

IVEY'S IVEY'S

Blouses of Distinction

More than likely, the most winsome garments in your Autumn wardrobe will be Blouses. More elaborate by far, and more originally designed than ever before, their lively colors often make them a point where focuses the individuality of your costume.

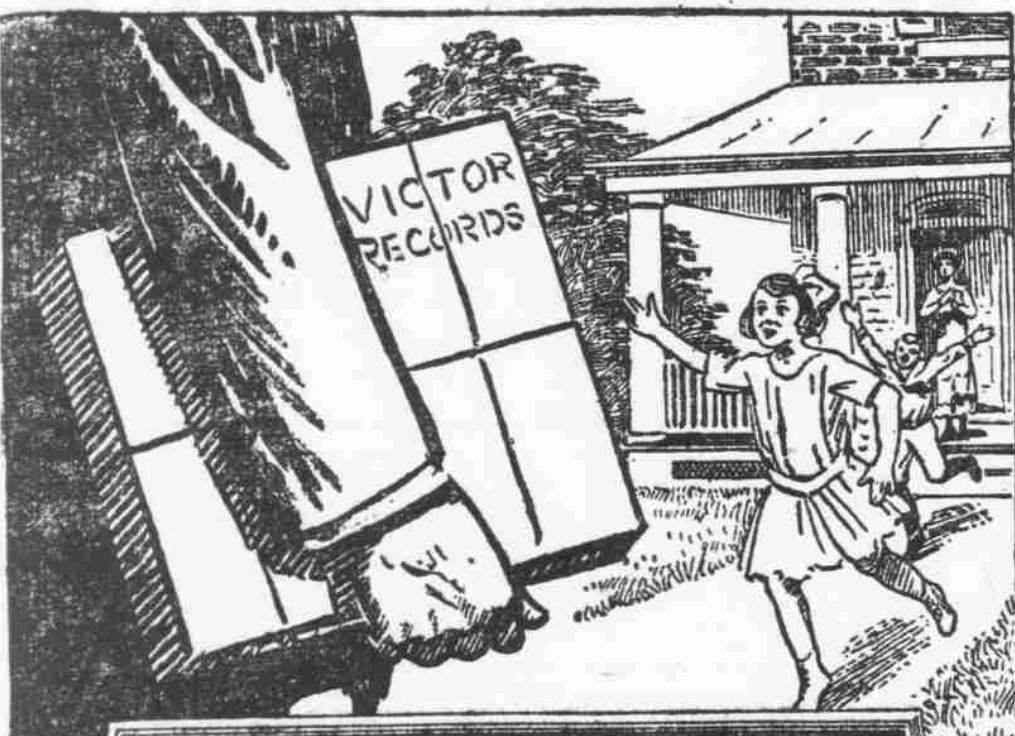

With more new garniture effects than can well be faunted in their traditional half costume space, many of the new Suit Blouses have taken much latitude in the matter of length, and come in Over-blouse styles.

Then there are the tailored Blouses, in navy, black and white—made of such lovely materials that their simplicity is itself an ornament.

Materials in all these Blouses are Canton Crepes, Crepe de Chines, Radium Silks, Georgettes, and so on, and they come in all the lovely suit and high shades that are popular this season.

MITCHELL OPENS AT STATESVILLE

More Than 150 Students Entered at the Opening of the College.

Statesville, Sept. 10.—The sixtieth session of Mitchell College had an auspicious opening yesterday morning. More than 150 students were present and it is expected that the enrollment will reach 250 or more during the year. Every room in the dormitory has been engaged and the school enjoys a very gratifying local patronage.

Dr. Charles E. Raynal, pastor of the First Presbyterian church, and Dr. J. M. Clark, a well known Presbyterian evangelist, assisted President J. M. Moore in the opening exercises. Dr. Raynal extended to the students a cordial welcome. No institution in the town is more important than the college. The greatest thing in any city is not its manufacturing enterprises, but its institutions that train the mind and heart.

Dr. Clark made a stirring appeal to the students, faith and patrons for what he designated as "college morale." Much was said of the morale of the army during the war. The successful outcome of the war was due to the morale of the American army. A greater college morale is dependent upon the proper attitude of the students toward college duties, toward the student body, toward the teachers and toward the community. The proper attitude of the community toward the college is essential. As a member of the board of trustees, Dr. Clark stated that if plans were materialized, there would be a greater Mitchell College before very long, and closed with an appeal to teachers, pupils and patrons to unite in the purpose to make the college a bigger and better institution.

President J. M. Moore emphasized the important part a town plays in making a college. He welcomed the young ladies to their college home and stated that everything possible would be done to make it a home for the girls. He urged the students to be loyal to their home. No boy was ever known to amount to anything who was not loyal to his parents and to his home.

