MOVEMENT OF COTTON.

Secretary Henry G. Hester of the New Orleans Cotton Exchange, an acknowledged authority, says that the amount of cotton brought into sight during the first month of the present season was 1,425,316 bales, a decrease under the same period last year of 176,158 bales. The exports were 668,-257 bales, a decrease of 271, 170 bales. The takings were, by Northern spinners, 96,484 bales, a decrease of 27,-163 bales; by Southern spinners, 199,-252 bales, an increase of 27,291 bales. During the 34 days of the season the amount brought into sight was 1,789,-792 bales, a decrease of 165,500 bales. The exports were 877,704 bales, a decrease of 199,008 bales. The takings were, by Northern spinners, 144,877 bales, a decrease of 24,751 bales; by Southern spinners, 235,252 bales, an increase of 29,313 bales.

ANENT APPLE GROWING.

The Manufacturers' Record gives an interesting record of the actual results from apple orchards in Virginia the non-injurious pranks of students for the past two years and the showing is decidedly in favor of the importance of the orchard. The investigation of the Virginia orchards show would be enforced to the limit would hat 15-year-old trees ought to produce an average of from four to five barrels a tree. As the average in this territory is 40 trees to the acre, the yield of from four to five barrels a tree would be from 160 to 200 barrels per acre which approximates the estimate of 175 barrels to the acre.

In the conclusion of the story The Record says: "The average production of 140 barrels to the acre for a series of years on a particular tract of land within a territory yielding an average of 53 barrels to the acre in the past two years indicates the possibilities in apple growing to some extent, while even the smaller average production of 53 barrels to the acre suggests the advantage of apple culture over the growing of other crops in illustration of the benefits to accrue from diversification in agricul"

Congressman Claude Kitchin will visit this country and deliver several speeches in the interest of the candidacy of his brother, Gov. W. W. Really it is a little too bad that Congressman Claude should waste the time to speak to Mecklenburg folk-they have heard all of the arguments already and maybe there are some people somewherewonder where-who have not. To speak from the heart it is hardly necessary to deliver that address anywhere. It seems that the result of the Kitchin brothers is toward Clark.

(Asheville Citizen.) The friends of Hon. Locke Craig, North Carolina's Democratic candidate for the governorship, should not be disturbed by the report that hidden enemies in the eastern part of the State, the same gang, doubtless, that stabbed him in the back four years ago, are circulating reports to effect that Mr. Craig once voted for a Republican in Bertie County. As natter of fact—Mr. Craig left Bertie efore he was old enough to vote. If such reports are being circulated, they are doomed to die an early death because of their very absurdity. But really the average campaign canard is one reported to be aimed at Mr. Craig would not be discussed here were it not apparent to his friends that invisible forces, working for a certain senatorial candidate, seek to advance their candidate's interests by to Europe, has written a book. A traveling man tells us that he spent last week in the fifth congressional district, which is considered Kitchin's stronghold. In Guilford and Forsyth, the two largest counties, Simmons is gaining so fast that bets are now at even money that he will carry those countles. He is assured of Granville and Surrey and two other counties in the district, and his magers are also making a great fight even in Durham, the home of the American Tobacco Company, which did such valiant work for him four years ago.

Mr. Kitchin was a member of the executive committee that prepared the 912 handbook, which says: "Reciprocity looks like free trade, but tastes like protection. It is really a new sugarcoated pill prepared by the Republican tariff doctors for many patients who are refusing to take their protection straight. In practice it is worse than rotection." Yet, when President Taft tried to force reciprocity on the country, Mr. Kitchin violently criticises Senator Simmons for voting against it. Which time was Mr. Kitchin right?

Memorial to Dr. Seaman A. Knapp A living, useful memorial will be creeted in honor of the late Dr. Seaman A. Knapp of the United States Department of Agriculture, founder of the farm demonstration work. The Knapp memorial committee has decided to raise \$150,000 with which to purchase and equip a farm and erect a building in connection with the Greater Peabody College for Teachers, in Nashville, Tenn. the Senate. The General Education Board of New York recently appropriated \$250,000 to enthis school will be located on the campus great, masterful, benevolent person will always be an inspiration to thousands who may come and go. The farm will be located within 10 or 12 mites of Nashville, and will be conducted in accordance with the demonstration methods, It will contain about 200 acres. Pure-bred seed and animals will be dereloped. The best devices and implements will be used. Crop rotations will be worked out for different Southern conditions. Demonstration agents, rural chool supervisors, State and county superintendents of education and other workers will make this farm a rallying point, in order to carry back to their States the benefits of the work done there. Corn club boys and canning club girls will also make occasional trips to this agricultural Mecca for inspiration and instruction. The plan of the committee was presented late in July to the Teachers' Summer School at the University of Virginia, At the first presentation more than \$1,000 was "bscribed. and hundreds of teachers volunteered to aid the committee in their schools and communities. Mr. Early appeared before the farmers' round-up institute and meeting of demonstration agents at the Agricultural College of Alabama and explained the plans for the memorial. Five hundred dollars in contributions and five hundred in subscriptions were raised in a few minutes. State committees have been organized in all the Southern States, and the work of raising the memorial funds will be pushed with

Reckless Campaigning. (Newton Enterprise.)

Lack of space last week prevented our noting all the vulnerable parts of Governor Kitchin's very vulnerable speech. There are two assertions he made that we will refer to this week. He said that the reason the late Governor Aycock, who had been a lifelong personal and political friend of of Senator Simmons, became a candidate for the Senate was that he did not approve the votes of Senator Simmons on Lorimer, lumber and other questions. He also said that Senator Simmons had entertained Lorimer at his home in Newbern and that the two were at the time interested in making some lumber deal, endeavoring to make the impression that Senator Simmons' vote against expelling Lorimer was on account of intimate social and business relations.

The first assertion is in direct conflict with what he and his friends were constantly saying about Gov-ernor Aycock's candidacy while he was still alive. Then he said Governor Aycock was running to help Senator Simmons, by drawing votes from him (Kitchin). And his chief appointee, Laughinghouse, superintendent of the penitentiary, was writing letters describing Aycock as a confirmed drunkard and wreck. It suited his purpose while Aycock was alive dition. She further says: "I was also to attack the sincerity and integrity very nervous, had headaches and dintegrity of his candidacy and call it only a spells, and was fast getting worse whe blind in the interest of Senator Simmons. Since his death it suits his purpose better to say that Aycock became a candidate because he disap-

proved of Senator Simmons' course in The second assertion about Simmons entertaining Lorimer in his dow the Seaman A. Knapp School of home is utterly false. We do not say Country Life. Nothing like this school Kitchin invented the falsehood, but has ever been worked out anywhere. It he repeated in a public speech some without taking the trouble to investigate and find out whether there was any foundation for 't. Governor Kitchin made this same statement in Goldsboro last Saturday, and Senator Simmons' attention having been called to it, said there was no truth whatever in it. He never entertained Lorimer at his home or had any business deal of any kind with him. It is hard to think that a man occupying the position of Governor and aspiring to the position of Senator, could be guilty of such a style of campaigning, but all who heard him in Newton will testify that we have reported him correctly.
