delly Longuent-Streener.

ERRE OF SPREETINGS

Daily Lournal-Observer

NEW ENGLAND'S DOOM. Mr Kaufman, of St Louis, draws the following picture of the future of New Eugland, which bears a striking resemblance to some of the views heretofore expressed in the editorial columns of

this paper upon the same subject; "The handwriting is so plain on the wall, that none but a fool need mistake it. New England is doomed just as sure as natural laws will produce fixed results. New England has no soil worth mentioning, and her wealth has all been derived from her manufactures. These are gradually leaving her, and eventually they will all go; some to the West, but most to the South, where the advantages for profitable manufacturing, are all located. The coal and iron in the South are easily gutten at and inex-haustible in amount, and the iron mills, foundries and machine shops can go to them better than they can be carried woolen mills must go there, for the raw materials are, and are to be, produced there most cheaply, uniformly and bet-ter. Then look at the advantages of the extra hours of daylight in a year's run. This of itself, no small matter. As the South grows stronger and stronger, the wealth, culture and power of the country will be centered there, until she will become not alone the mistress of America but the central empire of the world."

FROM WASHINGTON.

A Captain Acquitted --- Fumigating the Mails-Internal Revenue Investigation -- The Condition at Pensacola.

Washington, August 25—The court martial which tried Capt Jno A Kress at San Antonia, Texas, for neglect of duty in exceeding the amount appropriated for the erection of a military build-

ing at that post, has acquitted him.
Superintendent Jewell, of the railway
mail service at Atlanta, will be authorized to issue necessary orders for the
fumigation of mail matter arriving at Jacksonville, Fla, from Pensacola, if it can be done without expense to the postoffice department.

The commissioner of internal revenue

to day instructed revenue agent Powell, at Raleigh, N C, to investigate the report that several revenue officers in the upper part of South Carolina had been persons to put up old stills in remote places and then capture the material in the night time and obtain the government reward of fifty dollars for each still seized; also that the same material is then put up in another part of the State and seized again. It is alleged that only a few of the stills captured in the mountains of South Carolina have really been used for illicit distilling. The surgeon general of the marine

hospital service to day received the fol-lowing telegram from Pensacola: The inspectors report only a few houses found unclean. Those received immediate attention. No sickness of a serious nature is in the city. Murray reaffirms the correctness of the post mortem. The doctors here are much excited over it and the people much elated. The cordon is perfect, I inspect the same three times a week personally, The navy yard reports three cases.

DE CHAMBORD DEAD.

Laid Out in His Coffin -- Respect Paid to His Memory.

FROHSDORF, August 25.—The body of Count de Chambord lies clothed in evening dress and decorated with the grand cordon of the order of the Holy Shost. The hands are folded over the breast and in one of them is a grucifix. Wax tapers burn at the head of the corpse. The first chamberlain of the Emperor Francis Joseph will be present when the will of the late count is

As soon as the news of the death of the count became known the inhabitants of the villages around Frohsdorf thronged to the chateau, where they attended mass, and telegrams of condo lence with the family of the dead prince poured in all day yesterday. As the count was dying his confessor raising his hand, exclaimed: "Ascend to heaven son of Saint Louis." The count left a large legacy to the Pope. His Holiness has telegraphed to the family of the deceased his condolences with them in their bereavement.

Still Denying it is Yellow Fever. PENSOCOLA, FLA, Auaust 25.—The statement from Washington that the house inspector ordered by the marine hospital service had developed cases pronounced to be yellow fever is incorrect. They were under the charge of the marine hospital surgeon before inspection commenced. Milton abolished quaranting against Pensacola to-day. One year ago to day yellow fever was announced here. The alchest was then general. Another epidemic may come this year but to-day Pensacola is absolutely healthy and the people are

hopeful.
It is reported that Secretary Chan dler repudiates the contract on which civilian surgeon Horgis went to the navy yard at \$10 per day.

A Fair Cotton Qutlock.

