She can now eat things she hadn't been able to for many years. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. ## If You Are Moody Find Out Why!

To feel "blue," cross and nervous all the time is not natural for anyone. Often it is due merely to faulty kidney action. Housework, the many family cares and loss of rest and sleep, all wear the nerves and so weaken the kidneys. Then comes that tired, fretful, half-sick state. If you have backache, headache, dizziness, and kidney irregularities, try Doan's Kidney Pills. They have brought health and happiness to thousands of women. Ask your neighbor!

## TUESDAY MAY BE HOTTEST SO FAR

North and South Carolina Hottest States in Whole Country Monday.

Tuesday bids fair to be the hottest day of the year, according to G. E. Lindgren, meteorologist of the local weather bureau.

The highest temperature reached Monday was 93 degrees about 5 o'clock in the afternoon. The highest temperature Sunday was 92 degrees about 2 o'clock in the afternoon. The temperature at 8 o'clock Tuesday morning was not as high as that of 8 o'clock Monday morning. It was higher at 10 o'clock, however, than that of 10 o'clock Monday morning. At 11 o'clock,

however, than that of 10 o'clock Monday morning. At 11 o'clock it was 91 degrees. According to Mr. Lindgren, it is highly probable that the temperature will reach 96 during the day.

The highest temperature recorded in June of last year was 93 degrees about this time of the month. A temperature of 95 degrees was reached several times throughout the month. July is considered the hottest month of the year in this section, but as far as heat records are concerned, the honors are evenly split between June and July. The highest temperature ever recorded in Charlotte was 102 degrees. This record was reached twice in June and twice in July.

The hottest place in the entire country Monday was Florence, S. C. It had a temperature of 100 degrees. This was closely followed by New Bern with 98 degrees. At 8 o'clock Tuesday morning, Washington and Raleigh were two of the hottest places in the country. This throws no light, however,

Why should your child eat spinach? "It's good for him," you say. Yes, but why? and why MILK? Why BUTTER? Why string beans? Why EGGS? It's because they contain VITAMINES, the newly discovered mysterious force that controls growth and life.

The usual signs of MAL-NUTRITION are—circles under the eyes, bad color, winged shoulder blades, sunken chest, prominent abdomen, stringy forearm, and general "fatigue posture."

Plenty of good pasteurized milk will correct these defects.

The milk with the big "W" on the cap is the kind to use.
