GALLANT FIGHT FOR OUR SOUTHERN MANUFACTURERS. ket.

Facts About Cotton that will Entertain Every Manufacturer and Every Planter.

would seem to me to be this of cotton. mills in the South at large: It is the most important of all the industries that pertain to this country, unless it be iron and its manufactures. It is growing in importance and the consumption of the manufactures of cotton is increasing in quantity every

I have collated a few statistics with reference to the production and impart to the Senate. For the last fiscal year the consumption of the entire world was 10,911,000 bales of cotton, & bale being estimated at 450 ica furnished 7,017,707 bales.. Very nearly seven-tenths of all the cotton States. There was spun and woven foreign countries.

To show the importance and the that there were produced in the year the production of cotton itself in fifty 27 inches. years has increased 350 per cent. in the United States, and rapid as our from No. 14 yarn, weighing 4, 41, and in China, in the face of the cheap- in this country than they pay in Eu- I should say, judging by the in-

n all the civilized world the consumption of cotton has increased in the 1866-'67 there was consumed 2,560,-000 bales, whereas in 1887 there were consumed in Great Britain 3,861,000 bales, an increase of over 50 per cent.

crease was still greater. In 1866-'67. on the continent the consumption was 1.703,000 bales, when in 1887-'88 it was 3.770,000, an increase largely over 100 per cent. In 1866-'67 the mills of the Southern States of this Union consumed only 76,000 bales of cotton. In 1887 they consumed 500,-000 bales of cotton, whereas the mills of the Northern portion of the Union consumed in 1866-'67, 746,000 bales, ing, relatively. and last year they consumed 2,030,-Practice in the State and Federal Courts. | 000 bales, showing an increase in the

mills of over 600 per cent. the Southern mill, is not only aston- ico is "printed.") Ishing, but to me is particularly gratifying, for it may be truthfully said that every particle of progress that not exported. has been made in the cotton manufacand skill that made them quite as North formidable as the mills of the old country. A statement I have here

of the extent and distribution of the cotton mills of the Southern States of looms employed merely in making profit to the English manufacturer odd million square yards in her own will be found very interesting, and I plaids," which were sold at the consists principally in sizing and the territory proper, basides the amount Carolina, independent of the crown, ask the Secretary to read it for the South. The Southern mills have starch and other materials to give it that I have given as being sent to her was held at Halifax in 1776. The information of the Senate

North Carolina will be read.

The chief clerk read as follows:
