

Jeff Will Have To Get An Aeroplane To Get Mutt Back

By "Bud" Fisher

IN THE WORLD OF SPORTS

WENT 11 INNINGS.

New York Lost a Poorly Played Game to Philadelphia.

Philadelphia, Sept. 30.—The smallest crowd at an American League game here this season saw a poorly played game in which New York lost to Philadelphia in 11 innings, 11 to 10. Neither Bush nor Caldwell was effective. They were given poor support. Collins scored the winning run on his double, an error by Hadcock and a single by McInnis.

Score: R. H. E. New York... 000 200 050 09—10 13 5 Philadelphia... 020 032 300 01—11 15 8 Batteries: Caldwell, Schulz and Sweeney; Bush, Covaleski and Lapp. Time, 2:30. Umpires, Hart and Dinneen.

O'BRIEN A PUZZLE.

Washington Was Unable to Find Boston Pitcher.

Washington, Sept. 30.—Boston defeated Washington today. O'Brien had Washington puzzled until the seventh when, with his team six runs in the lead, he eased up.

Engle was wild and ineffective and retired after the sixth and Washington used two recruit pitchers. A double by Stahl with the bases full and catches by Yerkes and Laporte were features.

Score: R. H. E. Boston... 011 011 300—7 7 2 Washington... 000 100 202—6 11 Batteries: O'Brien and Cady; Engle.

Here is a woman who speaks from personal knowledge and long experience, viz. Mrs. P. H. Brogan, of Wilson, Pa., who says: "I know from experience that Chamberlain's Cough Remedy is far superior to any other. For cough there is nothing that excels it." For sale by all dealers.

PITTSBURG STRONG.

Pirates Batted Chicago Pitchers All Over the Field.

Chicago, Sept. 30.—Pittsburg batted Chicago pitchers all over the field today and easily won, 9 to 3. Hendrix held Chicago to five scattered hits. In the opening inning Byrne strained a tendon in the foot sliding home and was carried off the field.

Score: R. H. E. Chicago... 000 100 200—8 5 0 Pittsburg... 140 200 011—9 13 2 Batteries: Cheney, Toney, Powell and Archer and Yanis; Hendrix and Gibson. Time, 2:0. Umpires, Owens and Brennan.

CINCINNATI EASY.

St. Louis Hit Fromme at Opportune Stages and Ran Bases as Will.

St. Louis, Mo., Sept. 30.—Perritt was steady after the third inning while his team-mates hit Fromme at opportune stages and ran the bases to suit themselves, winning from Cincinnati today 8 to 4. The locals' fielding was excellent.

Score: R. H. E. Cincinnati... 202 000 000—4 5 4 St. Louis... 000 201 300—8 8 0 Batteries: Fromme and Severoid; Perritt and Snyder and Bliss. Time, 1:45. Umpire, Rigler.

BROOKLYN WON.

Played Better Ball Than Boston and Cinched Game in the Eighth.

Boston, Sept. 30.—Brooklyn played better ball today and defeated Boston 6 to 5. An error, a base on balls, a single and a sacrifice hit netted the visitors two runs in the eighth, giving

REST CURE PUTS MARQUARD IN TIPTOP SHAPE AGAIN

NEW YORK, Oct. 1.—Manager McGraw of the New York Giants has been giving Marquard the "rest cure" so that he may be at his best in the world's series, and the well-informed among New York fans are counting on this favorite as a probable heavy factor in the pitching department of the Nationals.

Marquard was overworked in his attempt to beat the record for straight victories, and his manager decided to let him recover his nerve and stamina.

He is now working like a beaver in private and McGraw expects to have him keyed up to the top notch at the proper moment.

STEAMER CREW FIGHTS FIRE IN CARGO HOLD FOR TWO DAYS

BOSTON, Oct. 1.—On decks so hot that their feet were blistered, the crew of the steamer Indramayo fought a fire in one of the cargo holds for two days while the steamer was in the Indian Ocean, according to the report of the officers on arrival here.

The Indramayo comes from Japanese and Chinese ports. Nine hundred tons of cargo was damaged by the fire.

REVIEW OF SEPTEMBER WEATHER

SHOWS EXCESSIVE TEMPERATURE

The hot period, which began before the middle of August, continued almost through the month of September. Not a single day of the month just passed was below the daily normal, until the cool period, beginning on the 28th. This gave a period from the 12th of August to the 27th of September, 47 days, during which time the temperature was normal or above for the entire time. The last three days of September were abnormally cool.

The mean temperature for the month was 75 degrees; the normal is 70.7 degrees, making a daily excess of 4.3 degrees a day. The accumulated excess in temperature at the close of the month was about 140 de-

grees. The deficiency in temperature since January is 252 degrees.

The highest temperature for the month was 96 degrees, recorded on the 2d. This mark is also the highest for the summer of 1912. The lowest temperature reached during the month was 57 degrees on the 30th. The first three days of the month were excessively hot, the daily excess on each day being 10 degrees.

The droughty conditions which prevailed throughout August also continued in September until the 23rd, the dry weather being only temporarily relieved by a half-inch of rain during the thundershower which occurred on the 8th, and by other lighter showers, a greater part of which were but light sprinkles. During the rains of the 22d-24th, however, 1.98 inches

were recorded, and the ground was thoroughly soaked. Other good showers occurred on the 26th and 27th. The total precipitation for the month was 3.50 inches, an excess of 0.28 inch. The deficiency in precipitation since January 1 to date is 2.40 inches.

Details in temperature, weather, etc., are shown in the accompanying cut. The upper left hand figures in each square represent the dates, the circle shows the cloudiness, by the proportion blackened, the upper right hand figures the highest temperature for the day, below this the lowest temperature, and across the bottom, the precipitation.

The month just closed was unfavorable as a whole to vegetable growth, on account of the excessive heat and lack of moisture which prevailed throughout nearly the whole of the month. The rain during the latter part of the month arrived in time to be of considerable benefit to late staple crops, but perhaps their greatest benefit was in placing the soil in good condition for fall cultivation and seeding.
