MUNICIPAL LEAGUE

(Continued from Page One.)

ture exhibit, which will be one of the features of the session. In the council chamber and railway and corridor of the city hall the pictures illustrating every phase of North and South Carolina municipal life will be displayed on wall, suspended frames and bulletin boards.

Among the most conspicuous ones that were practically in the position this morning that they will be found during the exposition are those of Wilmington, Asheville, Dunn, Greensboro, Gastonia and Charlotte. The pictures of several cities that will be shown to advantage in the exhibit were delayed in transmission. Among them was Asheville's which is shipping six large trunks full of pictures illustrating life, municipal and otherwise, in North Carolina's leading mountain city. The pictures will represent, it is said, almost every phase of life and activity in Asheville.

Wilmington. The illustrations depicting Wilmington are practically all in position in the council chamber of the city hall and show that municipality off to a decided advantage. Pictures of Wrightsville Beach, the Cape Fear River water front and its shipping, the principal buildings of the city, the Country Club grounds and golf links, the A. S. A. L. drawbridge over the Cape Fear, the dancing pavilion, "Lumina," at Wrightsville, bathing scenes at the various beaches and many other interesting scenes will keep the visitor to the temporary museum of municipal life at the city hall busy looking for a long while.

Greensboro. Greensboro's exhibition is also a splendid one, as is also that of Dunn. Greensboro's exhibit deals largely with the distinctly municipal affairs of the Gate City than with the industries thereabout, although there are plentiful illustrations of the Proximity Mills, where the Messrs. Cone have made model mill villages; the Pomona Terra Cotta Company and other enterprises. The new city market, several views of which are seen, will be a matter of interest to all who attend the exhibit in view of the frequent agitation for such an institution here. It is a handsome building and was designed by Hook & Rogers of this city. The opera house, owned and operated by the city of Greensboro, is another interesting feature of the Gate City exhibit, while the police and fire departments, street-working forces and other civic bodies and organizations are also well illustrated.

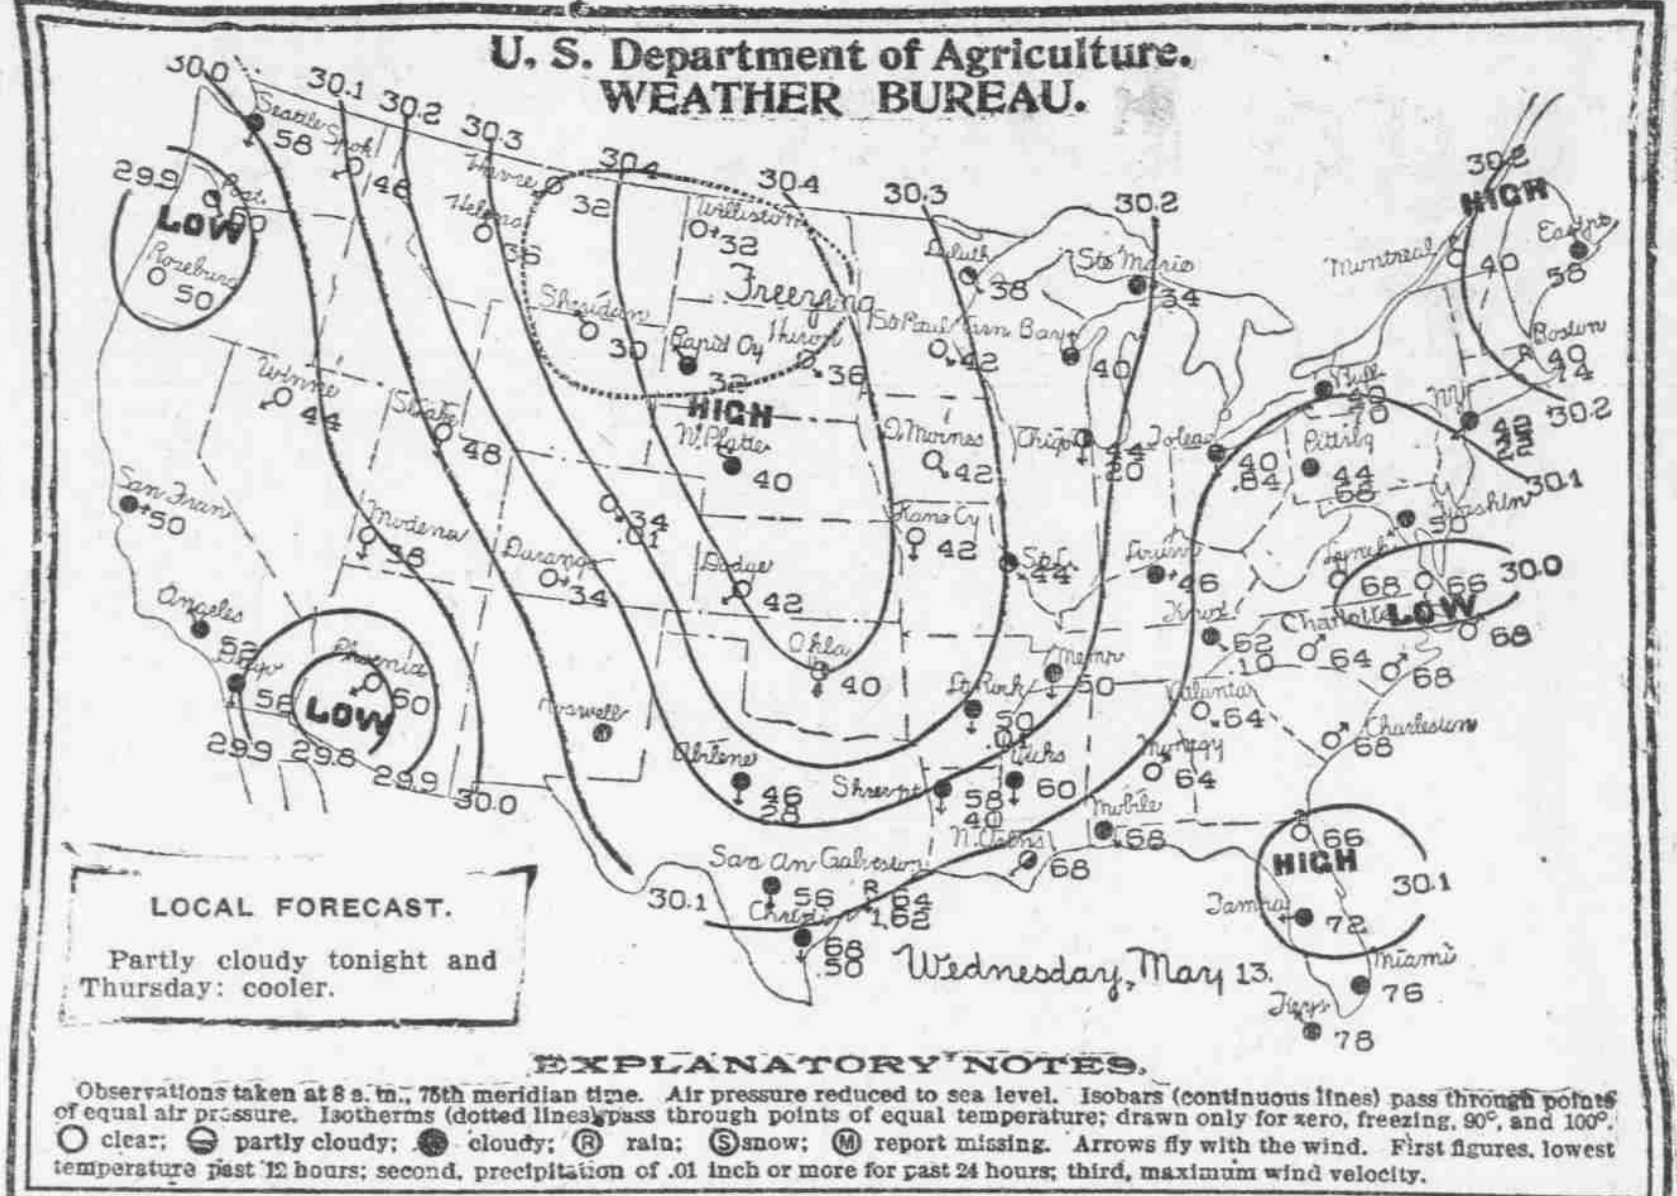

Gastonia. Gastonia's exhibition is surrounded by the hoodooistic number "13." It has thirteen mill corporations represented in the exhibit, showing Gastonia, with its 12,000 population, to be the leading cotton manufacturing center in the state. The pictures are displayed on a background of thirteen yards of Canton flannel and its thirteen hours' work last night by Commercial Secretary Lloyd last night to mount them. Among the pictures is one of the "Old Mill," built in 1880 and the oldest cotton mill in Gastonia—its building being in reality the start of the cotton manufacturing industry in Gaston county.

