

Our Personal Guarantee to all Skin Sufferers

We have been in business in this town for some time, and we are looking to build up trade by always advising our patrons right.

So when we tell you that we have found the eczema remedy, and that we stand back of it with the manufacturer's iron clad guarantee, backed by ourselves you can depend upon it that we give our advice not in order to sell a few bottles of medicine to skin sufferers, but because we know how it will help our business if we help our patrons.

We keep in stock and sell, all the well known skin remedies. But we will say this: If you are suffering from any kind of skin trouble, eczema, psoriasis, rash or tetter, we want you to try a full size bottle of D. D. D. Prescription. And if it does not

do the work, this bottle will cost you nothing. You alone to judge. Again and again we have seen how a few drops of this simple wash applied to the skin, takes away the itch, instantly. And the cures all seem to be permanent.

D. D. D. Prescription made by the D. D. D. Laboratories of Chicago, is composed of thymol, glycerine, oil of wintergreen and other healing, soothing, cooling ingredients. And if you are just crazy with itch, you will feel soothed and cooled, the itch absolutely washed away the moment you applied this D. D. D.

We have made few friends of more than our family by recommending this remedy to a skin sufferer here and there and we want you to try it now on our positive no-pay guarantee. R. H. Jordan & Co.

HELPFUL LECTURE BY A NOTED DOCTOR

Dr. Von Norden, Physician to Royal Austrian Family, Speaks Here

Charlotte physicians, trained nurses and medical students, numbering about 100, listened last night to an address, delivered by Dr. Karl Van Norden, a distinguished practitioner of Austria, notable in his personality as well as in achievement and recognized as one of the foremost authorities in the world of the subject of internal disorders. Dr. Van Norden spoke at the North Carolina Medical College and while here was entertained by the president of that institution, Dr. J. P. Munroe.

The visitor is ranked among the outstanding men of medicine in the world. He has given a lifetime to the study of stomach and kidney diseases. He has specialized to such an extent upon the subject of nephritis that his lectures on this form of disease are relished as authoritative. Dr. Van Norden is one of the leading members of the faculty of the department of internal medicine in the renowned City General Hospital of Vienna in which institution is gathered some of the greatest medical minds of the generation. He is furthermore practitioner of the royal family of Austria. He is author of many books dealing with nephritis and kindred diseases, involving metabolism of various types. Some of his works are recognized standards and are used in many medical colleges of this country and abound in every well-informed physician's library of necessary books.

Presented by Dr. Brenizer. The address of Dr. Van Norden was well received. He was introduced by Dr. Addison Brenizer who, Dr. Munroe said, could pronounce his name, having been a former student of the visitor in Vienna. Dr. Munroe in presiding said that it was no longer necessary for a physician to attain reputation and fame simply as a surgeon. "The time has passed," said he, "when fame comes only to these. We have tonight one with us who has achieved notoriety as an investigator of science, one who has painstakingly studied the arts of his profession." Dr. Brenizer in presenting the notable speaker said:

"I am simply here to accentuate the profound distinction which we enjoy in having in our presence a visitor who is not under any necessity for carrying his name about with him, for it goes ahead of him," said Dr. Brenizer. "He comes to us from one of the oldest parts of the old world. He has behind him an ancestry which is also great, but aside from this and from his successful work, the position which he today occupies is alone sufficient to make him famous."

Important Advice. In the course of his elaborate address, Dr. Van Norden gave advice in the care and treatment of instances of nephritis which are directly at variance with the popular and most generally accepted methods of treating these cases. His address was simple, but comprehensive in scope. Dr. Von Norden described clearly the effect of the usual treatment in

these cases. He disapproved of the using of large quantities of water in an effort to flush out the kidneys. In the first place this cannot be effectively done and in the second place it results in straining the heart and blood vessels in the small white contracted kidney. In the case of a simple primary contracted kidney a liter to one and one half litres of water a day is permissible, increasing one each week to two litres. Special stress was laid on the avoidance of all forms of iodide preparations for the reason that the elimination of these preparations entails a heavy work on the kidneys than even the ordinary sodium chloride or common salt, which has been previously interdicted. For the lowering of high blood pressure, the physician recommended limitation of the fluid intake, or water, in the diet.

