ORLEANS COTTON

NEW ORLEANS, Dec. 5.—Cotton fu-tures opened steady at an advance of 2 its to a decline of 1 point. Cables were not up to expectations but the weather over the cotton region remained unfavorable and caused some buying, which resulted in an advance of 1 to 5 immediately after the first call. Reavy selling pressure was suddenly applied and prices broke a dollar a bale. Many stop loss orders were caught on the long side on this decline, which increased offerings materially. At the end of the first half-hour of business prices were 18 to 21 points under yesterday's

While the market had a nervous indertone throughout the morning sesion, there was less weakness after middle of the morning. This appeared to be due to the profit-taking operations buying for long account. Many rumors were affoat and they were marish. One of the most important of long interests were working for a reaction with the idea of putting the marhet on a healthy basis to go over the coming bureau reports. At noon the market was steady and prices were 2 to 7 points under the last quotations of

yesterday.

ATLANTA, Ga., Dec. 5 .- Leaving a note saying he was tired of life, Seaborn W. Higgins, a book-keeper, committed suicide by shooting today. The note also asked that his employer, John E. Murphy, a local capitalist, and a sister in Savannah be notified of his death. Despondency is believed to have caused the act.

WALL STREET

NEW YORK, Dec. 5.—There were few important variations from yesterday's close in the first transactions in stocks today. The tone, however, was perceptibly firmer. Reading was strongest of the active issues and registered a gain of % American Can rose % and Lorillard 2 points.

Organized pressure against Steel, which fell to 70%, kept the market unsettled for awhile but the Harrimans and Reading soon out loose from this in-

for awhile but the Harrimans and Reading soon cut loose from this influence and their advance ultimately pulled up Steel. Great Northern fell 1½ on the new issue of stock, and Amalgamated also was weak.

Recent factors in the stock market seemed to have lost their force during the early trading and the movement for a time was within circumscribed limits. Some effort was made to force general

Some effort was made to force general liquidation by attacks on Steel but the effect was unimportant until middey, when the whole list sold on abruptly.

More was heard of the disposition of banking institutions to scrutinize closely the character of industrial collateral for loans. There was consequent liquidation of a varied class of stocks, some of which found a very narrow market. Money rates were comparatively easy.

Bonds easy.
Urgent liquidation was evident in the heavy fall in prices after midday. Numerous stocks sold at the lowest prices for the past six months. Steel touched 694. Smelling was off 2.

Wholesale rejection of undesirable industrial collateral by leading institutions produced something akin to demoralizations. tion in this class of securities when orced selling occurred. Declines ran from 2 to 8 points. Steel sold down to 161/2. Smelting to 71, Amalgameted Copper to 80%, Union Pacific to 167 and Reading to 169. Concerted support checked the decline when the situation sared to be becoming serious.

LONDON, Dec. 5.—The stock market was a shade better on more favorable continental news but the outlook is still sufficiently obscure to check speculative American securities opened steady and later in the forenoon advanced from %

WIORERSHAW MAKES REPORT (Continued from page 1)

aw dealing with combinations. Pointing to the fact that the government was unable to secure a temporary innction restraining the exportation of 920,000 bags of coffee, said to be stored in New York City under the valorization scheme, the Attorney General recommends the enactment of an amendment to the Wilson law, authorizing the seizure by the government in the State of entry of merchandise imported for the purpose of unlawful combination. At present such commodities must be in the

The voluntary dissolution of the National Packing Company, following the acquittal at Chicago of the beef packers of criminal violation of the Sherman law, has accomplished in the belief of the Attorney General "a substantial restoration of competitive conditions in a very large industry which have not for a long time heretofore existed."

Objections to the commerce court in the judgment of Mr. Wickersham, would be met by legislation requiring the Interstate Commerce Commission to state in its report, as a basis for its order, the findings of fact and conclusion of policy appearing in the report shall be final and conclusive, and limiting court review exclusively to questions of law arising upon the commission's report.

Give Power to Commerce Court. As a result of the decision of the Supreme Court holding that the Commerce Court has no power to review so-called "negative" orders of the Interstate Commerce Commission, the Attorney General recommends that the law be amended so that the Commerce Court will have jurisdiction to review all errors of law in respect to orders of the commission which deny relief to shippers or others, just as the court now has power to review orders granting relief. The practical results of the present situation, he adds, is that relief against errors of law by the Commission is limited to the railroads and denied to the ship-

In connection with the suit against the Lehigh Valley Railroad Company under the commodities clause of the its alleged ownership and transportation of the coal of the Lehigh Valley at home, in order that the field Coal Company, the Attorney General says that the organization of the railroad company of the Lehigh Vailey Coal Sales Company will be submitted to the courts soon to determine wheththe situation now satisfies the demands of the law as interpreted

by the Supreme Court. "The situation is." he continues, "that coal which is shipped over the Lehigh Valley Railroad is mined by the Lehigh Valley Coal Company, all of whose stock is owned by the railroad Company, and is sold at the breakers to the Lehigh Valley Coal Sales Company, all of whose stock has been originally issued to and distributed among the stockholders of the railroad company, pro rata, but which company has separate offices from the railroad company, and separate directors, and whose stock may be sold by the stockholders without regard to their continued holding of stock in the railroad company. By this arrangement both the railroad company and the coal companies seem to have parted in good faith with title to the coal before transportation begins and, it is claimed, therefore, such transportation is to be free from the prohibition of the commodities clause as construed by the Supreme Court."

Contemplated Suits. The Attorney General announces his intention of soon filing suits in equity against the Southern Pacific Ratiroad Company and others for the recovery of vast areas of petroleumbearing lands in California, said to be worth more than \$500,000,000. The legislation under which the patents were granted to the railroad company he says excepted mineral lands other than iron or coal lands. The railroad company contends according to the Attorney General, that the exceptions in the patents are void.

