HANGED EARLY IN THE MORNING

Harvey Jones Pays the Penalty Shooting Deputy Sheriff Blake.

RALEIGH, August 27 .- This morning Harvey Jones was hanged in the yard of the jail in this city in the presence of 100 people. Early last year he shot and killed Deputy Sheriff Alvis H. Blake while under arrest. After a long pursuit he was captured, tried and sentenced to be hanged, but appealed to the Supreme Court, which last spring confirmed the decision of the lower court. He was sentenced to be hanged on August 8th, and the hanging was ordered to be public. This met with marked disapproval. In order that the commissioners might reconsider their action, the Governor respited Jones until to-day, and the execution was then made private. Jones had made a pro-fession of religion. He was remarkably self-possessed before the execution and on the gallows. He was hanged at 6:40 a. m., after speaking and praying. Death ensued in twenty minutes from strangulation. His age was 23 years. He leaves a wife and an infant. About 1,000 people were outside the jail with a strong force of police and special conand order was perfectly pre-

More Mobbing of Jews-Peasants Armed with Muskets Destroy Houses and Resist the Troops.

VIENNA, August 27th.-Violent riots against the Jews occurred at Egenezeg. Hungary, last Friday and Saturday nights. Two hundred peasants took part in the outbreak. They wrecked all the houses and shops of the Jews in the place and shouted "murder all the Jews." Troops were called out but were unable to suppress the violence of the mob until they were reinforced. The rioters also released a number of prisoners. A force of infantry and cavalry has been ordered to proceed to Egenezeg from Buda-Pesth. The riots lasted three days. The peasants were armed with muskets and stoutly resisted the troops. It is reported that 20 soldiers and many rioters were killed Riots against the Jews have also occurred at Chargo, Kesztshely and Kamoo-nogy. At the last named place troops had to be called out to suppress the

The Frank James Trial.

KANSAS CITY, August 27.—A special dispatch from Galletin dated yesterday, says the day here has been a quiet one and marked only by the discussion on the status of the Frank James case. The impression is general and growing that Dick Liddeli's testimony will prove a clincher if corrobrated in the majority of details, and the prosecution claims it is prepared to do. Liddeli's story has been confirmed as to events in Tennessee by witnesses from that State, but the defense will make a strong effort to break down his testi-

James received a good many callers in jail to-day. The belief is general that Frank James intended giving up train robbery, and was earnest in seeking an honest livelihood near Nashville. The capture of Bill Ryon, however, alarmed the entire gang, and Jesse badoubt edly persuaded Frank to go back to the old business. Hard luck at farming possibly also influenced him in this direction.

Cleveland and the Presidency.

Governor Cleveland's nomination can only be regarded at present as a very remote contingency. If he should be chosen at all it would be because it was believed no other Damocrat could carry New York. Should the Governor continue on in the same honest and fearless course he has thus far persued, the independent voters of New York would an port him for President in preference to any machine made Republican candidate. And the absolute necessity of carrying New York might obligs the

Postoffice inspector Camp has been designated to assume charge of the office temporarily.
