Daily Nournal-Observer GRESHAM'S BACK UP.

He leaves an Order to the Postmaster at New Orleans to Deliver no Regustered Letters or Cash Postal Orders to or for the New Orleans National

Washington, Sept. 19.—Postmaster General Gresham late this afternoon addressed a letter to Postmaster Merchant at New Orleans directing him not chant at New Orleans directing him not to deliver registered letters or redeem money orders addressed to the New Orleans National Bank and intended for M A Dauphin, of the Louisiana Lottery Company. The letter reads as follows:

Sir: Since you were instructed to deliver no registered letters reaching your office addressed to M A Dauphin, and to redeem no money orders payable and to redeem no money orders payable to him, he has directed in an advertise ment inserted in certain newspapers that all registered letters intended for him and concerning the Louisians State Lottery Company, be addressed to the New Orleans National Bank at New Orleans, and that all money orders sent to your office for his benefit and concerning the business of said lottery company be made payable to said bank. I am in possession of trustworthy information that this bank has been and still is receiving through your office registered letters and money orders for the benefit of M A Dauphin in pursuance of his published directions. This is a defiant scheme on the part of M A Dauphin and the New Orleans National Bank to evade the orders which have been addressed to you by the statutes of the United States, intended to pro-tect the mails and the public against a business which is victors and im-moral and which in the main preys upon the ignorant and credulous. This bank cannot be permitted to stand in the shoes of M A Dauphin and thus enable him to accomplish by judirection what he is not allowed to do directly. Hereafter, therefore, you will deliver to the New Orleans National Bank no registered letters and redeem no money erders payable to it, but deal with the same as directed by the order of the Department of November 23, 1879. This order will be revoked whenever

Maryland Democratic Convention.

BALTIMORE, Sept 19.—The Democrat-ic State convention to nominate candidates for .Governor, Attorney-General and Comptroller met at noon to-day at Masonic temple and was called to order by Hon A P Gorman, chairman of the State central committee, who briefly addresaed the body congratulating the members on the prosperous condition of the State under Democratic rule, and the unity and harmony prevailing in the ranks of the party. Ex-Gov Philip Francis Thomas was chosen temporary chairman. Mr Thomas addressed the convention counselling forbearance, wisdom and a sole regard for the public interests in its deliberations and expressing satisfaction that so many of the delegates present were gentlemen versed in public affairs.

The Massachusetts Republicans Nominate G. D. Robinson.

Boston, Sept. 19th.—The Republican State convention assembled here to-day. Chas R Cadman, of Boston, was made permanent chairman. In his opening address he alluded to Governor Butler as a man of great audacity, ready wit, copious speech, restless ambition, and a legislator identified with Congressional raids upon the treasury. G D Robinson was nominated for Governor, receiving 996 votes to 117 for Chas Francis Adams, Jr. Mr Ames was nominated for Lieutenant Governor.

Meeting of the State Convention-Stalwarts and Half-Breeds Come to Terms-Ticket Nominated.

RICHFIELD SPRINGS, N Y, Sept 19.—
The city is crowded with delegates and politicians in attendance upon the Republican State Convention, which was called to order at 12 m to-day by John F Smyth, chairman of, the State committee. Senator E G Lapham was chosen temporary chairman, and addressed the convention. All contests of delegates were settled amicably, the stalwarts giving way to the half-breeds stalwarts giving way to the half-breeds in every instance. After appointing two vice presidents and two secretaries from each judicial district, and the reg-ular committees on permanent organi-

zation, resolutions, etc., the convention took a recess until three o'clock.

At three o'clock the convention reassembled and United States Senator Miller was elected permanent president. He addressed the convention at length. Every allusion to the pretective policy of the Republican party and to President Arthur was loudly cheered. The following ticket was nominated: For Secretary of State, Joseph B Carr; Comptroiler, Ira A Davenport; Treas-urer, Plinty T Sexton; State Engineer, Silas Seymour; Attorney General, Les-The first two nominations were made

by acclamation, and the others, with the eption of that of Sexton, were balotted for and subsequently made unan-