In approaching uremia he recommended venesection (the letting of blood from a vein), and if no improvement appears within 48 hours, immediate decapsulation of the kidney was recommended. Milk Diet Prohibited. The general diet which is usually recommended was prohibited because milk contains proteins and large amounts of salts which require a great deal of work on the part of the kidneys to eliminate. This is true especially in the acute stage. In the place of milk he recommended fruits, carbohydrates and fats in pure form, possibly the obvious reason for this more easily eliminated as carbon dioxide.

In recommending a dry climate for certain stages of chronic nephritis, the lecturer mentioned Egypt, California and North Carolina as suitable for this. Caution was given against sending patients with weak hearts into climates too hot or to elevations too high. Not over 1,000 meters in the most should be ascended and in the later stages even that is too high. Obesity is to be guarded against because of its deleterious cardiac effect. The general recognized necessity for avoiding such poisons as alcohol, tea and coffee was pointed out, in the course of a general dissertation. Dr. Van Norden was tendered a reception at the Southern Manufacturers' Club following the lecture, and an hour of social recreation was thoroughly enjoyed. Dr. Munroe proposed toasts to the distinguished visitor and to the Emperor of Austria, these being followed by a hearty toast to the next President of the United States, Governor Woodrow Wilson.

STANLEY COUNTY'S VOTE LARGER THAN FIRST THOUGHT

(Special to The Chronicle.) ALBEMARLE, Nov. 7.—Stanley County gave a greater majority for Democracy Tuesday than was at first thought. The county shows that the county candidates carried a Democratic majority of from 300 to 310, while the National ticket ran about 50 behind, carrying a Democratic majority of about 250. The vote was reasonably heavy, except in the senatorial box, where it was light. Stimulus carried between 1,100 and 1,200, Kitchin 300 and Clark about 100.

For the Sake of Brevity. (Cleveland Plain Dealer.) "I heard a story in Germany," says George S. Himmelfarb, who has just returned, "about a novelist and an editor. The editor had ordered a story of a certain length, and the novelist had written several hundred words too many in order to make the story fit the space at his disposal, the last few paragraphs were condensed into a single sentence. This is the way to read." "Von Berken took a small glass of whiskey, his hat, his departure, no notice of his pursuers, a revolver out of his pocket, and finally, his life."

ALBRIGHT WILL BE MADE POSTMASTER

Assurances Have Been Received That Republican Will Get Appointment.

Mr. J. D. Albright will be appointed postmaster at the Charlotte office next week, according to assurances which have come to local regular Republicans from headquarters in Washington. This announcement may have the immediate effect of striking consternation in the breasts of a good many Democrats whose services are now available for that office since the sweep of Democracy across the Nation and into control of governmental doings at the White House and in the Congress of the United States.

As a matter of fact, however, the news need not be taken so seriously for it is the understanding even among Republicans that any appointment that is made now will only be temporary. Nobody understands this better than Mr. Albright who probably would not now take the office save for the fact that effort has been directed for some time in his behalf and he wants to reap the benefits at least for a short period of what has been done by friends in his favor.

Mr. Albright has received the unqualified endorsement of National Committeeman Duncan, Chairman J. M. Morehead of the State organization and the Taft organization in Mecklenburg. Added to these, he has been liberally supplied with endorsements from prominent and varied business interests in Charlotte and Republicans of the Taft following have been given to understand that these will be honored by the President.

It is generally anticipated among Republicans that the days of their office holding is drawing to a close and the reign of Democracy and a widespread prevalence of Democratic office holders is approaching. The prospect that the United States Senate will be Democratic instead of Republican by a bare majority has given stimulus to the endeavors of Democrats to get offices. The suggestion that in the event the Senate is Republican, President Taft would make all his appointments and have them ratified by the Senate, making them irrevocable for four years except for cause, is not taken seriously. In the event that such a situation did evolve from the present complexity of the Senate, it is not believed that the President would make the effort to project Republican office holders through a Democratic administration, but will turn this over to the Democratic President and allow Democrats to have the benefits of the spoils.

