in freely at mouth and nose. It is also good for deafness and catarrh.—Home Department, National Magazine for March.

The number of dogs in Raleigh according to the census just completed is 900. Of this number only 135 have had their poll-tax paid.

Farm Topics

GREEN MANURING—No. 18.

Corn (Continued.)

If for any reason the farmer should desire to follow corn with corn and the land needs green manure, the following plan will be found quite practicable and profitable and will greatly aid in maintaining the plant food supply of the soil in an available condition.

The corn crop should invariably be cultivated late enough to insure a sufficient conservation of moisture to mature the crop already on the land. Corn is generally "laid by" too soon in this State, after which the mid-summer drouth catches the crop, burns it severely, and frequently reduces the yield at least one-half. Cultivate shallow, frequent, and late is an excellent motto for the corn growers of North Carolina.

Rye and crimson clover should be sowed broadcast in corn and covered by the last cultivation. This will serve as a cover crop and green manuring crop for the corn the following year.

Do not pull fodder or cut tops from corn when the following crop is to be corn also. Let both fodder and tops dry up in the field. In the spring, when the rye and crimson clover have made a good growth and are ready to plow under, the farmer wants to bring a sharp disk harrow into action. The old corn stalks, the rye, and the crimson clover should be cut into bits. The old stalks must not be plowed under whole to hinder the proper cultivation of the following crop, but should be so reduced that they will give no trouble by pulling up hills of corn or catching and dragging in the cultivator's teeth.

The disking should be done when the crimson clover is coming into bloom. The rye will likely be heading out by this time; but the disking and plowing should be done with reference to the development of the crimson clover.

When the disking has been done the land should be plowed some eight or ten inches deep, depending on previous depths to which the land has been plowed, and disked once more to break clods and further mix the organic matter with the soil stratum. The soil should now be allowed to settle and become somewhat compact before planting, after which the land should be prepared and the corn planted according to the method outlined for this crop when following wheat.

We do not recommend the sandwicheing of a pea crop between two corn crops for green manuring purposes because, in case the crop is cultivated as late as is generally necessary, the pea crop would make but an indifferent growth before frost and we would not only fail to get much of a pea crop to plow under but would not be able to put on our winter cover crop for green manuring in the spring.

In view of the general practice, however, peas may be sowed in the corn at the last working, allowed to mature, and cut up with the corn stalks and plowed under in the fall, after which a crop of rye and crimson clover may be sowed as a winter cover crop and a green manuring crop in the spring. This method is likely to reduce the yield of corn by exposing the land.

the affair and only reiterate their claim of innocence."

Later Report.

A later report from Asheville says that the two Bradleys were carried to Asheville for safe-keeping on account of the crowded condition of the Hendersonville jail. Application was made before Judge Poushee to have the defendants released on bond, but the judge refused the application, but later Dan McCall was released on a \$10,000 bond. The other defendants were refused bond, and it is understood that this ruling will continue until after the trial.

Two More Arrests Made at Asheville Tuesday.

A press dispatch sent out from Asheville Tuesday night says: "Two additional arrests in connection with the Myrtle Hawkins case were made here to-night when Mrs. Nora Britt and Mrs. Lizzie Shaft were arrested by two of the sheriff's deputies, the women being charged with having guilty knowledge of, or being participants in the criminal operation which resulted in the death of Myrtle Hawkins last September. "Mrs. Britt was lodged in Buncombe County jail, while Mrs. Shaft was taken to Hendersonville jail, pending a preliminary hearing Friday morning before a local magistrate. "The warrants for the two women, who have been under suspicion

PILES CURED AT HOME BY NEW ABSORPTION METHOD.

If you suffer from bleeding, itching, blind or protruding Piles, send me your address and I will tell you how to cure yourself at home by the new absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. Since the finding of Myrtle's body in Lake Osceola last September, were taken out on affidavits made by T. C. Brown, for the warrants from the sheriff's office. The county authorities say that they can produce witnesses who will swear that Mrs. Britt told him that she had been hired to perform the operation and will swear that Myrtle Hawkins was seen several times in the vicinity of the home of Mrs. Shaft. Still another witness will swear that Mrs. Britt had told him that she (Mrs. Britt) had been hired by Mrs. Shaft to perform an operation at Hendersonville."

Bryan Addresses Ohio's Constitutional Convention.

Columbus, O., March 12.—William Jennings Bryan gave the Ohio constitutional convention his views of making a constitution. Bryan favored the initiative, referendum and recall, saying the recall is an evolution rather than a revolution. Bryan said the only difference between the recall and impeachment, is that in impeachment the trial is before a body of officials, while recall places the decision in the hands of the people.
