houses, wholesale and retail. We found ham, was chairman. that, placed at a conservative figure. there are more than \$3,000,000 worth of goods given away, and consequently destroyed in samples every year in the

United States. "When you come to figure this out it means an average of 5 cents apiece for every man, woman and child, including all the babies, in the United States.

"This \$3,000,000 or more, eventually of course, comes out of the pockets of the purchasers, or, more properly speaking, the consumers of dry goods. The sample feature of the dry goods business is at once one of the greatest nuisances and blessings that we have. Where the nuisance comes in is easily to be seen the blessing of it is in the fact that it saves us, or, I should sav, the dearly beloved people, many a thousand dollars which otherwise would go for the expense of sending out more travelling salesmen. Thousands of dollars' worth of goods are sent out every day to retail customers over the country from which we never hear a word. But do we lose it? Oh, no-never! We simply count upon it as being so much clear loss or necessary expense, along with clerk hire,
