GASTON PAUL, City Editor.

## LOCAL DEPARTMENT.

Advertisers, or others, who may find it inconvenient to bring their favors to the office of the OBSERVER, can leave them at the Book Store of TIDY & BROTHER, Springs Corner, and they will be promptly attended to.

All kinds of mercantile printing, such as circulars, letter heads, cards, bill heads, statements, &c., for counting-rooms and offices, promptly attended to at the OBSERVER job office.

We are prepared to do Job Work in its various styles, with neatness and despatch. It is not our intention to have the people believe that we can do better Job Work than can be done in the State, but we think we can compare favorably with any. Cards, Circulars, Bill Heads, Letter Heads, &c., will be done up neatly and expeditiously. Our work will show for itself, therefore, we will merely mention that if you have anything in that line give us a call.

1429.  
Giving Col. H. C. Jones, the Conservative candidate 182 majority.

The usual services will be held in Tryon-street Church to-morrow.

In the evening, the Pastor will preach on the Apocalyptic Symbolism of Death and Hell. Applicants will be received after the sermon.

### Newspaper Spongers.

An exchange well says that there are many persons who either take no paper at all, or else take one from another city, and when they wish to see what is transpiring in their neighborhood they borrow the local paper from some citizen more liberal than themselves. Many men of this kind are engaged in business, and frequently grumble because people do not patronize "home industry" when they practice the very thing of which they complain.

The Rice Crop of the Cape Fear this year is estimated at from 25,000 to 30,000 bushels. This is in reality about the same crop as that made last year though a larger estimate was at first given then.

THE ADVANCE.—The Rev. W. E. Pell proposes to issue on or about the first of November next, a paper to be called *The Advance*, to be in the interest of the farmer, mechanic and the material interest of the people of North Carolina—weekly, at \$2.00 per annum. Such a paper will, we doubt not, receive a good patronage.

A BOLD ESCAPE FROM JAIL.—At about 11 o'clock yesterday morning John Williams, a negro man who was confined in the common jail of this county on the charge of larceny, broke jail and effected his escape.

One of the prisoners wrote a note to the Jailor informing him of the negro's doings, but too late. When Mr. Ezzell arrived at the jail the scoundrel had made good his escape.—*Goldboro News*.

A very unsatisfactory sort of bread.—The roll of Fame.

Ladies wear corsets from instinct.—A natural love of being squeezed.

An exchange paper says: "Truth" is in type but is crowded out by more important matter.

Happiness consists of being perfectly satisfied with what we have got and with what we haven't got.

Why is the letter S likely to prove dangerous in argument? Because it turns words into swords.

Mankind should learn temperance from the moon—the fuller she gets, the shorter her hours become.

"Pa, what is the use of giving our pigs so much milk?" "So that they may make hogs of themselves, darling!"

A man turned his son out of doors lately, because he wouldn't pay him house rent—a striking proof of parental affection.

"Sambo, why am dat nigger down de hole of de boat like a chicken in de egg?" "I give 'um up." "Cause he cov'ln't get out if it wasn't for de hatch."

"Papa, what is humberg?" "It is," replied papa, "when mamma pretends to be very fond of me, and puts no buttons on my shirt till reminded of it a dozen times."

A French newspaper, speaking of a new cemetery opened near Lyons, says: "M. Gascogne was the first person who had the pleasure of being buried in this delightful retreat."

"Eat nothing to cure a cold" advises an exchange. If this be a sound prescription, people who dwell in certain boarding houses need not fear any disturbance of a catarrhal nature.

### Hotel Arrivals.

CHARLOTTE HOTEL.—W. M. MATTHEWS & SON

Sinclair, Pa. W. S. Haddon, Md. A. H. Story.

THE MACKEREL.—is a game fish. They ought to be well educated, for they are always in schools.

They are very crazy to bite, and are caught with a piece of old red flannel petticoat tied on a hook. They ain't the only kind of fish that are caught by the same kind of bait.

Mackerel inhabit the sea, but those which inhabit the groceries always taste to me az tho' they had been born and fatted on salt.

They want a good deal of freshening before they are eaten, and want a good deal of freshening afterward.

If I can have plenty of mackerel for breakfast, I can generally make the other two meals out of cold water.

Mackerel are considered by many folks the best fish that swims, and are called "the salt of the earth."—BILLENGS.

A man in Albany recently rescued his runaway wife from her paramour, by force, and in spite of her vehement declaration that she loved her lover better than her husband, thrust her into a hack and abducted her to his home.

Insect bites, and even those of a rattlesnake, have passed harmless by stirring enough of common salt in the yolk of a good egg to make it sufficiently thin for a plaster, to be kept on the bitten parts.

### 1866.

In 1866 the first bottle of HEINTSH'S QUEEN'S DELIGHT was prepared by himself, and submitted to the judgment of the highest professional skill in the country. Its approval and endorsement by the profession, has secured for it the greatest reputation of any medicine extant. 15,000 bottles have been sold at home where it is known and recognized as the only family medicine possessing intrinsic merit, and the sales are largely increasing every day.

This "QUEEN'S DELIGHT" is compounded entirely of Vegetable products, no mineral poisons introduced to give efficacy, but is purely what it is represented to be, a Vegetable Alternative, producing a gradual change in the functions of organs as to permit a healthy action to take the place of disease. It is, therefore, recommended as an Alternative, purifying the blood, as a Liver Invigorator, as a Stomach Regulator, as a Tonic for Weak Digestion, as a Stimulating Alternative Deopositive, promoting perspiration, removing humors in the blood, producing a healthy action of the skin, driving out Boils, Pimples, Blotches and other Cutaneous diseases. It acts gently on the Bowels, removes effluvia matter—consequently cures Headache, Nervous disorders, Female complaints, and promotes periodical regularities.

It is an Invigorant and Tonic of the most reliable kind. It produces a gentle and permanent excitement of all the vital actions in the functions of organic life, and is the remedy in all diseases of the Stomach, Liver and organs of digestion.

HARD STORY.—During a recent visit to New York President Grant expressed a desire to purchase some cigars, and visited quite a number of establishments for the purpose of testing their brands, &c. The result was that, unknown to each other, each dealer visited resolved to make the President a present, and he received no less than seven thousand prime Havanas.

Honest industry is always rewarded. No young man need complain of being kept poor, if he rolls up his sleeves and goes carefully to work.

Proceedings at Wilmington against the Hornet, were ordered by the Cabinet yesterday.

The report that Secretary Fish, had been notified, that the English and French Governments ordered their fleets to pursue the Hornet and hang her crew, is untrue.

Attorney General Hoar has rendered an opinion to the effect that the Secretary of War cannot preclude Claim Agents or Attorneys from prosecuting business in his Department in all proper cases, but when there is reason to suspect frauds, the right and duty exist to suspend such business intercourse; it being proper and obligatory to protect the Government from frauds. The Agents or Attorneys should be furnished with the reasons for such suspension in order to vindication.

An opinion was rendered in a case alleged to affect the payment of bounties to colored troops; it being said by an officer who investigated similar claims that they were tainted with fraud.

J. H. The prisoners are charged with murder in June last and it is alleged that they are now being tried by a Military Commission.

WASHINGTON, Oct. 7.—Private dispatches still indicate Johnson's election, though the Stokess party may hold the balance of power and compel a compromise.