There was a spirited contest over Sexton's nomination, which was made and supported by the stalwarts, while the hair-breeds named and supported Ethan Allen. The contest on thes nominations was close and exciting from the start. When Albert Dagget of Brooklyn, arose and cast 45 of the Kings county votes for Allen, and was followed by Henry Tremain throwing 79 of the New York county votes the same way, the excitement became very great, as these ballots placed Allen far ahead. The country delegates became alarmed at the unanimity of the New York and Kings county men, suspecting a job, and broke for Sexton, who was elected by 260 to 215 for Allen. The platform rejoices in the wisdom

of the administration, and commends civil service reform. The tariff plank is as fellows: We favor a system of tariff laws under which, while revenue for the government is provided, American producers are justly protected American labor elevated, and home markets secured to home products for

A SAVAGE MURDERER. He Nearly Severs His Wite's Head

from Her Bedy. HALIFAX, N C, Sept. 19 .- At Tellere Station, near here, three weeks age Enock Brown, a negro laborer, had quarrel with his wife. He went off to work and returning at noon seized an axe and as his wife was preparing dinner struck her a blow which nearly severed her head from her body. After committing the murder he dragged the body to the fire place so that the asher might absorb the blood. He shut up the house and returned to work; that night he dug a hole near the house and buried the body. The next day he was asked about his wife and said she had gone to Virginia to see her people. This was supposed to be true until he told contradictory stories which caused his father-in-law to become suspicious, as be knew that Brown and his wife had quarreled Monday afternoon. body of the woman was found in her grave within three feet of the house. Brown who had remained at work was arrested and at once confessed to the killing. He said he only intended to frighten his wife when he struck at her with an exe but that she was standing nearer than he thought. He was brought here to day and locked up.

French Outrages in Tamatave.

LONDON, Sept 19.—A dispatch to the Times from Calcutta states that the published account of the French outrages at Tamatave falls far short of the truth, and adds that when the English-man Mr Pakenham was dying the French priests endeavored to force him to become a Catholic and compelled him to kiss the Crucifix.

The Atlanta Postmastership. WASHINGTON, Sept. 19.—Ex-Postmas-ter Conley, of Atlanta, Ga., called on Postmaster General Gresham to-day and applied for reinstatement as post master at that place. The Postmaster General heard him patiently, but de-clined to rescind the order suspending him. Ex-Congressman Freeman and Col Marcellus Thornton are applicants

for the vacancy. Another Call for Bonds. Washington, Sept. 19.—The Secretary of the Treasury this afternoon issued the one hundred and twenty-second call for bonds, to be paid December 1st, 1883, amounting to \$15,000,000. The bonds called in are three per cents, issued under the act of Congress of July 12th, 1882. All of the bonds will be called by the original numbers only. called by the original numbers only.

Failure of Lumber Merchants. WILLIAMSPORT, PA, Sept. 19.—Peck and Barnard, lumber merchants, have made an assignment. They were embarrassed by the failure of the Palmetto Lumber Company, of Charleston, SC, and Lloyd & King, lumber dealers of Philadelphia. Feck & Barnard's endorsements for the two firms were redorsements for the two firms were reported at over \$250,000.

Outrages in Tucson.

San Francisco, Sept. 19.—Three outrages by desperadoes are reported from Tucson, Arizona. A telegram states that, the citizens fearing to take measures against the perpetrators, the Governor will have to suppress them. The civil authorities are powerless.

Embarrassed Shirt Makers. PHILADELPHIA, Sept 19—J Black & Bro, manufacturers of shirts, are reported embarrassed, and the sheriff has issued an execution against them on a judgment for \$20,495. The liabilities are reported at \$50,000.

Mrs. Gen. Jackson and her daughter, Miss Julia, are still in Boston, the guests of the State of Massachusetts They are not allowed to spend a cent of money for anything and are always escorted about by some distinguished attendants. Carriages and street cars are always at their disposal free, and they are always given private boxes in the theatres. The greatest attention is being shown them wherever they go and Boston is lionizing them. Truly the era of reconciliation has begun and the war has been forgotten.

The Home for Disabled Soldiers. We mentioned a few days ago that a movement was proposed to endow a home for disabled ex-Confederate soldiers in this State, a gentleman from Edgecombe offering to be one of 500 to give \$100 each, and Mr Eccles, of this city, offering to be another of the 500. Murder Trial in Concord. The trial of David Fraley, for the murder of Mr. Walker in Stanly county commences at Concord this morning, and it is said that the case against Fraley is a hard one. His counsel tried to have the case continued, stating that They had just heard of two witnesses without whose presence the trial could not proceed. Judge Gilmer asked for their names and issuing a warrant, gave tt to an officer with instructions to hire a horse and buggy and go summon the and then ordered that the case should come up to-day. Judge Gilmer is making a fine impression upon the people. They admire his business-like way of proceeding.

