## D. M. ABERNATHY COMMISSIONER

**Is Elected to Fill Out the Unexpired Term of R. Horace Moore.**

D. M. Abernathy, city tax commissioner and purchasing agent for Charlotte, was yesterday afternoon elected commissioner of public safety to succeed R. Horace Moore, resigned. Mr. Abernathy will assume the duties of his office next Friday morning.

Following the custom of years in the city when an officer retires, Commissioner Moore recommended Mr. Abernathy for the position and he was elected by Mayor McNinch and Commissioner Wearn, both voting in favor of his election.

In a resolution, introduced by Commissioner Wearn and voted upon by him and Mayor McNinch, Commissioner Moore's resignation was accepted with regret. Text of the resolution follows: "Resolved, that the resignation of R. H. Moore, commissioner of public safety, this day tendered, be accepted, effective midnight October 31, 1918.

"Resolved, further, that in accepting the resignation of Commissioner Moore, we do so with sincere regret and desire to express our hearty appreciation of his uniform courtesy, towards and cooperation with us, his fellow commissioners. And we also gladly bear testimony to his ability, energy, and integrity as an official of the city who has conducted his various departments with marked success and who has at all times stood for and upheld policies intended for the advancement of the city's interests commercially and morally."

Mr. Abernathy was tax official in the office of the county treasurer when he was appointed as tax commissioner and deputy purchasing agent for the city under Mayor McNinch, to whom this department of the city government falls, and who has the authority to appoint such a deputy agent. His long familiarity with tax matters made Mr. Abernathy an excellent choice for this position and his work under the commissioners has been such that they unanimously chose him for promotion to Commissioner Moore's office when the latter resigned. Mr. Abernathy is laid up for a few days with a broken rib and could not be seen following his election. He gave out the following statement for publication, however: "I regret to learn of Commissioner Moore's resignation, as he has made a very capable and efficient official. My official association with him has been exceedingly pleasant, and all of us at the city hall will miss him. "As to my own election, I hardly know how to adequately express my appreciation of this expression of confidence in me by the commissioners under whom it has been my pleasure to work. "I can only assure them and the public that I shall endeavor to discharge the duties of my office for the general good of our people, industrially, socially and morally."

## ARE 1447 AUTOMOBILES RETURNED IN CITY

A total of 1,447 automobiles, auto trucks, and taxis have been returned for city license at the office of the city tax collector, John M. Wilson, since June 30, the beginning of the fiscal year.

"This is about all of the automobile licenses that will be issued for the current fiscal year," said Mr. Wilson today, "as the time for issuing licenses passed and only cars will be returned from this time that are newly bought. These figures represent about the highest that we have ever had here, and the number of motor vehicles that are on the books represent many thousands of dollars' investment. The city gets from \$2 to \$3 from each car returned, with a special license of \$50 on taxis and for-hire automobiles, which last year yielded \$15,000 or more in taxes." The city of Charlotte stands probably at the head of the list in the number of automobiles returned here for license. During the past twelve months the rate of increase in the number of cars has not been as great as in the few years immediately preceding, on account of war conditions and the reduction of output in force in many automobile manufacturing plants, which are on the other hand engaged in important war work for the government and for the allies.