Raleigh and other cities and many lesser municipalities of this state and perhaps a few from South Carolina will be illustrated with representative pictures from the exposition is well under way and the whole will constitute a picture story of North Carolina municipal life that a prime volume could not make so real. The exhibition will at all times be open to the public, which is cordially invited to view it during the two days' session of the Municipal League here. Parade at 10 O'clock A. M. The session of the league here will be introduced by a parade, in which all Charlotte's official family will participate, as will the escort to the visiting municipal visitors. A caravan of automobiles will be placed at the disposal of Mayor C. A. Bland, who is president of the league, and the visitors will be transported over the line of march by this mode of travel.

The head of the parade will rest at the city hall on North Tryon street. Five or six mounted policemen will lead the parade. Behind them will come the officers of the league, Mayor Bland of Charlotte, Mayor Shell, of Dunn, secretary of the association, and others in automobiles. Following in the parade will be the visiting municipal mayors and other visiting municipal dignitaries. Then will come the board of aldermen, the executive board, the water board, the city board of school commissioners all in automobiles. Behind them will come the police department, who will travel in the automobile police patrol wagon, Chief Moore's five-passenger car, the horse-drawn fire wagon, "Black Maria" and out of two extra automobiles pressed into service. Next will come the health department and street forces. Chief Amos Cook and his sanitary officers will be in automobiles, which will be followed by six wagons of the street department, two street sprinklers, three

FOR STOMACH TROUBLE

John W. Skillen of Sidney, Ohio, Has Found a Remedy. Experts declare that the reason stomach disorders are so common in this country is due to hasty and careless habits of eating. Stomach troubles and run-down conditions usually go together. John W. Skillen of Sidney, Ohio, says: "I had a bad stomach trouble for years, and became so weak that I could hardly walk or do any work. My appetite was poor, and it seemed impossible to get any relief. Since taking 'Vinol' I find a remarkable improvement in my health, my digestion is much stronger, and I have gained weight. I would not be without 'Vinol'." Vinol makes weak stomachs strong because it strengthens and tones up the weakened, tired and overtaxed nerves of the digestive organs. Vinol is easily assimilated, by the weakest stomachs, and is delicious to the taste. Stand fast by the understanding that your money will be returned if it does not help you. R. H. Jordan & Co. P. LOCAL FORECAST. Partly cloudy tonight and Thursday; cooler.

THE WEATHER

Weather Conditions. The pressure conditions over the country have changed but little in the past 24 hours, the eastern depression having moved to the Middle Atlantic coast, and the western high remaining practically stationary. The drop in temperature preceding this area has advanced this morning to the Ohio Valley and the Southern states, where it is generally from 10 to 20 degrees cooler. It is warming up in the Plains states, but several stations continue to report night temperatures of freezing or below. Showers are reported from the Ohio Valley, the Middle Atlantic states, and the Southwest. In Texas heavy rains were general. The indications are for a possible thundershower this afternoon, but for tonight and Thursday, partly cloudy weather with cooler, is indicated. O. O. ATTO, Local Forecaster.

Line of March. The parade will move from the city hall to Independence Square, down South Tryon street to Morehead, up Morehead to South Boulevard to East Boulevard, thence through the Myers Park loop of newly paved streets to Elizabeth college, up Hawthorne Lane to Seventh street, thence to Central Avenue, back Central Avenue to Elizabeth avenue and up town through Independence Square to the Selwyn hotel, where the sessions of the league will be held in the assembly room. The program for tomorrow's session follows:

A Measuring Party

A "Measuring Party" will be given by the Young Men's Baraca Class of Brevard street church tomorrow evening at the home of Mr. J. A. Volger, 612 East Ninth street. Baracas, Philatheas and others cordially invited. This class has recently built and furnished perhaps the handsomest classroom in the city and the proceeds of the party will go to the building fund.

STOCK MARKET

New York, May 13.—Stock fluctuations were unusually narrow during the morning. For a time the market hardened slowly, but towards noon the movement was checked and the fractional gains were cancelled. Utah Copper rose vigorously despite heavy losses of some of the low priced copper shares. The market dragged in the late afternoon. No pressure was applied except in the case of Canadian Pacific, which was said to be affected by financial entanglements of London bankers. Sterling exchange rates relaxed from the high level, indicating that the outflow of gold would be resumed unless special arrangements were offered by foreign bankers. Bonds were steady. At 3:30 a. m.—The stock market gave a sign at the opening today of weakening from its lethargy. Dulness was even more pronounced than during the preceding session and the active shares hardly varied from yesterday's close. London prices were virtually unchanged and at home no new factors were brought to bear. The only variations of consequence were among inactive stocks. Western Maryland fell 2 points to 20, the lowest at which the stock has ever sold since the formation of the present corporation in 1909. Harvester added nearly a point to its recent extended gain. Coast Line rose 1/8-3/8. Close.—The market closed easy. Pressure against the coalers and the steady fall in Canadian Pacific induced short selling and prices gave way fractionally toward the end. CHICAGO MARKET

