Innovations in the Work of the Convention -: New Department Work. orrespondence of the News.

Ralfigh, April 5 — The next session of the North Carolina Teach. ers' Assembly meets at Morehead City, June 15th. The work of the session will be conducted differently from that of any session yet held.

The most important innovation is in the introduction of departmental work. Half of each day will be devoted to the study of the subjects taught in our public schools and storm. The water dammed up academies, special emphasis being given to methods of teaching these subjects most successfully. Each subject will be handled by a teacher of distinguished ability and experience. There will be informal diswill soon be at hand. Send us cussions, and the opinions and experiences of all can be heard and discussed. There will also be classes in Elocution, Vocal Music and Drawing; and lectures on School Law and Civil Government. All of the e departments will be presided over by teachers from this and other Southera States who are in thorough sympathy with our Southern people, and who fully understand the conditions and needs of our schools and

Special departments are being organized for the County Examiners and other school officers, college presidents and professors, city school superintendents and teachers, academy and high school principals and teachers, primary teachers. Each department will be in charge of a committee appointed especially to prepare a program that will interest and instruct those engaged in

that particular work. The Convention feature will be managed differently, and is expected to be more interesting and profitable than it has been possible to make it heretofore. Questions will be discussed that will interest all classes of teachers and intelligent citizens. The speakers will include leading educators and others-among them, some of the leading business and professional men and editors of the State. So that the question of education and its influence and effect upon the professions and business interests will be discussed from every stand-

> point. The evening, or "Culture," lectures will be of such a nature as to instruct and entertain everybody. pleasure feature will be looked after with greatest care, and the musical part of the program will be com-
