WANTED-White enamel baby bed at

At 74, Railroad Wizard Re-

BY WILLIAM G CAYCE, International News Service Staff Correspondent. San Francisco, Cal., June 10.-Pin

ing for a larger and more difficult field of endeavor, William Hood, after 5 years of service with the Southern Pa cific Railroad, 35 years of which was chief construction engineer, resigned his position to become a pr vate consulting engineer. Hoof though nearly 75 years old, has led an active life and at the age most men have been retired a number of year is in his prime. Because he has solved some of the greatest railroad constru tion schemes in American railroad building, he has become possibly best known construction engineer in the United States today.

In retiring, Hood carries with his the best wishes of every employe the Southern Pacific, and in speaking of his retirement, President William 9-2t said: "He closes an active and value career and will always have the m spect and admiration of his associates Because of his brilliancy of attain ments he stands in the front rank of railroad engineers and the engineer ing profession. He is a ploneer great engineering work and his life in one of romance, of achievement and conquest of difficulties."

cific in 1867 when it was known as: Central Pacific. He left Dartmouth C lege and came West to help solve rail building question which we link the East and West. His firs Lake roadbed. In a short time he h 5-1 ff gan his advance from the became assistant engineer to the struction chief, which post he he when the Central Pacific and Unio Pacific met at Prmontory Mountain Utah, in 1869, completing the first transcontinental railroad. Later Howorked on the Southern Pacific route west from New Orleans across Texas

and Arizona to California. Hood became chief engineer in 1885 just 18 years after he first joined the company. A year ago "the impossible railroad through Carriso Gorge on the Sa Diego & Arizona, between San Diego and El Centro, which cuts 17 time through solid granite, was comple under his direction. Hood has roads over 7,000 feet above sea le STOLEN-By big dark, cross-eyed ne- and more than 200 feet below the lev of the sea; drawn plans and specific

> used to build houses for 30,000 people He has drawn plans for steel stranistretching across desert sands an sagebrush, and even across 27 mile of Great Salt Lake. When Hood joined the Central Pa cific they had but 90 miles of track Today the same organization, which

> versed on foot, and part of it he bee nover several times. Since back in the 70's he peacemaker in American railroad gineering disputes. One of his first struction started engineers figuring grades, as a whole from the "summ down," -instead of building the tracks

Another of his successful acco plishments is the Tehachipi which runs around a mountain pe and cuts across itself in a deep nel, which not only contributed to gineering a hitherto unemployed grad making device, but has saved in railroad construction. Hood al solved the Siskiyou problem with famous "S" line. The "S" line cro the Sacramento river 18 times and lows so tortuous a route in one stre of 171 miles that a train takes enoug curves to turn itself around between 70 and 80 times

up the mountain.

Hood is a great lover doors. He spends little time in office and appears many years your er than is his real age. He works 12-14f hard during the week and "rests" Sun days by taking a 25-mile hike over mountain sides with a 30-pound pack on his back. Hood was born in Concord, N. February 4, 1846, and was the son New England publisher. With the outbreak of the Civil war, though o 16 years old, about to enter Dartmout

College, he joined the forty-sixth regi-

In speaking of his work, Hood said

'I have found it practically impossib

for a man to work too hard provided

he takes one day a week for exercise

ment, Massachusetts volunteers

and relaxation. A hobby will rest his mind and work will keep him young
