MINISTER WILL BE CALLED TO TESTIFY

Winston-Salem, N. C., Feb. 12.—As a result of assertions made in a statement printed in a local paper, making charges relative to violations of the prohibition law, the Reverend T. V. Crouse, Methodist minister of Stockdale, N. C., will be requested to appear in court here and testify as to what he knows. One of the charges by Mr. Crouse in the published statement was that he knew of "a man in Winston-Salem who has boasted that he actually cleared fifty thousand dollars last year in the liquor business."

OREGON GIVES BONUS

Salem, Ore., Feb. 12.—The Oregon house today passed a bill providing a bonus of \$15 a month for each month served in the world war. The bill also provides an alternative of farm or home loans, not exceeding \$2,000. It passed by the senate and approved by the governor it would be submitted to the people.

Mash them al up good, adding the hot potato water; if not enough, take hot water till you have a half gallon crockful. Take one-half cup warm water, add one-teaspoon salt. Break your compressed yeast cake in small pieces, or take one and one-half cakes of dried yeast, when it is light (it takes just a little while) stir in the lukewarm potato mixture. Have ready your bread in three big flour sifters full of sifted flour which is warmed. Take a saucer and make a hole in the flour; press it to side of bread tin, stir your yeast mixture in till it is like cake mixture. Put away in a warm place over night. In the morning, mix it in a stiff loaf with the flour that is in the tin; work it till it is like an elastic ball and will not stick to your fingers. Rub the top with lard and put away in warm place till real light. Put a little flour on the board and

WEEKLY WALL STREET REVIEW. GEORGIA BASEBALL PROGRAM ANNOUNCED

New York, Feb. 12.—Trading in the stock market this week dwindled to stender dimensions, the turnover for the five full seasons being the lightest for any corresponding period in almost half a year. The price movements were of a piece with these stagnant conditions, only a few of the speculative favorites recording more than nominal changes. Investment rails were almost entirely neglected, but developed moderate heaviness later on the refusal of the United States Railroad Labor Board to reduce wages. Similar conditions prevailed in the bond market, many old time or pre-war issues cancelling much if not all of their recent gains, while most of the new underwritings, including the Pennsylvania railroad 6 1/2's fell below their subscription prices. Surface-wise, the money market was easier, but this ostensible relaxation applied only to call or demand loans. Rates for time money remained firm, thereby confirming the opinion of well informed banking interests that no perceptible change is probable in the year's first quarter. Foreign exchange was again subjected to the bewildering cross currents resulting from latest aspects of the German indemnity agreement. British approximated its recent high level, but taking international remittances as a whole, little progress towards stability was made. Railroad returns and the tonnage and financial statements of companies engaged in important lines of manuf-acture testify that business and in-dustry are reviving slowly and unevenly. These conditions were exemplified in the smaller earnings of transpor-tation systems and reduced bookings of the United States Steel Corporation. General industrial conditions contin-ued to be governed by additional re-visions of commodity prices and lower wage scales. These factors were es-pecially potent in the oil trade, with signs of a pronounced readjustment of existing schedules for steel and iron.