A Remarkable Case.

Strange things are always happening, and a medical gentleman of this city tells us of a remarkable case that came under his observation last week. A little child in an adjoining county some time ago swallowed a grain of oats without its parents' knowledge. Shortly afterwards the child was taken sick and notwithstanding the attention of the physicians it continued to grow worse and declined in health rapidly. A few days since a painful sore spot came on the child's side, and shortly after it was noticed the child's parents were surprised to see a grain of oats come out through the sore place. Since the oats came out of the side of the child, its health at once began to improve, and the inference is that its illness was caused by the grain. This is a case for cogitation by the medical fraternity.

Sweeping Changes in the Richmond & Danville. Some anticipated changes in the affairs of the Richmond & Danville railroad, of an important character, are to interested mileage. This is the first be made by the new managers. Mr Geo E Scott, one the new managers, gives a reporter of the New York World authority to say that the affairs of the road are to be put in a more satisfactory condition. The amount of the and West fast freight lines of Pennsylthat by retrenchment this will be paid off in two years. Among other items there is to be a saving of \$78,000 in office expenses and it is intended to abolish the New York office. The company holds valuable securities of auxiliary and other corporations for a large sum and it will receive over \$300,000 from those companies in a year. A meeting of the new directors is soon to be held.

New Enterprise Booming. Messrs. W C Petty & Co, who recently equipped a factory at Bush Hill, near High Point, for the purpose of making all kinds of power loom shuttles, are meeting with the most gratifying success in their new enterprise. They have been running only about six months and their workgives the fullest satisfaction. Being located in the midst of the finest dogwood and persimmon timber in the country, and cutting their own stock, they can insure patrons that none but the finest selected wood will be used in making the shuttles. Their prices will range with those of Northern makers. It is the aim of the company to supply Southern manufacturers with a Southern made shuttle that cannot be excelled as to quality of material, workmanship, finish or fitting. It is strictly a North Carolina enterprise and we are glad to note is a success. Mr. T. L. Vail has samples of their work on exhibition in this city.

Discovery of a New Comet. The new comet has been seen from the great observatories North and West. and this much can be said at present: Owing to its slow motion its precise path cannot yet be predicted, but it is a great distance from the sun and earth; will reach its nearest point to the sun about March 15 of next year, and then be about 70,000,000 miles from that lu. minary. These particulars, coupled with the fact that it is now visible and shows a star like point at its centre make the probability very great that we shall have this winter a notable object in the heavens. To one familiar with this subject, these points call to mind the first observations of Donati's comet of 1858, which was dicovered four months before its perihelion, was only visible to the naked eye two months after discovery, and only then presented traces of a tail. Its nearest approach to the sun was 40,000,000 miles, and it was distant 240,000,000 miles when dis-

North Carolina at Denver.

Boston is not the only place where our State is making a show, thanks to the enterprise of the Richmond & Danville Railroad Company. The exhibit made by this company at the Atlanta Exposition in 1887 attracted a great deal of attention-more, probably, than any single exhibit there. And the exhibit which this company has at the Colorado National Mining and Industrial Exposition at Denver is also at-tracting the attention it deserves. Capi-About the middle of October an ex- visit the Colorado Exposition, and the cursion under the patronage of the Richmond & Danville was wise to send Reynolds, Philadelphia; W B Douglass managers of the Baston fairs will leave products of the States through which and wife, Winnsboro, S C; Mrs B M the reads of the system pass, notwiththe South for Boston. A special train will leave New Orleans and stop at Mobile, Montgomery, Augusta, Atlanta, Charlotte, and Richmond for the fairs. The rates will be remarkably low, and the excursionists will be specially entertained and taken care of in Boston. Mr J B Gomes, of the Boston Herald, and manager of the late Mardi Gras excursion from Boston to New Orleans last February, will be the manager of this one. Mr C D Weld his and anymerating the various articles. McPhail, telling him of the great attention the axhibit is attracting at Denver, and enumerating the various articles that are shown. The exhibit consists of iron, copper, gold, woods, minerals, mics, etc. Specimens of mics from Morth Carolina are exhibited that are worth from \$1.50 to \$6 per pound.