NASHVILLE, August 25.—A comprehensive and complete report of the cotton crop of the Nashville district which includes Middle Tennesses and a portion of West Tennesses and North Alabama, has been received through correspondents. Seventy per cent. of the reports received state that the crops are in better condition than on the corresponding date last year; 28 per cent. in as good condition, and 7 per cent. in a worse condition.

Tobacco Rebates.

WASHINGTON, August 25-The In ternal Revenue bureau to day received from the collector for the 4th district of Texas, a schedule of 1,100 claims for rebate received to date is about \$3,500,000. The schedules are all in with the exception of one district of Virginia, the 2nd Tennessee, 2nd Minnesota, 7th Indians, and tee district of Colorado.

Death of Hon. Walter F. Poole.

RALEIGH, N.C., August 25.—Walter F. Poole, Congressman elect from the First North Carolina District, succeed-ing Lewis C. Latham, died at Elizabeth City this morning after a long filmess.
He had but recently returned from the
Hot Springs, Ark., and was thought to
be somewhat improved in health. He
was 32 years old.

Railroad Cellinon. NEW OBLEANS, August 25.—A col-lision is reported between two freight trains on the Louisville & Nashville railroad at Chefmenteur bridge. Con-ductor Jones and two breakmen were badly injured. Trains and malls de-layed.

A Big Sweep in the Atlanta Postoffice ATLANTA, Angust 26 — The postmaster at Atlanta and five attaches of the postoffice were removed to day. The removal was wholly unexpected by the public. The cause is said to be greeful dissatisfaction.

PARLIAMENT PROROGUED.

The Queen's Speech-The Outlook Rather Hopeful than Otherwise.

London, August 25 .- The Queen's speech proroguing refers to the contin-uance of harmonious relations with foreign powers. The administrative reorganization of Egypt though retard-ed by the outbreak of the cholera has steadily advanced. Her Majesty re-asserts that the occupation of Egypt is only temporary. She says the aim thereof which has been explained to parliament remains unchanged. Communications with France concerning the orcurrences in Madagarcar have been conducted in a spirit of friendship been conducted in a spirit of friendship and she has no doubt they will lead to satisfactory results. Her attention has been and will be steadily directed to all which may effect the rights and liberties of her subjects. The working of the convention with the Transvaal government has proved in certain respects parallel statement. The ministers spects unsatisfactory. The ministers and confidential envoys disputched from the Transvaal will discuss the matter shortly. The condition of the classes in the kingdom suffering from depression of agriculture has in most districts shown some degree of improvement. The general statement of trade and industry is sound. She says she can refer with greater satisfaction than on some former eccasions to the condition of Ireland. The provisions of the land act have been brought into wide operations and the late combination against the fulfillment of contracts, especially for rent, has been in a great degree broken up. There is a marked designation of, agrarian crime and the associations having murder for their object have been checked by the vigorous enforcement of the laws and the punishment of offenders. Her Majesty refers to various measures to which sh has given her assent and which she hopes will advance the interests of all. She refers to the legislation of the session in regard to Ireland as evidence of the anxiety of parliament to promote the prosperity of that country. The House of Lords at the last moment agreed to the agricultural holdings bill.

FRANK JAMES.

Trial which is Attracting Attention Far and Wide in Missouri.

GALLATAIN, Mo, August 25 .- At the afternoon session yesterday in the Frank James trial, W F Eastman and ames Moffat testified to knewing Mrs Sarah Hite was called and her testimony was received with breathless attention. She said: "When I married Geo Bite in Kentucky he had seven children, four of whom were boys. In March, 1881, the defendant came to our house with Dick Liddell and Jessie James, all armed. They came back next month, acting as though frightened and watched at the windows with guns in their hands. I did not see Frank James on the 27th of April. Mr Hite's first wife was Frank James aunt.

The defense declined to cross examine the witness. After further testimony of miner importance the court

mony of minor importance the court adjourned until this morning.

