

**Charlotte Woman's Club**  
As Mrs. Kelley Thinks of It.  
Club women of the state will be especially interested in the following written by one of the first, and one of the most prominent club women of the South:

**Charlotte Woman's Club.**  
The twenty-one years during which the Charlotte Woman's Club has been gaining headway now looks as though the past year had been merely a time preparation for service based on the study of human needs and now crowned with the power of citizenship. We must have the vision to stand together with a clear understanding of what are the things of major importance and an equally clear determination of putting true Americanism into our social and industrial and political life. We have the machinery for doing these things and the club women are expected to keep the machinery going.

Our club came into being because we got something out of a group that no one can get alone—something we all crave—companionship, friendship, the wisdom that springs from the contact of mind with mind, the efficiency that results from combined effort. There are big tasks lying before women—tasks that need study that need the altruism we get from working together, tasks that need the energy we get from combination of effort. We might describe ourselves in some such words as these: "A body of organized women in the community who can be depended upon to promote whatever leads to the betterment of life."

Our new club home has given us a new incentive to work; it has given fresh inspiration to the women of our city to join us and we now claim a membership of 600 members, which is taxing the capacity of the assembly rooms to such an extent that the Club House Committee are now contemplating the building of an auditorium suitable to the needs of a modern club. It stands conspicuously as the cognate as the old colored man expressed it as "De place whar al' de ladies gets off."

Indeed we sometimes wonder what the women of Charlotte would do without the Woman's Club—so great an asset is it to the social and civic life of the city. Our work progresses through six active departments and several standing committees each under the guidance of an efficient chairman, who gives her services freely. The Art Committee is expecting to have an exhibit during the winter; the Literature Department will study the Modern Drama with scenes from the best and most typical; the Music Department will study "The Opera in Song and Story"; the Home Economics Department is planning to put into practical form some of the interesting things house keepers would like to learn to make with a millinery class in the spring. A citizenship class will be conducted following the lines of work undertaken previously; Education and Health will deal largely with local conditions and problems and the Social Service Committee will help in improving the condition of eleemosynary institutions.

Special programs for the entertainment of the public and the recreation of the young people and the social intercourse of the club women are being made a feature for the coming club year. The club stands and works for all these interests. It urges the women who are isolated should join the women who are in the midst of things. They will get help. They will give strength.

LATRA HOLEN FIELLEY,  
President Charlotte Woman's Club.

**Lovely New Silks For Autumn**  
During the Summer a fashion writer coined the expression "Crepe de scene" to obviate the necessity of enumerating Crepe de Chine and all its crepy relatives. Fall finds crepes still figuring prominently enough on the fabric horizon to warrant the expression. For Autumn a texture of lustrous sheen and a more crinkly surface, but still crepes, though often they are satin backed.

**A Hat--That's The Starting Point Of Your Fall Costume**  
When you visit our Millinery display you will see a group of bewitching Hats on which designers have showered many favors. Gay and sprightly colors, Mohawk, Pine, Pompeian red; eccentric bits of trimming, beads, buckles, enameled Oriental ornaments; whimsically irregular contours, tricornes, bicorns, dimpled brims or slashed. Can there now be any doubt that here you'll find a Hat to strike a keynote of style and color for your Autumn Costume?  
Hats sell for **\$5.00 to \$25.00**

**Fur Trimming Adds Distinction To The Strict Tailleurs Suits**  
Fur, lovely soft lustrous Fur, proves that these Suits have the audacity to forsake the straight and narrow, just enough to achieve a very smart effect. For instance, if you take away from one of the duvety Suites its trig squirrel collar and deep cuffs and the fur bands which define its clever patch pockets—but who would want to take it away? Fur trimming is a characteristic of this very interesting group from which you will enjoy choosing.

**New Cloth Frocks Are Smart, from Their Unique Necklines and Their Irregular Hems**  
It is only when one tries to count on her fingers the occasions on which a tailored Cloth Dress is the most correct Fall Costume, and discovers that she hasn't enough fingers to go 'round that its serviceability is really appreciated. And there is more than a dash of style to the Frocks in this group. Of Poiret, Duvety and the new Perline their straight lines and coat effects show a charming indulgence in ruffled lace gilets.  
Prices range from **\$25 to \$100.00**
