	HAVWARD AND CLARK'S COT	TON

HAYWARD AND CLARK'S COTTON New Orleans, Jan. 21 .- Creditable informatio nabout the chaustion of unginned cotton and a consequent reduction in

October-November.. 4.931/2 supply views started fresh buying by

This morning's cable says: "Advance due to spinners calling cotton." Spot prices in Liverpool were 8 points higher and sales 12,000. Near futures in connection with the calling of spots adanced 8 points and distant futures about

On our side there is no abatement whatever in the builish spirit and buying is so continuous as to overcome all claims ually. For instance, the latest dry goods report is very optimistic and reads: "A large business is being done in cotton goods. Advances in sme domestic cotton goods lines are looked for." News from abroad clearly shows that the advance in the raw material is helping manufacturers. The firm belief that the census report on Saturday will confirm the National Ginners' forecast and cause further advance on reduction in supply views is at the bottom of the resolute buying which advanced our market 8 points soon after the opening,

The spot market so far to-day is quiet, % advance and holders are very firm and hard to trade with. HAWYARD AND CLARK.