Chicago, May 13.—Wheat sagged today on reports that the growth of the winter crop in the Southwest was so far advanced that but little damage need be expected. Prices opened 1/4 off to 1-3/4 up and then gradually declined all around. Argentina rains and Liverpool strength brought about only a slight temporary advance in corn. Quotations started 1/8 lower to 1-3/4 higher and later suffered a general setback to beneath last night's level. Bears had the advantage in the oats crowd. Packers unloaded provisions and there was a general decline. A decided rally in wheat resulted from reports of increased Hessian fly damage, especially in Missouri and to foreign buying here. The close was firm at 3/8 to 3/4 net higher. Corn prices hardened with wheat, and closed steady 1/8 off to 1/4 up net. Chicago Grain and Produce.

TRAIN MASTER HELD UP AND ROBBED

Winston-Salem, May 13.—Captain W. W. Dugan, train master on this division of the Southern Railway, was held up and robbed here by three negroes last night. The guilty parties were arrested this morning. Capt. Dugan's watch and other valuables were found in their possession. One negro carries a pistol shot wound in the side supposed to have been inflicted by officers after a robbery in Roanoke, Va., last week. Local officers are confident they have captured a trio of desperate characters.

FINED \$25 FOR TAKING PICTURES OF LADIES GETTING ON STREET CARS

William Hall, a young white man of the city, was fined \$25 and the costs this morning by Recorder Hamilton C. Jones on a charge of disorderly conduct. The defendant was arrested yesterday afternoon by Officer Jim Johnston, who watched him manipulate a camera and "snap" several ladies as they mounted the street cars leaving Independence Square. The officer observed the camera man, he said, attempting to keep the camera concealed under his coat until he saw a street car about to take on lady passengers, when he would focus the camera, click it and put it back under his coat. The bluecoat adjudged the young man's conduct reprehensible and he arrested him, charging him, with disorderly conduct. He was represented in court this morning by Mr. F. M. Redd, who put up a strong defense for his client. The recorder, however, held that the defendant was guilty of disorderly conduct. Mr. Redd gave notice of appeal for his client.

FUNERAL SERVICE OF MISS TRUE WORTHEN IMPRESSIVELY SAD

The funeral services of Miss True Worthen yesterday afternoon in Tryon Street Methodist church, were attended by hundreds of friends. The service was conducted by Rev. Dr. E. K. McLarty pastor of the church. The service was most impressive and there were few dry eyes. The hymns "Lead Kindly Light" and "Some Day We'll Understand" were sung. The floral tributes were beautiful and in greatest profusion. Among the handsomest were designs sent by the Western Union Telegraph Company, from New York, Atlanta, Richmond and Charlotte, Miss Worthen being private secretary to her brother, Mr. Herbert Worthen, general manager of the Southern Division of the Western Union.

COTTON

New York, May 13.—There was a renewal on yesterday's buying at the opening of the cotton market today and first prices were 3 to 5 higher. Continued firmness in Liverpool and unsettled weather in the Southwest seemed to attract fresh demand for long account but the early advance brought in a good deal of realizing. Prospects for more favorable weather helped to check the upward movement but the market showed a steady undertone. After the close of Liverpool, the buying became less active and prices eased off under continued realizing or local selling with active months ruling about net unchanged to 8 points lower early in the noon hour. Trading was less active during the afternoon, but prices ruled fairly steady with old crop positions 3 to 4 points lower while the new crop held unchanged. New York Spot Cotton. NEW ORLEANS

New Orleans, May 13.—The local cotton market opened today at an advance of 4 to 6 points. A fair business was transacted during the first hour with a hardening tendency. An easier feeling developed later in the forenoon and the market sold down to a noon loss of one point on September and four to six on the other months. During the afternoon prices fluctuated over a very narrow range but up to the third call there had been no further noteworthy change in the level. Close New Orleans Spot Cotton. CRIMINAL COURT WILL PROBABLY ADJOURN THIS AFTERNOON

A. S. Williams, alias J. E. Turner, was sentenced this morning by Judge Walter J. Adams in the superior court to six months' labor on the roads for forger, after he had been convicted of that charge yesterday. A. C. Hamilton, white, was fined \$10 and the costs for assault and James P. Taylor, white, was fined \$10 and the costs, this latter case having been appealed from the recorder's court. Ed Sifford, white, was being tried this afternoon on the charge of bribery. It is probable that the court will be adjourned this afternoon, as the docket is almost cleared, there having been but few cases on it of very much interest. The court has ground them off at a steady clip all week and finds that this afternoon will probably see the last one tried and disposed of.
