

SUNDAY SCHOOL LESSON

REVIEW: THE SOCIAL TASK OF THE CHURCH.
Golden Text.—He will dwell with them, and they shall be his people. Rev. 21:3.

It will be exceedingly difficult to have a systematic, coherent and logical review of the lessons of this quarter because they have very little connection with one another. It will be wise for many a teacher to hold no review at all but take up some passage of Scripture that the class may especially wish to study. A possible method of review would be to go over the lessons of the quarter summarizing the central teachings of each lesson on the Christian's duty. I. His duty toward God. II. His duty toward his fellow-man.

SOCIALISTS OUT WITH THE REDS

Threaten to Expel All Communists from the Party in America.

Detroit, Mich., June 25.—"The socialist party is opposed to the formation of a soviet government in the United States."
Otto Branstetter, national secretary of the party, made this statement today at the socialist national convention opened here.
The socialists plan, said Branstetter, to capture the government at the polls after workers have been educated to the socialist point of view.
"The soviet system is opposed to the experience and aspirations of the American workers and will not be acceptable to them," he said. "The socialist party proposes a system of government, combining industrial and geographical representation, under which all of the legislative officials and many of the higher administrative officials shall be elected directly by the workers."
It is expected that a fight against the Communist party of America will be waged on the floor of the convention.

According to one resolution which will be introduced, members of the socialist party who also belong to the Communist party will be expelled unless the latter stops its campaign of inducing socialists to change colors and join them.
Leaders in the convention frown upon the calling of frequent strikes. Political strikes, they said, called for trivial reasons, are foredoomed to failure and will result in discrediting the powerful weapon and in the weakening and possible destruction of the organizations involved.

This, according to Branstetter, is the way the socialist party hopes to gain control in America.
"The socialist party declares its intention to win a majority of the people to an acceptance of our program at least to the extent that they agree to our control and willingly submit to our leadership; that when we have and because we have such a majority, we are justified in carrying out our program, over the protest and against the opposition of the minority."

Resolutions calling for the release of Eugene V. Debs and other political prisoners will be passed, Branstetter stated.
Discussions as to the relationship that should exist between American socialists and those of Europe will be held.

FRENZIED GRAB FOR GOVERNMENT TRUCKS

By L. C. MARTIN.
United Press Staff Correspondent.

Washington, June 25.—When the war was won, so many American cities and villages wanted captured German cannon and machine guns that it looked as though Uncle Sam would have to order a lot of them from the Krupps to give away. It now develops that this demand for souvenirs was paralleled by a demand for more practical things, which has "bankrupted" the war department in one item, and has bitten deeply into its supplies in other ways.
Motor vehicles, trucks mostly, lead the list. The free distribution of these to the states is a "scandal," Senator Wadsworth, chairman of the senate military affairs committee, declares.

"I may be utterly alone in my opinion," Wadsworth said, "but this debauch of the free distribution of government property has gone far enough. I can well understand the appetite that is aroused in a state highway commissioner when he understands that the war department owns a lot of trucks and that there is a law authorizing the secretary of war to turn those trucks over to the agricultural department, free of charge, to be given the states."

DEPENDABLE HARDWARE

Dependability in tools and hardware is what real workmen look for and appreciate. The carpenter depends upon his tools to help him do good work and save labor and time—to make more money. That is why he buys tools here. It's the same with builders—they know that locks, latches, hinges and other building hardware of dependable quality will give many more years of service and satisfaction than poor grades, and that it's well worth the little difference in price. Our goods are carefully selected—that's why you can depend upon their quality.

REFUNDING PROJECT SEVERELY ASSAILED
Washington, June 25.—Criticism of the administration bill for refunding the ten billion dollar allied debt was voiced Friday in the senate.
Senator Ashurst, Democrat, Arizona, protested against giving the secretary of the treasury authority to extend payments of interest. Senator McKellar, Democrat, Tennessee, assailed provisions which he said would permit the secretary to "sway" America's good credits for "worthless German, Austrian or Turkish reparations bonds," and Senator Smoot, Republican, Utah, said "frankly," that the bill would confer "too much power" on Secretary Mellon.
The principal attack was made by Senator McKellar, who said the provision authorizing the acceptance from debtor nations of the bonds or those of any other nation, in the refunding process, should be stricken from the bill.
In reply Senator Smoot said that "no body but an insane man" would trade America's credit for reparations bonds of Germany and her allies. If such an attempt were made, he added, congress would stop it. The bill generally, he asserted, was necessary to give the administration sufficient power "to clean up this situation."
Introduction of the bill as drafted by the treasury does not mean that it will be reported unchanged to the senate, Senator Smoot, who is a member of the finance committee, continued. The committee, he added, will not report until after through inquiry.