A dispatch from Gallatain, Mo, to the St Louis Post-Dispatch says Frank James' trial was resumed at 8 o'clock this morning, the first witness called being Dick Liddell. The defense immediately objected to the witness on the ground that he was a convicted felon, having been found guilty of grand larceny in Vernon county and sent to the penitentiary. The prosecutor Wailarceny in Vernon county and sent to the penitentiary. The prosecutor Wailace responded that he had a copy of the full pardon restoring Liddell to citizenship. Objection was then made to the copy, the defense insisting that the original pardon should be introduced, and then the attorneys on both sides consumed two hours in argument. At 11 o'clock Judge Goodman ordered a recess to give time to consider the point which is one of great importance to the defense since Liddell's testimony is vital to the prosecution. Ex-Governor Charles P Johnson stated this morning that the testimony would all be in by next Tuesday evening and the case be given to the jury Wednesday.

A Priteen Hundred Poot Waterfull.

Portland (Oregon) News. A recent discovery on the head of the Cowlitz River establishes the fact that Washington territory can now boast of the grandest waterfall in the known western world, its height being 1,500 feet. The Nooksack Indians assert positively that waterfalls higher than the tallest fir, pine or cedar tree, are to be found on the extreme headwaters of the Nooksack river, in this county. As that section of the county has never yet been explored by white men, there is no good reason for doubting the statement. From the comparison given by the Indians these falls must be 475 feet in height, which would lay over the famous Snoquaimie Falls, lay over the famous Snoqualmie Falls by at least 200 feet.

Another Taken in by the Sydicate.

NEW YORK, August 25—It is announced that the New Richmond and Danville syndicate has secured the control of the Memphis and Charleston. This explains the recent wide fluctus tions in the latter. Memphis an Charleston is now 45½ and the Rich charleston is now 45% and the Richmond and Danville is quoted at 65@67, very quiet. It is stated that cash was paid for the Memphis and Charleston. A number of directors of the Memphis and Charleston have resigned and will be succeeded by representatives of the Richmond and Danville syndicate.

Why They Go to the Otsego Hults,

hester Union. The Republican State Convention i to be held on the second anniversary of Garfield's death. That is probably the reason the stal warts ordered the convention at Richfield Springs, where their consuming grief may be hidden among the Otsego hills.

Fire in a Pennsylvania Town. MIFFLINTOWN, PA, August 25.—This morning a fire broke out in the stable of the Foreman hotel and was not checked until it had burned the hotel postoffice, a private residence and a block of brick stores. The mails were

sayed. Loss \$66,000; insurance \$4,700. Belong to Bather Party.

Albany Argus (Dem). The idea that persons who sell their votes are either Democrats or Republicans is a libel on men who honestly be long to either of the parties.

Venal voters have a price, but no poli-

Georgia's Need.

New Orleans Times Des New Oriems Times Democrat.

It appears more than probable that Georgia will soon have a State technical school. The general demand for such an institution is so great that the Legislature is seriously considering the the project. The substantial benefits to be derived therefrom are obvious.

LOCAL RIPPLES. —The Neptune Fire Company will be out on a parade Monday with their sew

The Charlotte graded schools for both whites and colored, will open on September 15th// ///// -We call attention to the second series of stock of the M. P. B. & L. Asso-

ciation as advertised in our columns This is the last week of the new series. -The Postal Bulletin shows that the location of Maiden P. O., in Catawba

county has been changed to a point on

the railroad nearly one mile southwest of the old site. - The big campmeeting at Belair, in South Carolina, about 22 miles from Charlotte, will draw a big crowd from the city to-day, as it usually does every

- The handsome new glass front of Berwanger Brothers is now completed and it has helped the appearance of that block remarkably well. Over the new front they have put up a stylish

- The latest addition to Hoffman & father. Alexander's dental parlor, is an electric fan. It is a real novelty and creates a breeze strong enough to blow ones hat off. This fan and the electric mallet are both run by the same battery.

- Lee Davidson, colored, was fined \$7.50 for an assault and battery, by the mayor yesterday morning. Matt Brown for d and d, was fined \$5. Of the three cases against Mr C C Horton, two were moved for trial before Justice David-son and the other will be tried by the mayor Monday.

- A friend at Mt Holly sends us splendid specimen of the stag beetle. He is fully developed, about twice the size of one of Guy Vance's boss red-legged grasshoppers, and from the strength and size of his mandibles was evidently constructed with a view to taking care of himself.

