FROM RALEIGH.

Editorial Correspondence.

RALEIGH, N. C , Feb 6 .- Gag law has been introduced in the Senate A Republican did it. The minority is prevented from discussing a question of much importance to the taxpayers of the State.

It all came about in this way. Senator Fortune, Rep., of Cleveland. introduced a bill in regard to working convicts on the roads. The bill was very objectionable to the Democrats and they asked that it be amended and suggested how this could be The committee of which Senator Fortune was chairman reported the bill back without amendments The Democrats opposed it. Where upon Senator Fortune called the previous question which shut off all amendments and all depate. Under the rule which allows a member to explain his vote the Democrats explained the injustices of the bill and scored the Republicans for introduc ing gag law law in North Carolina. They showed the matter up so plainly that the bil! was defeated by a vote

Here are some of the unfair provisions of the bill. It authorised any county to withdraw all its own and not more than 25 additional convicts from the penitentiary to work its roads It required the State to pay for their transportation to and from such county and in addition furnish them with clothes white there. Worse them during the summer and turn them over to the State during the winter when they are to be fed and this notice will be plead in bar of their clothed by the taxpayers as they will not be able to support themselves at make immediate payment to ma. This that time. On a conservative e.timate this bill had it became a law would have cost the people of the State from \$50,000 to \$100,000 a year. There are only six Democrats in the Senate, but by their efforts the taxpayers are saved this amount. This is an illustration of the many

the interests of the people. LOCAL INTEREST.