Another Murder Case for Judge Gilmer. Mr. A. C. Freeman, clerk of the Superior Court for Stanley county, was in the city yesterday. Col. Chas. R. Jones was subposned by him to appear in Albermarle next Monday, and bring with him copies of the Observer containing accounts of the murder in Big Lick, last spring, of a young man named Charlie Fox. Dr. Richard Anderson, upon whom suspicion rested, was afterwards indicted by the Grand Jury and will be tried on the charge of murwitnesses to come to Concord forthwith | der at Stanly court next week. Doctor Anderson's friends say that he will be acquitted of the charge. This thing of hauling editors into court is becoming unpleasantly frequent of late, and if it continues, timid reporters will soon be afraid to say anything about a murder case, but let them pass by unnoticed, The editor of the JOURNAL-OBSERVER was subpossed to appear in court here last week and produce the papers containing accounts of the Shields-Sitton tragedy, and now the Observer man has to hustle off to Albermarle with his files. Sabponas do not meet with a popular reception in the sanctum.

A Fast Freight Line to the South.

A new fast freight line, to be known as the "Great Southern Dispatch," is now being organized by the East Tennessee, Virginia and Georgia, Norfolk & Western, Shenandoah Valley Western Maryland, Cumberland Valley and Pennsylvania Railroads, to run between all Southern and Southwestern points and Baltimore, Philadelphia and New York. No announcement has yet been made, says the Baltimore Sun, of the time of inaugurating the line, but it will doubtless be ready for business within the next thirty days. The line will start with 500 cars provided by the several companies in proportion to their through Scuthern freight line ever established with Baltimore, and in that respect it is to the business community the most important railroad movement contemplated for some time. The East vania, Baltimore and Ohie and the other trunk lines are conspicuously known everywhere and their business is enormous. The main stem of the Great Southern Dispatch will be 1,100 miles long, from New York to Chattanooga, or Selma, but its cars will be sent to all points east of New York and over the South and Southwest.

Mrs. Grundy Says That Winter dress goods are the most elegant and stylish that shoppers have seen for many a year. Any kind of a hat and every sort of a bonnet will be entirely in fashion this fall and winter. Plain white French china is coming into fashion again, it being cited that at some of the most fashionable of Newport dinner parties of late only white, undecorated china was used. Ladies' traveling suits this autumn were never prettier or more stylish, and that it is a good pastime to sit down and calculate how many yards of braid it takes to trim one of them. In jewelry there are many new styles and designs, some very unique and pretty, others rather "loud," and best appreciated by people who are not conspicuous for good taste. Fall hats are ornamented with the heads, wings and breasts of birds that fly both at home and abroad, but that where some of them belong is a mystery-Something new in candlesticks is o curiously carved Swiss wood with a wear a bustle, though this is something that in the excitement incident to fashion and style is often forgotten. Now drawing to an end, it is curious to note the number of conquests they have won for the wearers of all types and degrees of age and loveliness. Dressmakers just back from Paris say that reception and ball dresses are not to have sleeves and that the waists do not take a great deal of material, and that people began to say "I told you so" last winter.

Give Him a Stamp to Write to His Ma. The very latest fraud out is the postage stamp racket, and it is being worked in this city, having been introduced by a sharp young America yesterday morning. "You see, they work it this way." said a citizen in explaining it to the reporter. "This morning while I was at breakfast, my wife answered a knock at the door and found a boy standing on the steps. The boy raised his cap and in a most polite tone, informed my wife that he was from Louisville, but had been to Baltimore and was now working his way back. He wanted to write a letter to his mother and begged for a postage stamp. My wife was favorably impressed with his honest face and came back to ask a stamp from me. I went to the door and told the boy that I was going up town and if he would go with me, I would get the stamp and see him mail his letter. 'Good morning,' was all he said as he turned on his heel and put out of the yard. I watched him as far as I could, and he stopped at every house within sight. It's a good business. Suppose he collects 100 stamps in a day, which, no doubt, he does; there's \$3 in his pocket. Don't you see it?" On inquiring around we found that the honest little boy from Louisville who wanted to write to his mother, had been at a number of houses where his plea was successful. If he uses them all for the purpose for which he said he wanted them, his poor ma will be overwhelmed with correspondence. It is certainly "the latest," and our people would do well to keep a lookout for the postage stamp boy. He's a sharp one.
