This picture was taken aboard the armored cruiser Montana, the funeral ship which brought the seventeen dead sailors and marines from Vera Cruz. The flag covered caskets are shown on the deck under guard. They were transferred to shore and conveyed on caissons with military escort through New York, across the Manhattan bridge and to the Brooklyn navy yard, where a national memorial service was held, with a address by President Wilson.

A No. 1 Folks.

(Monroe Enquirer.)

When it comes to lending a helping hand the people of Lanes Creek township allow none to surpass them. They allow no man to suffer down in that good township, if kind attention and helpfulness in hour of need can pre-

vent it. Mr. H. L. Autry of Lanes Creek township, has been sick and unable to prepare his land and plant his crop. Last Thursday a large number of Mr. Autry's neighbors went to his house and before sunset they had put him up with his work and left. Mr. Raymond Pressley, a neighbor of Mr. Autry,

had been sick, too, and last Saturday his good neighbors and friends took a large number of horses and plows to his fields and prepared his land for seed and did his planting. Lanes Creek is all right, but that's not news, for good folks have been living down there ever since the Indians left.

Big Agricultural Land Opening

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted to prospective settlers in throwing open Twenty Thousand Acres of Rich, Southern Georgia Land, which is admirably adapted to the growing of celery, sweet and Irish potatoes, canteloupes, water melons, corn, oats, cotton, hay—in fact, all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the famous immensely profitable paper-shell pecans.

Providing you are eligible under the classifications prescribed by us, you are now offered an excellent opportunity to break away from the drudgery and toil of a small wage, or working for the benefit of landlords, and go back to a land of plenty, to which, if granted, you will hold a warranty deed and about a large tract of land.

An Opportunity to Secure Rich Productive Land Without Capital.

You will not be required to leave your present surroundings now. All we ask of those to whom we grant tracts is that they plant, or arrange to have planted, a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for granted, in consideration of 25 per cent. of the net profits derived from the sale of crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just what the yield of their acres amounts to. Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to \$1,268.45, and that one acre of well-cared-for paper shell pecans, in full bearing, should net its owner as high as \$200.00 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further urging, and waste no time in locating in this land of plenty. We also require grantees to occupy the land within ten years, or sell it to some one who will occupy it; otherwise, it reverts back to the grantor.

The land included in this opening is located directly on and adjoining the Atlanta, Birmingham and Atlantic Railroad, about twenty-five miles west of Brunswick, a thriving city of fifteen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the year, from April to October, is 77 degrees; the climate is most healthful, delightful, and invigorating, and there is an ample rainfall of 51 inches per year.

OUR AIM IS FOR MUTUALLY BENEFICIAL RESULTS. As we are extremely desirous of having settlers locate in this property, and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta, Birmingham and Atlantic Railroad, and thus facilitate the service, we feel warranted in granting these tracts to those who register with us. We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have "money-making afterward" considerations in this liberal-minded opening, similar to those of the Northern

Pacific and other railroads when they granted their lands, and we expect to benefit thereby, as well as the ones who will receive the tracts.

We have also planned to develop what is designed to be the best equipped, most up-to-date scientific, commercial farm and orchard in existence. It will consist of six thousand acres, and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue thereon. While we are arranging to prevent over-registration, we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who register in excess of the number of tracts to be granted, an interest in this commercial farm and orchard enterprise, in the hope that they may later locate in one of our farm town sites.

Examination of the land will cheerfully be permitted, and the opening will be held at Brownstown, Wayne County, Georgia, one of the stations of the A. E. & A. Railroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made. The presence of those registered will not be necessary at Brownstown on the opening day, unless they wish to attend, for there will be no favoritism shown anyone. It will be conducted by a committee selected for the purpose, and those registered will be notified of what they have been granted, as soon as possible.

With the ever-increasing population of this country there is no corresponding increase in the area of land, and naturally as the population increases and seeks the land in pursuit of health, happiness and independence, it will continue to be harder to secure.

The prosperous and contented class in Europe today are the descendants of those who secured land there when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves. You must realize that this may be your last chance to secure land in this country, and a large outlay of capital, so it should not be necessary to urge you to act at once by forwarding us the application attached to this announcement.