REV. L. R. PRUETT WILL MAKE ADDRESS TO BOYS.

There will be another big meeting for the boys of the city on Sunday afternoon at 5 o'clock at the Young Men's Christian Association. These meetings are growing in popularity with the boys, the attendance last Sunday being so large that it was necessary to bring in chairs to accommodate the number that were present. The meeting on Sunday afternoon will be addressed by Rev. L. R. Pruett, pastor of the Ninth Avenue Baptist Church. Mr. Pruett will use as the subject of his address, "Sowing and Reaping." A cordial invitation is extended to all boys of the city to attend.

"There could be no better medicine than Chamberlain's Cough Remedy. My children were all sick with whooping cough. One of them was in bed, had a high fever and was coughing up blood. Our doctor gave them Chamberlain's Cough Remedy and the first dose eased them, and three bottles cured them," says Mrs. R. A. Donaldson, of Lexington, Miss. For sale by all dealers.

The boy's appetite is often the source of amazement. If you would have such an appetite take Chamberlain's Tablets. They not only create a healthy appetite, but strengthen the stomach and enable it to do its work naturally. For sale by all dealers.

GOOD BOOKS ABOUT BOYS FOR BOYS 25c. These books include all the volumes in six popular series—a total of fifty books. E. MURPHY Co. Phone 842. Piedmont Building

TO PAVE OR NOT TO PAVE IS NOW A BURNING QUESTION

While not momentous in point of expenditures to be made, the issue of paving a strip of about four blocks on the old Belt road which is to be decided tonight by the aldermen, is regarded by city-builders as altogether of consequence. The aldermen will take final action on the report of its own special committee which was appointed to look into the feasibility of diverting from this street to a street in some other ward of the amount necessary for this paving. The committee was composed of six aldermen. Five of them voted to pave the strip and one opposed it. This proportion of voters, however, is not expected when the aldermen gather tonight, but friends of the measure believe that the board will decide to continue the paving and not divert the appropriation to some other street.

The trouble, if it can so be designated, had its beginning a few days ago when Alderman Mason made the point that the Dilworth ward was getting too much of the appropriation for street improvement purposes. He at once gained a sympathetic audience among the members of the board and a resolution was adopted calling for a re-adjustment of the paving district. The appointment of a committee to look into the advisability of this step followed and the committee went at once to its task, making an

CHRONICLE WANT ADS PAY BEST DIVIDENDS. You Can't Do Better, Sam. than take a few shares right now with Ed Keesler in the Mutual. You promised a year ago to take 10 shares, but four years have opened, and most of our friends went in and are delighted, yet we are still out, and are poorer than when we were married. "Well, Mollie, I'll take some next year, but I'll not do it with Keesler, I'll go into the Virginia or Alabama concern. They're not always giving us rot about home, and the babies, the next egg rainy days they are my kind—not advising us how to conduct our private affairs, what kind of liquor to drink, cussing out a fellow if he gets behind in his accounts, or has a little pleasure in life." "LISTEN TO ME, SAM!" Before marriage and since you've done little but "have your little pleasure." God knows you've not supported me or your children. If I had taken advice of this same Ed Keesler I'd never have married you, and might today be happy instead of the miserable creature you've made me. Now, I've taken my first stand, I'm going into the Mutual today. From this hour I cease to support you, and I'll have a home for my wife, or die in the attempt. I'll get it through the Mutual, which makes homes possible, and which is eternally and everlastingly fighting the things that destroy them. The Almighty's with Mollie, boys, and no human agency can best that combination. E. L. KEESLER, Sec. & Treas. Phone 344 25 S. Tryon Street

Are You Nervous? What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength. TAKE THE CARDUI Woman's Tonic. Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women. Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist. Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., and get full instructions, and 64-page book, "Best Treatment for Women," sent free. 150
