WALL STREET

NEW YORK, July 8.-Stocks moved in clined nearly a point

Although there was an undercurrent of heaviness in the early trading, values Union Pacific was uncoposed but support was noticeable in other stocks that succumbed in yesterday's forced selling. Eastern railroad shares reflected uneasiness over the labor problem. The whole list afterward developed a better tone when professional selling let up. Resumption of selling met with a degree of success for a time today but bear traders began to cover when it became evident that their efforts were not

provoking general pilling. The market rose as easily as in had declined in the early trading and before noon a full recovery was made. Speculative sentiment continued to favor the short side, some concern being expressed over the disturbed state of affairs in Europe and the possibility of renewed foreign liquida-Favorable influences, such as satisfactory crop news and the expectation of an unusually good showing in the Government's forthcoming report were ignored.

Bonds were irregular. Renewed heaviness in stocks was produced by the breaking off of negotiations between the trainmen and managers of the Eastern railroads in their efforts to effect an agreement on wage schedules. A further engagement of \$2,-000,000 to Paris facilitated the reaction which brought back the list to near the lowest of the morning.

Efforts to bring about a sustained movement either way were abandoned when tentative selling or buying orders falled to alter prices much. Bears were disposed to sell stocks but limited their offerings, owing to the difficulty of getting a supply when they desired to cover In consequence the general movement was insignificant, although prices all around were somewhat under vesterday's finals.

The market closed heavy. Whatever perceptible movement there was in the late drift of prices was downward, although not enough stock changed hands to move the list more than one-quarter or so. Union Pacific declined more went 2 to 7 points over yesterday's last readily than other issues, falling to the figures. The advance was not well sus- lowest of the session. CARELESS WITH GUNS

Near Accident to President's Yacht in Big Gun Practice off Proving Grounds in Maryland,

WASHINGTON, July 8 .- While officers of teh President's yacht Mayflower and officials of the Navy Department are reticent concerning the "near accident" to the vessel-last week when a shell from the proving grounds at Indian Head Md., was said to have narrow.y missed the ship, which had President Wilson on board, it is believed an investigation of the affair will be

It was declared today the shell itself passed over the Mayflower at a safe height, but that the danger was caused by the dislodgment from the shell of the rotating band, which fell close to the vessel. So loud was the schreech of the shot that the Mayflower crew are said to have rushed

on decy to ascertain the trouble, At the time President Wilson was said to have been sitting on the after deck with Dr. Cary T. Grayson, his physician. So far as is known, the President made no comment or com-

Numerous protests have been made in the past against the firing of the big guns at Indian Head. River captains declare the lives of their passengers and crews are endangered