Mr. E. B. Waitt, a member of the board of trustees, stated that during the past year the board had spent most of their time planning, but that they expected to do more this year. Among the improvements planned are a home for the president, additions to the dormitory, a fence around the property, a tennis court and a corquet ground.

Dr. M. R. Adams, the college physician, extended a warm welcome to the girls upon their return to resume their work for the year. "We regard the college as the greatest asset of the town and we predict for the institution a brilliant future," said the doctor.

Spanish has been introduced at Mitchell College this year. Miss Janie Love, instructor, spent several years in a mission field in the state without speaking Spanish fluently, as well as give thorough instruction.

A teacher-training course, giving both theoretical and practical work, is offered the members of the junior and senior classes this year. Several hundred volumes will be added to the library this year. From 1,200 to 1,500 books were added to the library last year and it is expected that the increase this year will be as much or more.

Last year the school was recognized by the state board of examiners, permitting graduates to teach in the public schools of the state without examination; this year a movement is on foot for securing recognition from the Southern Association of Colleges, admitting Mitchell graduates without examination.

The standard of the college is being constantly raised, and the thoroughness of the work done is being duly recognized.

MISS JUANITA HARWOOD WEDS L. A. STIREWALT

Salisbury, Sept. 10.—At the home of the bride's parents, Mr. and Mrs. D. D. Harwood, Miss Juanita Harwood and Louis A. Stirewalt were married Wednesday evening at 8:30. The ceremony was performed by Dr. R. L. Lemons and was witnessed by near relatives.

The couple have gone on a ten-day trip through Western North Carolina and upon their return will make their home with the bride's parents.

The bride is the only daughter of Mr. and Mrs. Harwood. The groom is connected with the ticket agency force of the Southern railway and both of the young people are popular among a large circle of friends.

LUMBER MADE FROM SUGAR CANE STALK

New Orleans, La., Sept. 10.—Bagasse, the sugar cane stalk from which the juice has been extracted, is being made into building material by a manufacturing company at Marrero, La., across the Mississippi river from New Orleans. It is said to be virtually a substitute for lumber and its promoters claim it to be superior in some respects.

The product is being manufactured in boards 12 feet wide and 800 feet long, one board containing enough material to build three bungalows. Strips are later cut into required dimensions. Discovery of a use for bagasse is said to have developed during the war in an investigation of insulating board.

MOVIE INDUSTRY HAS ARRIVED AT TAHITI

Papeete, Tahiti, Sept. 10.—The movie industry has descended upon Tahiti, and this island in the South Seas is all cluttered up with actresses of the screen, directors and camera men.

The native meanwhile, with growing wonder, is being further initiated into the splendors of civilization. He has seen fat women in pants moving majestically along the water front and has beheld the ultra fashionable bathing clothes popular in American movies.

These last, however, have been a bit too much for the Papeete police, and they have decreed that in this corner of the South Sea Islands such things must not be.

BLUE LAWS PROPOSED.

Salisbury, Sept. 10.—This city is to be given a taste of Blue Sunday if petitions now being circulated have the desired effect on local officials. The petitions which are for distribution and signature among Sunday school and church organizations ask the city aldermen to put into effect ordinances that will close up drink stands, hot dog places and everything else, drug stores being excepted certain hours during the day for the sale of medicine only.

ROAD MEETING PROGRAM IS OUT

Heriot Clarkson and T. L. Kirkpatrick Among the Speakers Listed.

Chapel Hill, Sept. 10.—Chairman Frank Page, State Highway Engineer Upham, Commissioners Doughton and Hart of the State Highway Commission; Representatives Connor and Parham, Senators Varsar and Scales, Heriot Clarkson and Col. T. L. Kirkpatrick are among those who have accepted invitations to address the North Carolina Good Roads Convention which is to be held in Greensboro October 11 and 12. With such a list of speakers as this, the success of the convention is already assured.

The work of the State Highway Commission; Taxation and the State Road Program; the Highway program; make up the major topics of the program. Memorial Highways and the Economic Value of Beautifying State Highways, and Safety First and County Roads, will also be discussed. There will be a number of progress reports from county officials with special reports from North Carolina, Bladen, Lenoir, Beaufort, Guilford and Mecklenburg.

The program is being arranged so as to review the history of the State's participation in road building under special reference to the 1919 and 1921 State road laws; plans for the administration and operation of the State Highway Commission under the 1921 law; and the responsibility of counties with reference to the building of county roads to supplement the State system. As will be seen, the entire program relates to our domestic road problems and will be discussed by our own officials. The result will be a convention that is extremely practical, instructive and constructive.

HOTEL DIRECTORS FAVOR EARLY WORK

Efforts are understood Saturday to be crystallizing among officers and members of the board of directors of the new hotel company to bring all building plans more definitely to a head within the immediate future.

One important step is yet to be taken, it is understood, before the company will be ready to enter into building operations, but it is not anticipated that this will bring about any great delay; once the directors determine finally to proceed.

The new interest which is being aroused in the enterprise among the owners of the company results largely from the feeling among some of the stockholders that the near future will offer a strategic time for the starting of the hotel construction.

While building costs are not as low yet as some had believed would be the case toward the Fall of the year, they have come down to such a point that many of the directors are said to feel that the construction ought to be undertaken at this time, which they are now doing. It is pointed out by those who are in favor of moving immediately forward in the construction of the hotel that if the construction of the proposed hotel is delayed too long, it might be projected into a time when building costs are higher than they are now.

PARTY OF CIVITANS BADLY SHAKEN UP

A trip to Greensboro was suddenly interrupted when the coupe in which Dr. C. B. Squires, Frank H. Kennedy and F. C. Bradshaw, Charlotte Civitans, were passengers, was struck by a heavy machine on the national highway near Concord. The machine was en route to Greensboro to represent the local club at charter presentation exercises of the City Civitan club.

The coupe had been stopped to raise the windows when the heavy machine jammed the car from the rear. It was knocked off an embankment, glass in the windows broken and the occupants shaken up. Dr. Squires was rendered senseless for a time. An hour or more was spent in Concord making repairs after which the trip to Greensboro was resumed. Mechanical troubles began near Kannapolis and the party was forced to move the machine to a garage. They returned to Charlotte late last night.

CITY MERCHANTS TO HAVE SPECIAL DAYS

Charlotte merchants have chosen Thursday, Friday and Saturday of next week as special "Exposition" days and on these dates they will put on exhibits of new Fall merchandise for the purpose of concentrating in some measure to the festive week.

The stores will not put on a cooperative sale, but each proprietor and merchant has agreed to enter into the proposition of displaying on these three days new Fall goods and thus give the thousands of visitors who are expected an opportunity to do their Fall shopping here during the week under advantageous circumstances.

It is contended that as Charlotte is the shopping center of the Carolinas, some special effort should be made on the part of the merchants to give the visitors here next week an extraordinary reason for taking advantage of their trip to do their Fall buying.

NO NEW PRESIDENT OF CHAMBER IN SIGHT

No slate has been selected, it is understood, for the new year's Chamber of Commerce, although the understanding is that Col. T. L. Kirkpatrick, who has been president of the Chamber for the past year, will not expect re-election, not only because it is the custom of the directors to change presidents annually, but because also of the fact that Colonel Kirkpatrick feels that he will not have opportunity to devote so much of his time to another year to this work, having given so largely of his efforts within recent years to public matters in the State of one sort and another.

The name of a probable successor to Colonel Kirkpatrick has not been heard mentioned and those intimate with the activities of the Chamber declare that there has not been even so much as a "looking around."

BIG BAND CONTEST

Kansas City, Mo., Sept. 10.—One hundred bands representing every State in the Union are expected to compete for prizes in the parade opening the American Legion convention here Oct. 3. Three awards totaling \$1,750 will be given. Entries already in hand include bands from Massachusetts, New York, Ohio, Oregon and Missouri.

DAIL EIREANN TO MEET AGAIN

Will Consider Proposal Involved in Lloyd George's Invitation.

London, Sept. 10.—Prime Minister Lloyd George's invitation to Eamonn de Valera and his colleagues to confer as to a base for a settlement of the Irish controversy must await action by the Irish republican parliament. That body will meet in secret session next Wednesday, at which time it is assumed, the Prime Minister's latest note to Dublin will be submitted, and a decision will be reached as to acceptance or rejection of the invitation.

It was understood when the republican parliament adjourned in Dublin recently that it had conferred plenipotentiary powers upon Mr. de Valera and his colleagues. The note from Mr. Lloyd George, however, is asserted to have brought a factor into the situation which made it necessary for the parliament to meet and widen the scope of the mandate it gave its leaders.

The members of the parliament, it is pointed out, took the oath of allegiance to the Irish republic and the government of the Irish republic and pledged themselves not to "yield voluntary support to any pretended government, authority or power within Ireland hostile or inimical thereto." It would thus seem that they must be especially empowered to meet the Prime Minister on the basis laid down in his latest note.

Announcement in Dublin yesterday that the Dail Eireann had been called to meet Wednesday, was variously construed here, but there were not wanting those who believed Irish chiefs would find a way to attend conference. It was reported that, if necessary, the date of the meeting, tentatively fixed for Sept. 20 by the Prime Minister, might be extended a week, so that the Dail Eireann and its leaders would not be inconvenienced by the short period intervening.

THEATERS

Thrilling Outdoor Play At Broadway.

It was Theodore Roosevelt who said that artists, seeking to perpetuate American subjects with their brush, could find no more picturesque or vivid type than the lumberjack.

In "The Rider of the King Log," an Associated Exhibitors feature showing at the Broadway theater last time today, pictured from Holman Day's novel, under the author's personal supervision, there is a living portrait of a woodsman who is a great giant of a man. His life in the great outdoors has endowed with the nobility of Nature and his towers above his enemies as the big trees rise above the underbrush.

Frank Sheridan, it is said, gives one of the greatest characters ever filmed, as "The Rider of the King Log." The cast includes Richard Travers, Irene Boyle, Charles Slattery, Carleton Beckett, Arthur Donaldson, Albert Roccardi, and many others. The entire production was staged on the story's original locations in Maine. "Brownie's Little Venus," another of these comedies featuring Brownie, "the wonder dog," also is on this program.

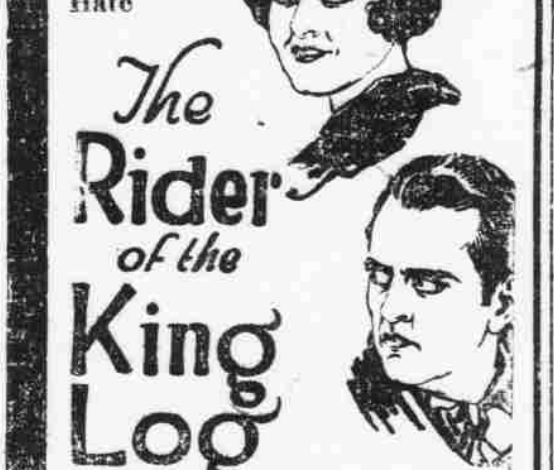

BOY ESTABLISHES THE RECORD FOR FALLING

New York, Sept. 10.—Martin Pearman, aged 6, of the Bronx, altogether has fallen ten stories and still is unscratched. Martin fell six stories yesterday from the top of an apartment house, where he was flying a kite. He landed, only slightly bruised, in a baby carriage. A few months ago, Martin fell out of a fourth story window and escaped serious harm by landing on a clothes line.

AUTO SALESMEN LURED TO DEATH

Prospective Customer Suspected to Have Killed Men and Taken the Car.

Chicago, Sept. 10.—Dynamiting on the Desplains River at Maywood, a Chicago suburb, was in progress today in an effort to recover the body of Carl Ausmus, companion of Bernard J. Daugherty, automobile salesman whose handcuffed and mangled body was found in the river yesterday. Ausmus has disappeared and is believed to have suffered a fate similar to that of Daugherty.

Detectives expressed the belief today that Daugherty and Ausmus had been lured to the basement of a house in Waywood, where they had been killed, the bodies manacled together with handcuffs weighted with stones and tossed in the river. Detectives believe that the handcuffs broke, allowing Daugherty's body to be carried to shallow water.

Hayward W. Church, a 20-year-old railroad brakeman, was being brought back to Chicago today by a squad of detectives from Adams, Wis., where he was arrested yesterday. He made the trip in the automobile which Daugherty had been trying to sell him and was accompanied by his mother.

Daugherty, a former student of Harvard and a resident of St. Paul, came here a short time ago, from Philadelphia, as a salesman for an automobile company.

Church, according to company officials, bought a car which he said was for his father. Daugherty and Ausmus took the car Thursday afternoon, with Church, to a Chicago bank, where a check was to be certified and the car paid for.

Later neighbors saw Church and two men driving up to the Church home in the automobile and enter.

So far as the police can learn, that was the last seen of Daugherty and Ausmus.

HOME CLUBS WILL HEAR SEVERAL TALKS

The County Federation of Home Demonstration Clubs will hold its monthly meeting in the auditorium of Carnegie Library at 2 o'clock, at which time Rev. Dr. Luther Little, pastor of the First Baptist church, will talk to the federation relative to a proposed campaign for eradicating tuberculosis from the county and Miss Eloise Rankin, assistant superintendent of rural schools will talk on "How The Federation Can Help the Schools." At one o'clock, an hour before the federation meeting, the presidents of the clubs will have a meeting in the office of the farm demonstration agent at the courthouse.

Hartmann Wardrobe Castle-Grande

The Ultimate in Wardrobe Trunks.

To estimate the position CASTLE-GRANDE will occupy in the luggage world, it is necessary to revise all standards of comparisons. Castle-Grande is not "just another wardrobe trunk." It is an entirely new conception. It is wardrobe of a new era—on an entirely new and higher plane. You may contrast it with trunks that have gone before, but it is impossible to compare it with any other trunk. For CASTLE-GRANDE is inherently different.

In construction—in material—CASTLE-GRANDE is a radical departure. Old limitations of beauty, convenience and durability have been removed. The result is a trunk of such transcendent visible charm, such new ideals of convenience, and such enduring service, that it is beyond comparison.

Come in and let us demonstrate this new trunk without obligations on your part.