The last remnant of the eld stock of LeRoy Davidson has been sold by his successor, Ben W. Barnett, at public auction, and in a few days the tidy stand of this fancy grocer will be stock ed with one of the finest lines of family groceries ever opened here. See his a ivertisement

The Ladies' Friend.

Every butter maker should examine the "Ladies' Friend" churn, now on ex-hibition in this city by Mesars Wilson & McFarland, of LaGrange, Ga. It is certainly the best over introduced in this section. The most delicate ladies can do their own churning. To be seen at the Charlotte Hotel or at the cour house.

Greensboro Feinnie College. A special dispatch to the Journal

OBSERVER yesterday afternoon announces that the Fall session of the Greensboro Female College opened on the 2sth inst, with seventy-five boarders and that pupils were arriving on every train. This is the largest number ever had at the beginning of a ses-sion and everything indicates a larger attendance than ever before.

Meckienburg Superior Court ... The fall term of Meckienburg Supe

rior coust will be son vened in the cour with his honor Judge Gilmer presiding and Solicitor Frank Osborne prosecu ting for the State. The court will hav a term of three weeks and there is full and interesting docket to handle, The case of Mr Thos Shleids for the murder of Joseph G Sitton, will come up and will excite a great deal of inter-est. Each side is represented by an array of counsel and the trial will be

an exciting one Hore Wrecks and Trou

road. The Charlotte bound passenger train on the Richmond and Danville Railroad was wrecked at Thomasville night before lest by running on the side track through an open switch and colliding with a material train that was standing on the siding. The train was not going at a very fast rate, or the results would have been disastrous. As it was the engine was badly damaged, the trucks were knocked from under the postal car and the track was torn up for a short distance. The socident de-layed the train seven hours.

The passenger train due here from Richmond yesterday at 1:50 o'clock, did not arrive until 5 p. m., having I delayed at Danville by the Virg Midland train which was thrown

THE PARTY OF THE P

hind time by an accident. Capt Ke negy the train dispatcher, made up

John Alexander, the colored man

who was shot in the head while walking on the streets night before last, as noted yesterday morning, was found after a search by the police. The bullet struck his forehead and running around the skull, came out at the temple. Policemen Orr and Healy captured Matt Clark, the man who did the shooting. at daybreak yesterday morning and had him arraigned before the mayor for trial. Clark was bound over to the Inferior court in two cases, one for shooting Alexander and the other for carrying concealed weapons.

The Firemens' Monument.

The main body of the firemens' mon ament has been erected on the firement lot in Elmwood cemetery, and the mar-ble figure which is to surmout it is expected to arrive every day. The figure was cut in Italy and is a life size representation of a fireman in full uniform, A photograph of Mr. Wm. R. Cochrane was sent to the soulpter as a mould for the figure, as it was desired to have the figure represent some local fireman and it was thought that Mr. Dochrane would look better in marble than any of the boys. The meanment when completed will stand twenty feet high and will be a handsome work of art. It was furned out from the marble yard of Mr. Jas. A. Johnston in this city, where all the work was done except chiseling the statue. It is pronounced by competent judges to be as handsome a place of work as was ever done by a southern marble cutter. A description of the monument will be given at some later

The unveiling ceremonies will occur on October 10th, and the committees are hard at work arranging for a grand celebration.

Personal Notes.

Mrs. Bessie L. Dewey, who spent the summer at Morehead City, has returned to her home here. Miss Bessie Caldwell is back from a

THACKE DROPS one in the

Inferior Court. The merning session of the Inferior Court was opened yesterday by argument in the case of Chas. Wade, colored, charged under a new statute with turning over feased property to a person other than his lessor. The testimony in the case had been taken the day previous, and the forenoon of yesterday was consumed by argument of counsel. The defendant was found guilty. A motion for a new trial was made, and an early hour Monday morning was set for its hearing. The plan is to dispose

of this matter of unfinished business on Monday before the Superior Court takes cossession of the court room. The following cases were taken up and disposed of during the remainder of the day:

State vs. Francis Wallace, colored, farceny. Judgment anspended on pay-ment of costs and departure from the county, all swinged hallwall, State vs. Carrie Alexander, colore

arceny. Guilty. Took insolvent oath and was discharged. State va. Charles Pritchard, colored larceny. Guilty. Sentenced to two

years in the penitentiary. State vs. Milton Forney, colored, mis-lemeanor. Sentenced to six months in county jail.

