**YANK PROFESSIONAL GOLFERS NOT IN IT**  
Glen Eagles, Scotland, June 10.—(By the Associated Press)—American professional golfers who came here to participate in the thousand guinea tournament assumed the role of spectators when the semifinals began this morning. Jock Hutchison, Emmett French and Walter Hagen, the three Americans who qualified for the first round yesterday, fell before the prowess of their opponents, Hagen being the only one to get into the second round, played during the afternoon.

T. G. Renouf, who defeated Hagen yesterday, was opposed by J. H. Kirkwood, the Australian champion, in the semifinal this morning.  
Abe Mitchell, who eliminated Jock Hutchison, of Chicago, in the first round yesterday, met James Ocken-den.

**DENTAL SOCIETY NAMES OFFICERS**

**Local Dental Body Also Considers Plans for Entertaining State Body.**

Election of officers for the ensuing year and plans for entertaining the members of the North Carolina Dental Society here in their annual convention the latter part of this month were principal features of the regular monthly meeting of the Charlotte Dental Society Thursday night.  
The officers elected were: Dr. C. C. Keiger, president; Dr. P. C. Hull, vice-president; Dr. W. L. Kibler, secretary, and Dr. J. S. Hoffman, treasurer.  
The society is planning a big program for that time. It has been the custom of the society for several years to have its summer meetings at the Rozzell Ferry road house.  
The program for the coming state meeting of dentists is being worked out now. It will begin Tuesday night, June 28. The program is to include a meeting of the state dental board which will be held here at the Selwyn Hotel Saturday morning, June 25, when about 100 applicants for dental license will be examined.  
The Charlotte Dental Society will have a called meeting June 23 to plan further for entertaining the members of the state association, who are expected to be here 300 or 400 strong.

**GOES BACK TO CAMP AFTER TREATMENT**

Charles Cummins, soldier from Camp Jackson, who spent three days at the Presbyterian hospital after being found ill in a patch of woods near North Charlotte, left here Thursday afternoon with the announced intention of returning to his outfit.  
Cummins was said by physicians to have been suffering from intestinal troubles. His condition was serious when found Monday and, after being brought to the police station, was rushed to the hospital for medical care.

**VETERANS WILL MEET SATURDAY AT 11 A. M.**

The Mecklenburg camp of United Confederate Veterans, No. 382, will have its monthly meeting at 11 o'clock Saturday morning in veterans' headquarters at the city, according to announcement by Major H. D. Duckworth, camp adjutant.  
Mrs. Ellis W. Henderson, leader of Julia Jackson chapter, children of the Confederacy, has arranged a special program for the occasion. All the veterans are asked to wear their badges, or crosses of honor.

**LESS CONFIDENT TONE TO FUTURE**

**World Economic Conditions Point to No Immediate General Revival.**

Washington, June 10.—World economic conditions during May pointed to no immediate general business revival, according to the monthly summaries from its foreign representatives issued Thursday night by the Bureau of Foreign and Domestic Commerce.  
Considerable improvement financially was noted in Europe, but trade and shipping were dull with marked industrial difficulties apparent in some countries. In the Far East, improvement in conditions was reported slight and varying. In America, the situation was declared practically unchanged but with a less confident tone to future prospects.  
Varying conditions in the cotton market abroad were reported. Inquiries relative to American cotton were reported to be increasing in Belgium and a slight increase in imports was noted in France. Stocks of American cotton at Havre May 19 totaled 117,000 bales and 37,000 bales were reported afloat. The cotton market in Portugal was declared to be understocked while a notable decrease in the stocks of cotton in Great Britain was observed during the month, amounting to 85,000 bales as compared with 190,000 on hand at the same time last year.  
In England during the month, a downward tendency in prices was shown. A general strike in the cotton industry is expected, the report said, because of proposed wage reductions.

**A "MEAN THIEF" GOT NURSES' CAR**

**Miscarant Steals Car of Nurses' Association While Nurses Plan Campaign.**

The champion miscarant, among the auto-stealing fraternity, in the opinion of Miss Norma P. Leitch and Miss Elzeng Rankin of the Charlotte Cooperative Nursing association, went to the vicinity of the Y. M. C. A. building Thursday night and purloined a handsome model Ford roadster which was the property of the nurses' association. The thief was reported to the police and they are looking for it. Up to noon Friday it had not been found.  
Miss Leitch, supervising nurse of the Charlotte Cooperative Nursing and Miss Rankin, tubercular nurse, had driven in the new machine to the Y. M. C. A. in the afternoon for the purpose of calling for the purpose of the very class of society to which the thief, perhaps belongs.  
They and other nurses of the association have their own opinion about a thief who will take a Ford roadster from them and drive away with their energies to the public welfare and even at the hour the thief was at his tricks were planning, with other humanitarians, measures for conserving and improving the health of the very class of society to which the thief, perhaps belongs.  
Since the roadster was new it had not been equipped with a number. Its engine number was 422294. A bolt of gingham cloth such as is used to make nurses' uniforms for rough work and a small camera with one or two pamphlets on the subject of tuberculosis and its eradication were the only things in the car that might serve to identify it.  
A comic feature of the case occurred Friday morning when Miss Rankin was leaving her boarding place in an older car of the same type as the one stolen and also the property of the nurse's association. As she was about to drive off a policeman, looking for the car stolen last night, stopped her and asked if the car she was driving belonged to her. She said no and explained that she was one of the victims of the theft that occurred in front of "Y" Friday night.