To investigate and preserve rights of the government to sources of water supply for the stupendous reclamation projects constructed or contemplated, Mr. Wickersham strongly recommends an appropriation to employ an adequate force of lawyers. Pointing out that innumerable claims inevitably will be lodged against the government, contesting its right to selected water courses, he says says the welfare of the citizens who have staked their fortunes on the success of these enterprises and the honor of the government demand immediate action.

The Department of Justice, isoluding the offices of the Attorney General and all the United States attorneys, has been on a paying basis during President Taft term of office, according to figures submitted in the report. a surplus of nearly \$8,500,000 over expenses having been turned into the Federal Treasury. For the four years ending June 30 last, the Department collected \$11,212,959 through suits and compromises and expended \$5,756,865. The collections for the preceding four vests amounted to \$8,597,462 and the expenses \$6,386,798. In addition the government recovered during the past four years 1,523,119 seres of public

C. V. Brooks, J. S. Stoner, J. S. Cornell, H. N. Johnson, H. P. Dalton, L. E. Daily, W. O. Rosser, J. B. Phillips, J. J. Hurt, D. P. Harris, J. E. Kirk, W. H. Barnes The Convention was on the moun

ain heights at the morning session when the subject of home mission was being considered. The report was read by Rev. C. B. Waller of Asheville, and the report itself, was uplifting and inspiring.

Address of Dr. White.

Immediately following the report,

Rev. John E. White of Atlanta, formerly a North Carolinian, delivered the opening address. Doctor White, well known as one of the leading ministers of the Baptist Denomination in the South, was thoroughly at home with both his audience and his ubject. Taking as his theme the Home Mission Task" he suggested that the "task was never finished," further, "It needs definement," and

more, "it must have program."

Doctor White made the statement that the people of the South considered themselves civilized people, when in fact out of the 30,000,000 people in the South only 10,000,000 of them were really and safely civilized. Of the 20,000,000 uncivilized people one half of these were negroes and 7,000,000 were of the thriftless

For Home Missions.

This condition confronting the outhern people should stir them to the work of home missions. In discussion of the form of making a program for home missions. Doctor White stressed organization, focaliza-tion and Christianization. The local Church should be brought to feel that it is responsible for the work of the local community, and that it should lead in the work of righting every wrong in the community.

The local Church should represent the work of the Kingdom of God in the community. He insisted that too many Churches are weak because of the loose living within their own membership. He said that he had come to the decision that, in Atlanta, he must preach the necessity of re-pentance to the people of his own congregation, as well as to the people of the slums. The unconsecrated wealth within the chancel rails of the Church is a tremendous force directed against the success of Chris-

Rev. Arch C. Cree.
Following Doctor White, Rev. Arch
C. Cree, the secretary of the department of enlistment and co-operation of the Home Mission Board of the Southern Baptist Convention, delivered another magnificent address. Doctor Cree was delighted, happy in nanher and forceful in thought and sity of the development of the force abroad might be taken.

He made the startling statement that while Americans were discussing the question. "Is America a Christian Nation?" it might well change the form of the thought and ask if America is really an American Nation. The population of America is said to be 92,000,000. The fact is that of this number only 41,000,000 are nativeborn. The reports show that 16,500,-000 are of foreign birth and 24,500,-000 are American-born, but of foreign-born parents. In addition to this, there are 10,000,000 negroes. The great problem facing the Christian people of America is the problem of making Christians of the people who are living in America, and who are coming to America to live.

BRIEFS.

-The Virginia Life Insurance Company is among the first this year to distribute 1913 calendars, the company having a supply of large calendars for offices which they are distributing to their friends and patrons here. —Cotton receipts today amounted to 45 bales at 12 3-4 cents; corresponding date last year 147 bales at

-Effective Monday last the charge for recording deeds at the office of the register of deeds for Medklenburg was reduced from \$1.25 to \$1, this law being a part of a special act reducing the cost of filing certain papers, etc., with the clerk of the court and register of deeds for Mecklenburg County.

DICTATOR IN EUROPE.

FORMER VENEZUELAN

SOUTHAMPTON, Eng., Dec. 5 .-Ex-President Cipriane Castro of Venexuela arrived in this port today on board the steamer Windhuk from Teneriffe. He did not land but proeded with the steamer to Antwerp and will go from there to Paris. According to passengers on the Windhuk the former dictator refused to see anybody during the voyage. He appeared to be ill and kept to his cabin most of the time.

HARDS INSTRUCT AUARS WHI

WASHINGTON, Dec. 1 - Att ourt of impeachment reconvened to day were to attempt to draw from Edward J. Williams, the first witness, evidence that a conspiracy had been organized against Judge Archbald and that William P. Boland of Scranton, Pa., was one of its prime movers.

Williams was on the witness stand when the Senate court adjourned last night. He was the associate of Judge Archbald in a deal for an option on the "Katydid" culm bank and the House managers had prepared further questions today designed to draw from Williams admissions that Judge Archbald had brought pressure to bear on railroad officials to secure control of the property. The nature of Judge Archbald's defense to the first article of impeachment has been indicated. The House managers yesterday secured the introduction of an alleged agreement between Williams and W. P. Boland whereby Williams assigned a one-third interest in the Katydid option to Boland and another one-third to a "silent party."

He admitted that this latter designation meant Judge Archbald, Attorneys for the judge insisted that the agreement had been concicted in the office of Mr. Boland for the purpose of injuring Judge Archbald and that the latter know nothing of it and had never consented to be the "silent party" in such a deal.

WAY TO IMOTIONS ON THE BENCH

(Special to The Chronicle.)
