play was produced in the original French. The book originally by Paul Harvey has been rendered into English by George V. Hobart and "Alma, Where Do You Live?" proved one of the big successes of a Broadway season when presented by Manager Joseph M. Weber at his own theater at Broadway and Thirtieth street.

WILSON HOLDS INDIANA VOTE

Indications Are Toward 100,000 Majority For The Democratic Candidate

REPUBLICAN FIGHT IS CENTERED FOR SECOND

Hardest Fight in Buckeye State Now Is Between Republicans and Progressives to Keep Out of Last Place in the Race—Governatorial Candidates Fight to the Last Ditch While Democrats Work Steadily Ahead Toward Victory.

(Special to The Chronicle.)

INDIANAPOLIS, Ind., Oct. 28.—Gov. Woodrow Wilson will carry Indiana by a plurality of 100,000 over Colonel Roosevelt unless there is a vast change in the situation during the next few days.

There has been no thought of victory among the President's followers in Indiana for the past month. They have realized that the best they could expect under the circumstances was second place so they are bending their energy in that direction.

The Republicans have former Governor J. F. Hanly speaking twice a day. He is a bitter foe of former Senator Albert J. Beveridge, Bull Moose nominee for Governor. He is scorching Beveridge in every speech and is turning on the lime light in a manner that is disconcerting to say the least from the Beveridge point of view.

Telling State Secrets. Colonel W. T. Durbin, Republican nominee for Governor, is going after Beveridge hot and heavy. Beveridge is a vigorous campaigner and he is hitting back right straight from the shoulder. He is showing up the ineptitudes of his own party far better than the Democrats could.

The situation could not be better for the Democrats if they had made it to order. Wilson is proving himself to be one of the most popular candidates the Democrats have had in Indiana. The Democrats have a fine State ticket headed by Samuel N. Ralston for Governor. They have the best organization and are working without factions. The result is that they will present a united front on election day against two Republican parties.

The Republican business men and manufacturers here have learned to their great dismay that their forces are hopelessly divided in the factories which have been the stronghold before. They took a poll of a large saw works here three weeks ago and of the 1,000 men there but 50 declared for Taft. Another poll taken in Indianapolis this week gave Taft less than 100, which showed that the vigorous efforts to frighten the laboring classes into voting the Republican ticket by the old calamity howl is not cutting any figure. The Taft men polled another factory here in which there are 500 men and Wilson received almost as many votes as Taft and Roosevelt combined.

Straw Rolls Encourage. The Cincinnati Enquirer's poll which has covered practically the entire State, indicates that Wilson will win by from eighty to one hundred thousand plurality and that the Democratic State ticket will be elected by a comfortable margin. The same poll indicates that Roosevelt will be second and Taft a poor third. However, the Republican regulars maintain that Taft is gaining ground in the outlying counties and that he won't lose very much among the farmers who have been off because of the Canadian reciprocity bill. However, the situation in the factories is hopeless from a Republican standpoint.

Noonday factory meetings are being held in Indianapolis, Evansville and other large cities in hopes of scaring the laborers back into line. It was admitted today by men at the head of the Republican campaign that the efforts are fruitless.

Business men have been reluctant to get into the old-fashioned game for the Republicans. With the election of Wilson regarded as a certainty business is going on just as well as ever. In fact, business is better here now than it has been for some time, and the laboring classes are lining up for Wilson. There are thousands of independent voters who can't stand for the Taft or Roosevelt machines and on that account they are going to vote for Wilson. The average Democrat sees a fine chance for victory and is going to the polls prepared to stand for his own ticket.

Governor Marshall has summarized the situation pretty well with the statement that for 16 years in Indiana, 200,000 Democrats have been going to the polls regularly to vote their principles when they knew there was very little chance of victory. They

stood together then and he figures that with victory assured they will not flop over to the Republicans or Bull Moosers. The Enquirer poll shows that for every Democrat Roosevelt gets Wilson will get more than two Republicans, so it is an easy matter to figure out how Wilson is going to run away from the field. The betting is three to one on Wilson in Indiana but no one seems willing to bet a penny that he won't win. Five to four is offered that Roosevelt and Beveridge will be second and Taft and Durbin third.

THE NEW YORK WILL BE A MONSTER SHIP Plans Are Already Completed For Launching Another Tremendous Ship Of War

NEW YORK, Oct. 26.—Plans have been completed for the launching of another of Uncle Sam's monster battleships. The new addition to the navy is the New York, whose 27,000 tons of steel hull and superstructure now lie in the Brooklyn navy yard, awaiting the coming of the cete of official Washington on October 30 to take her initial plunge into the water.

More than the usual preparations have been made for this first baptism of the great leviathan. President Taft and Secretary of the Navy Meyer have been asked to be present and have accepted, the navy yard will be bedecked with flags and bunting and thousands from New York City have already received cards admitting them to the launching ceremonies. The battleship will be christened by a daughter of Congressman Calder from the Empire State.

The New York is a sister ship to the battleship Texas which was launched at Newport News a few months ago. Like the Texas she will have an armament of 14-inch guns. Ten guns of this size will be carried in the main battery. She will also have 21 5-inch guns strung along her sides. The New York will be about 1,000 tons larger in displacement than the Wyoming and the Arkansas, the present largest ships of the navy, and about 5,000 tons larger than the Florida, the last battleship built at the navy yard.

She is 573 feet long, with 95 feet beam and a draught of 28.5 feet. The New York will cost when finished about \$6,000,000. The ship's keel was laid on September 11, 1911. She will be about 60 per cent completed when she is launched. When ready for sea she will be equipped with engines capable of generating 28,100 horsepower, which are expected to drive her at the rate of 21 1-2 knots an hour.

OFFICE OF Mechanics' Perpetual Building & Loan Association Charlotte, N. C., Sept. 25, 1912. WE APPRECIATE

Very much the confidence of this community, another testimonial of whose good-will we have had in the sale of 2,500 shares in our last series—the 60th. This means \$250,000 added to the wealth of the community and is a gratifying endorsement of our record, of the continuance of which we are jealous. Our books are still open and we welcome new shareholders, whether large or small. Impartiality in all our dealings is and has always been our rule and our smallest shareholder can feel sure of equal consideration with the largest. We are strictly mutual and have no favorites. We hope to make this series one of our largest and cordially invite the whole community to help us make this an accomplished fact. Our books will be open until December 1st, and applications for loans will be received at any time until that date. Again expressing our appreciation of your continued confidence and help, we are Yours very truly J. H. WEARN, President. R. E. COCHRANE, Sec. & Treas.

CHRONICLE WANT ADS PAY BEST DIVIDEND You Can't Do Better, Sam than take a few shares right now with Ed Keesler in the Mutual, promised a year ago to take 10 shares, but four series have opened most of our friends went in and are delighted, yet we are still out as poor as when we were married. "Well, Mollie, I'll take some next year, but I'll not do it with Keesler. I had taken advice of this same Ed Keesler I'd never have married him, and might today be happy instead of the miserable creature you've made me. Now, I've taken my first stand, I'm going into the Mutual. From this hour I cease to support you, and I'll have a home for me the ones or die in the attempt. I'll get it through the Mutual, I'll make homes possible, and which is eternally and everlastingly the things that destroy them."
