## MORE JEFFERSONI'N DEMOCRACY

Now Than Ever Before, Says Bryan. -Washington Notes.

Correspondence of the NEWS. WASHINGTON, April 9 .- Hon W . Bryan was fortunate erough to be in Washington this week to make Improving .- The Monros Mayoralty an argument for the people of Nebraska in a railroad case before U. S. Supreme Court. This gave him an opportunity to participate in the Clingman Benton, one of the ra lway Democratic jollification which has followed the news of the Democratic dead. He passed away quietly at Harrisburg yesterday, was a brother victories in Ohio and in Chicago. Mr. Bryan told an immense Democrotic meeting addressed by him lotte last night. More people seeking to make this government what it ought to be, and the crusade that was started will go on and on; will gather strength as it goes, and will be instrumental in bringing to the eople of this country blessings for generations to come'

THE OHIO ELECTIONS. The administration and King Hanna are especially sore over the unmistakable rebuke given them by the result of the Ohio elections. They try to make light of the matter by saying that only local issues were involved, but they know better, and everybody else knows better; knows that the administration expected and worked for Republican success, which it would have considered an endorsement. Senator Jones, Chairman of the Democratic National Committee, says: "While I am not at all disposed to attach too much importance to purely local elections, I do believe that the result in Ohio is largely due to the dissatisfaction with the National and State government of the Republican party. There is no doubt in my mind, either, that the cause of bimetallism has made tremendous strides since last November, and I believe that more has been accomplished for our cause by the very logic of events than was

done by all the campaign methods.' There is a little wrangle on between the administration and the Republican members of the senate finance committee. Mr. McKinley has been bringing pressure to bear upon them to report the tariff bill not later than the 19th of this month, while they insist that they cannot get the bill in condition to

report before May 3rd, if so soon. Humanity is the one power that is strong enough to fuse all the discordant elements which go to make up congress into solidity in an effort to relieve suffering.
