Along with their many friends we beg to come in with our congratulations and best wishes, and hopes that their future existence may be a rose-tinted, unclouded one to the end.

It appears that the postal revenues derived from the sale of postage stamps have fallen off as the time for the reduction of letter postage rates approaches. This indicates that the public is making preparations for the change and are not adding to outstanding stocks of stamps and that when the 1st of October comes a very largely in-creased demand for the new stamps will be the result. It is assumed that the sales of postal cards next year will be less than those of the fiscal year just ended, but the decrease will be made up in the number of stamps soid. No provision has yet been made for the redemption of three cent stamps and envelopes in the hands of postmasters. velopes in the hands of postmasters. This redemption can only take place by act of Congress. It is suggested that these three cent stamps and envelops can be used for double postage by adding a one cent stamp, and there will be no necessity for their redemption, which would entail a great amount of labor and expense upon the department,

RUNNING OFF WITH A NEGRO. Case Similar to that from Moore County--- A Negro and a White Girl Come to the City--- An Arrest and the

Investigation.

The arrival in the city yesterday morning of a young white girl, accompanied by a negro man who carried her bundles, put our people in mind of the Matthew's Station case, reported in yesterday's paper, and as soon as the girl was arrested and an investigation was held, it was found to be in truth a par-allel case. The two walked into the city at an early hour, but were not seen again until about noon, when the girl was found to have taken temporary refuge in a house of ill repute, the owners of which, having such her pass-ing by in company with the negro, and with the Matthew's Station case fresh in their minds, called her in and sent for the police. The negro taking alarm fled, and has not since been seen. The police arrested the girl and carried her to E. K. P. Osborne's office, where an investigation into the case was made. The girl was under the influence of liquor, and it was impossible to get an intelligible account from her. She stated, however, that her name was Lizzie Henderson, and she came from Union county. Her father, Thomas Henderson, was dead, and since his death her mother married a man named Cal. Kendall, and is now living near Davis' mine, in Union. She had been unable to live peaceably with her stepfather, and her mother finally told her she had better go seek a home elsewhere, and yesterday morning turned her adrift, with a gift before leaving her home. The negro who was with her, she states, is named Bill Gregory,

tell anything about him. The girl was sent to a responsible family in the city to be taken care of for several days, or until something more is learned of her case. She is apparently about eighteen years old, and has an uncultivated and rather coarse look.

Tremurer Davesport Ordered to Bring Suit

The investigation into the trouble between Treasurer Davenport and ex-Sheriff McKee, which has been in progress for about a month by the board of commissioners of Gaston county. was concluded last Saturday night at 12 o'clock. It was a long and tedious investigation, but withal a most thorough one. The board of commissioners in bringing it to a close ordered that Treasurer Davenport bring suit against ex Sheriff McKee for the recovery of the money. The sum involved is about \$3,400. Our information that the trial was private and the proceedings kept from the public, was incorrect, as it was open and above board and free of access to all.

Rocking a Passenger Train. Mrs Frank Mitchell, of Wilmington who was a passenger on Capt E E Everitt's train which arrived in the city esterday morning, narrowly escaped being killed by a rock thrown into the train by some unknown scoundrel. Mrs Mitchell was seated by a raised window just after the train passed Clarkton, when she, and those sitting near her, were stunned by a report that ounded like the discharge of a pistol, her:face being stung at the same time by flying gravel. A rock that had been thrown at the car with great force, had struck the window sill, within ten inches of her head. The rock made a deep dent in the wood work of the car and had it struck the lady it would have injured her seriously, if it had not killed her. Detectives are on track of the rock thrower.

About the Suppression of Names. It has long been a custom in this of fice to withhold names from the public when the parties involved in trouble or their friends, appeal to the editors to have this done, and the custom was inaugurated out of a feeling of kindness for unfortunate ones who might be dragged before the courts, and who for good reasons did not desire to have their names in print. But this custom has been imposed upon. As long as it was in force and while the favor was granted to one party it could not in justice be refused to another, and in order to treat all slike, the old custom is hereafter to be suspended and those who create disturbance of the peace, behave in a disorderly manner and are brought before the courts, need neither come nor send delegates to this office to request that the facts and names be suppressed. The JOURNAL-OBSERVER is disposed to be good natured with everybody, but there is such a thing as carrying kindness to excess,

Frank Hallman, the negro who arrived at Matthews Station Tuesday morning with a young white girl from Moore county and who was captured that afternoon at Mr C H Wolfe's was carried back to Matthews by the crowd and carefully guarded until yesterday morning when a party of citizens from Moore county took the negro and the girl back to Mr McLeod's home, at Keiser. It was feared that the pegro, on being captured would be lynched, but wiser counsels prevailed and it was decided to turn over him to the authorities of Moore county. About sixty people from Moore county came up towards Matthews Station, but most of them stopped at stations along the road and rejoined the party on their return from Matthews with the prisoner. No addi-tional particulars to those given yester-day could be learned, the girl refusing to tell anything about it. Her father, Mr Eli McLeod, was with the party that came up from Hamlet.
