GREAT WHITE WAY IS UP TO THE ALDERMEN

Special Meeting Is Called For Purpose Of Taking Action On Proposition

The proposed "Great White Way" for Charlotte and the renovation of the entire street lighting system of the city will be the subject of a called meeting of the board of aldermen to night at 8 o'clock at the city hall, the call for the meeting having been issued this morning by Mayor C. A. Bland in order to give the board of aldermen an opportunity to consider this vital and important proposition emanating from the Southern Power Company, the details of the proposition being received from Mr. Z. V. Taylor and first presented to the executive board through Mr. T. T. Allison.

The proposal is that the city raise \$4,000 additional to its present annual lighting bill, in return for which the Southern Power Company proposes to renovate the entire lighting system, putting in modern lamps and also furnishing the cluster lights in the main streets from the Southern depot to Caldwell street and from Second to Seventh streets, the former along Trade and the latter along Tryon street. The uptown lighting, it is said, will be altogether up-to-date and will include the cluster lights which will burn until 11 p. m., after which brilliant arc lights will continue to blaze for the remainder of the night.

The proposition carries with it the removal of the present wooden poles of the company and the placing of iron poles to carry the lights, the trolley lines of the electric railway, and the fire alarm wires of the city.

Whether the board will take up any other matter is not known.

CONFERENCE COMING TO CHARLOTTE NEXT

Unanimously Decided By Methodist Body To Hold Next Annual Session Here

Mr. Rowe went to High Point Wednesday to extend a special invitation to the Conference to select Charlotte for the next place of meeting. This will be the second time in the 23 years of the organization of the Conference that it has met in Charlotte and the city will so about the business of entertaining the delegates with the usual spirit of progressiveness and cordiality.

Granted Insurance After Lung Trouble

There are so many cases of Consumption reported where the details show the disease started with a cold or a cough, that it is not surprising that many are not more anxious to immediately stop these apparently minor troubles.

"Gentlemen: I am giving you below a brief history of my case, which I trust you will use for the benefit of those suffering from any similar troubles. About a year and a half ago I noticed that my weight was dropping, until at the end of six months my weight had fallen to 120 pounds. I was troubled with night sweats, a severe cough, and was very weak, having in fact absolutely no ambition whatever. About this time I consulted a physician, who told me my lungs were affected. Not satisfied, I went to another doctor, who after examining me said that I was in the first stages of consumption. At this point I started to take Eckman's Alternative. The night sweats stopped almost immediately, my cough became looser and gradually disappeared. My weight is now 142 pounds and my physician has pronounced me perfectly sound, which together with the fact that I have been accepted by two different insurance companies for insurance, makes me sure of my entire recovery by Eckman's Alternative. I should be very glad to communicate with any one who would be interested in my case."

W. E. GEE, Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Croup and Lung Trouble in all upbuilding system. Does not contain poisons, opiates or habit-forming drugs. For sale by leading druggists. For booklet telling of recoveries, and write to Eckman's Laboratory, Philadelphia, Pa., for additional evidence.

CHILDREN HATE CASTOR OIL, UGH!

Delicious "Syrup of Figs" Cleanses Their Little Clogged Bowels.

Look back at your childhood days. Remember the physic that mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them. With our children, it's different. The day of harsh physic is over. We don't force the liver and 30 feet of bowels now; we coax them. We have no dreaded after effects. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their little stomachs and tender bowels are injured by them.

If your child is fretful, peevish, has sick stomach, sour breath, feverish and its little system full of cold; has diarrhoea, sore throat, stomach-ache; doesn't eat or rest well—remember—look at the tongue. It coated, give a teaspoonful of Syrup of Figs, then don't worry, because you surely will have a well smiling child in a few hours.

Syrup of Figs being composed entirely of luscious figs, and antacids simply cannot be harmful. It sweetens the stomach, makes the liver active and thoroughly cleanses the little one's waste-clogged bowels. In a few hours all sour, undigested fermenting food and constipated waste matter gently moves on and out of the system without griping or nausea.

Directions for children of all ages, also for grown-ups, plainly printed on the package. By all means get the genuine. Ask your druggist for the full name "Syrup of Figs and Elixir of Sens" prepared by the California Fig Syrup Co. Accept nothing else.

BASEBALL MAGNATES WILL NAME MANAGER

Meeting To Be Held Next Week To Select Man To Guide Destinies Of Team

A meeting of the directors of the Charlotte Baseball Association will be held early next week for the purpose of considering the new management of the team next season. No indication is given as to the temper of the directors in regard to the season, but that Champ Osteen who led the Hornets last season, will be re-elected, although he has some strong friends in the directorate of the club. Osteen in the early part of the season, prior to the period of rebuffs and beatings back which he received, but toward the latter part of the season, he failed to give evidence of the proper spirit to dispay under adversity and he did not make the showing at the close that was expected. The local directors, however, may decide that it is the part of wisdom to give him another chance and not bring a new and totally untried man for such a responsible task.

An important meeting of those interested in the Blue Ridge Association was being held this afternoon in the offices of Mr. F. C. Abbott, an official of the association, and matters of general interest to all who are connected with the Blue Ridge Association were expected to come up for discussion.

BLUE RIDGE ASSOCIATION PROJECT BEING DISCUSSED

The Blue Ridge Association thus far has met with abundant success financially and has also been the means of attracting numerous organized bodies hither for summer school and institute work. The session was expected to continue throughout the afternoon.

Close to 9,000 bales of cotton have been received at the local platform this season since September 1, this figure being somewhat in excess of that for the year preceding.
