cretions of Ambassador Harvey, who comes under the State Department. So many people in their messages have told Secretary Denby that he ought to let Sims alone because Harvey wasn't punished for his speech in London which offended so many members of the American Legion. But the Secretary of Navy feels that he isn't dealing with Ambassador Harvey and that his only obligation is to deal with Admiral Sims irrespective of what any other department of the government may do. Some people seem to think Ambassador Harvey was indirectly re buked by Secretary Hughes when the latter in his speech at Brown University a week ago expressed a view in absolute contradiction of Mr. Harvey's original speech. The rebuke for Admiral Sims, however, will not be indirect. It will be published on board every snip in the navy and at every naval station which, of course, is the practice when a reprimand is ordered. Admiral Sims will be punished for his indiscretion. He has been reprimanded before, however, and the experience doesn't seem to have shaken the aplomb of th veteran sea-dog who strode the corridors of the new navy building today with the same serenity and confidence as if he were pacing the quarter-deck.