**NEGOTIATE LOAN FOR ROAD BODY**

**Fifty Thousand at Six Per Cent Has Been Secured by Commissioners.**

The Mecklenburg County Highway Commission has acquired \$50,000 in a loan from the Commercial National Bank of the city on the basis of agreement reached Tuesday between the board of county commissioners and the members of the highway commission. The board of commissioners, since the highway commission is not empowered to borrow money and since it will have no funds to work with until some of the \$2,000,000 road bonds of the county are sold this month, agreed to advance \$50,000 to the highway commission to cover expenses of road-building and maintenance.  
In accordance with this agreement a loan at six per cent interest was negotiated at the Commercial National Bank and the highway commission now has the funds to cover its current expenses. The agreement extends only to the highway commission's look-over the road-building functions of the board of county commissioners. It does not cover the debts inherited by the highway commission from the board of commissioners. That controversy is still to be settled.

**CHINA IS OVERSTOCKED**

Demand for cotton in China was reported dull because of overstocked markets, though there was a notable increase in the imports of cotton-mill machinery, cotton spindles and cotton yarn while Chinese and Japanese investment capital was going into cotton mills.  
While money is easier in Great Britain, the coal strike has caused a general depression in the cotton industry. The London report declares. The industrial situation probably has never been worse, the report continues, with more than 2,000,000 persons idle all industries not shut down operating on part time.  
The French government appears satisfied with the success of the \$100,000,000 loan floated in the United States and it is expected that it will contract loans previously contracted in this country, the Paris report asserted. Evidences of a revival in Belgian industries affected by the British coal strike were reported from Brussels with an increase in the imports of American foodstuffs and cotton.  
A decreased foreign trade with an acute industrial crisis resulting from Germany, the report stated, is standing developments in Italy during the month. Splendid crop prospects, however, were reported.  
**IMPROVING IN GERMANY**  
The financial situation appears to be improving in Germany, the Berlin report declared, but the industrial situation is being seriously hampered by the Silesian troubles and consequent coal shortage. Marked activity in establishing agencies in Austria by British, East Indian and Japanese interests was noted.  
There were no signs of improvement in economic conditions in the Scandinavian countries, the advices said.  
A revival of industrial activity in China was offset by depressed commodity markets and a small silk crop, according to the Peking report, while economic conditions in Japan were said by Tokyo advices to show only a slight improvement, though the financial outlook was better.  
Except for improvement in the government finances, economic conditions in Mexico were reported practically unchanged.  
Argentina's financial conditions were reported as about the same but with a decrease in commercial failures. Imports from Great Britain, except textiles, were observed to be decreasing and German competition was reported keener.  
Little change in the commercial situation in Brazil was noted. The Belgian economic mission was said to be actively promoting trade relations with Brazil while Germany was making every effort to regain its former position being favored by its former credit terms and low exchange rate.  
The financial position of the Chilean government was reported as still critical and continued unsettled economic conditions in Peru were shown.

**SOUTHERN MARKETS MUST BE DEVELOPED**

Chicago, June 10.—The continued stability of American business depends upon the increasing the purchasing power of this country's backward markets in Latin-America and the Orient. Senator Mc Cormick repeated a conversation he had with a German financial leader, who compared the United States to a second Rome, whose destiny would lead it to world dominion.

**EDWARD REID CITY PURCHASING AGENT**

Edward Reid, for a number of years with the Ernest Ellison insurance firm, has been elected city purchasing agent and assumed his duties Friday morning. Mr. Reid will make all purchases costing less than \$1,000.  
The position has been filled by Mayor Walker since the new administration went into office prior to that time the city treasurer did the buying. D. M. Abernethy was the first purchasing agent, holding the position until elected city commissioner following the resignation of Horace Moore. The commissions expect to save several thousand dollars through the supervision of purchases on the part of Mr. Reid.

**EMBEZZLEMENT \$100,000**

Manila, June 10.—Charged with embezzlement of \$100,000 of the bank's funds, a Filipino note teler, working at the Philippine national bank here, was arrested today. It is alleged he worked in connection with Chinese, who cashed worthless checks drawn against several Manila banks at the Philippine national.

**GIRLS! BLEACH UGLY FRECKLES**

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well and you have a quarter pint of the best freckle and tan lotion, and complexion whitener.  
Massage this sweetly fragrant lemon lotion into the face, neck, arms, and hands each day and see how freckles and blotches bleach out and how clear, soft and rosy-white the skin becomes.