State vs. Stephen McLees, colored, larceny. Sentenced to two years in county State vs. Cul. Griffin, assault and bat-

tery with deadly weapon. Guilty. Judgment to be stricken out in case the lefendant secures a fine of \$25 and the State vs. Robert Alexander, colored seault and battery. Guilty. Sentenced

to two years in county jail, State vs. Charles Johnston, colored assault and battery. Judgment sus pended on payment of costs. State vs. Anthony Rivers, colored,

keeping a disorderly house, Guilty. Judgment suspended on payment of State vs. William Williams, colored larceny, Guilty. Sentenced to three

years in county jail. State vs. John Owens, colored, larceny. Sentenced to four years in the penitentiary. State vs. Dave Wade, colored, larceny. Sentenced to four years in the pentten

State vs. Isham Ruffin, colored, lar ceny. Sentenced to two years in the county jail. State vs. Sam. Hutchins, colored, larceny. Sentenced to three years in the

In the cases of the State vs. Oscar Nesbit and J. E. Adams, which had been continued, the bonds of the defendants having expired were renewed by Mr. Frank Snyder signing for them.

It Was All Right.

Wall Street News. A man who was looking through a second hand store in Brooklyn, with a view of finding a bedstead to suit him, finally examined one, and saked: "Are you sure there are no bugs in

"Bugs! Vhy det pedstead was oudt of my own family! We got it vhen my brudder Moses vhas here, und now he has gone away I sell it for half price." "Say. I believe it has had bugs in it."
"Ompossible, my frendt. My wife whas so neat dot if she knew of such

tings in der house she go grazy."

"And I'll be hanged if here isn't proof!" exclaimed the customer, as he pointed to an unimpeachable evidence.

The customer was going out with a heart broken look on his face, when the other detained him, and said:
"Dot's all right after all. Ef you puy dot pedstead you know you have bugs from a respectable family! Moses whos head clerk in Rochester, und you know! I whas here twenty-seven years in peed-

American Kings.

We are sometimes lost in wonder at the exactions and tyrannies of our American kings, but when we come to look at them fairly, to take into account the absolute power they wield, we can understand a Gould or a Vanderbilt exclaiming with Warren Hastings: "My God! I astonished at my own moderation." It is true that they have very largely taken control of business and politics and most public and private interests, but instead of complaining we are disposed to thank them for not having taken everything. But they have been at their trade only twenty years. They have certainly done well for so short a time. "It is alarming to think what the result will be if they gain as much in the next twenty years as they have done in the last twenty." We are sometimes lost in wonder at

Catton Seed Oil.

Of cotton seed oil, a correspondent of the Atlanta Constitution says: "Almost every educated family in New York city is to-day using it for all cooking purposes in place of so-called clive oil and lard. It is found to be a sweeter and healthler article of food than lard or ordinary butter, and is much easter to handle. Estimating that the supposed 7,000,000 bales of the present crop will gin out seed enough to make 6,000,000 barrels of oil, the South is shown to have it in its power to discard the dyspeptic pork and lard of the Northwest, save its money, and fall back upon its own home production of this purely vegetable oil, now rapidly gaining favor with epicures.

teresting to the Small Boy. John Burroughs in Century.

The song birds nearly all build low; their cradle is not upon the tree top. It is only birds of prey that fear danger from below more than from above, and they seek the higher branches for their nests. A line five feet from the ground would run above more than half the nests, and one ten feet would bound more than three-fourths of them. It is only the oriole and the wood pewee that, as a rule, go higher than this. The crows and jays and other enemies of the birds have learned to explore this belt pretty thoroughly. But the leaves and the protective coloring of most nests baffle them as effectually no doubt as they do the professional zoologist.

The Old Man's First Refusal.
