White House Social Season Bids Fair To Be A Busy One

By BETTY BAXTER.

Staff Correspondent of The News. Copyright, 1921, by News Publishing Co. Washington, Sept. 24.—With President and Mrs. Harding back in the White House and the latter holding long conferences with her social secretary, Miss Laura Harlan, who has just returned a vacation in Canada, with Congressional matters that end at the city after a recess that ended last Tuesday; with the opening of Supreme Court only a week off—well, Washington is almost like its old self again, after its Summer lethargy. Both President and Mrs. Harding got right down to work immediately, the former finding his desk piled high with important matters and the latter finding it necessary to consider winter's social program, which will probably not only include the functions that are usually given every winter at the White House, but other State affairs for foreign notables attending the Conference for the Limitation of Armaments. It promises to be a strenuous winter for Mrs. Harding—but then, when aren't her strenuous? Any one who thinks that being the wife of the chief executive is all play and no work, is sadly mistaken. President and Mrs. Harding are planning at least one more night on the Mayflower to my knowledge. I had thought perhaps the one they just returned from would be the last, but not so. Of course, this won't be all play, for they will go to Yorktown, Virginia, and from there to Williamsburg, where the President will be the principal speaker when Dr. J. A. Chandler will be formally installed president of the College of William and Mary on October 19.

The conference is the main topic of conversation, no matter where one goes. It is discussed not only at the dinner, luncheon and tea tables but in the real estate offices and in the shops and at the hotels and every place else. The whole town seems to be thinking of nothing else, and Baltimore seems to have caught the fever too. And the different staffs of the diplomatic corps are running around in circles trying to get everything settled to make the delegations from the various countries comfortable when they come. They are said too, to be planning to give entertainments for their countrymen attending the conference. It has been said by several who ought to know that the conference, contrary to all expectations will not be marked by much entertaining but I think they only refer to official entertaining, not considering the entertainments that the diplomats are likely to give and that various private individuals are sure to give. It has been said that the Secretary of State and Mrs. Hughes will give just one big party and that will be all. But I think it is safe to say that the White House will entertain for the conference members at least once and then there will be many, many smaller entertainments and the city is sure to be gay throughout its history and it will "get gay" earlier, too. It is said often that the peace conference in Paris was not marked by much entertaining and therefore this one won't be, but I argue that the war was still so fresh in people's minds then; perhaps that made a difference. Anyway you put it, it is sure to be a great Winter. Of that much I am sure without doubt. Mrs. Harding is

sure to announce her plans early next month. The conference coming here in November means that the entertaining at the White House will begin earlier than usual, but I have been informed that the traditional State receptions will be given in January and February, the State dinners a little earlier and all to be over before Lent.

MANY CHARITY BALLS.

Already a number of charity balls have been announced as planned for the early days of the conference and more are being planned. Last Winter, you know, Washington broke all records for charity balls. Many weeks there were two and three within seven days and one of seven days was Sunday. The boards of governors of the National Woman's Foundation have announced that they will give a ball and a pageant featuring the different nations represented at the armament conference on the evening of November 16. Of course the delegates to the conference and other distinguished visitors will all be especially invited and will be great drawing cards. The Robert E. Lee chapter of the United Daughters of the Confederacy, have announced a ball on November 21. You see the conference is responsible for all entertainments starting much earlier this year than is usual.

Washington is wondering if former President Wilson and his wife will take any part in the social features of the conference. You see this Winter will find two ex-presidents living in the national capital, a condition never existing here before. Former President Taft, now Chief Justice of the Supreme Court, will be certain to take part in the social life of the capital not only as former President but as Chief Justice. Mr. Wilson is just a private citizen and not of the same political faith as the powers that be, so some are perceiving if the foreign delegations to the conference, most of whom are personally acquainted already with Mr. Wilson, may with propriety call upon that gentleman. European politicians are extremely formal about that sort of a thing and probably will make certain of the situation before leaving their cards at 2340 S Street. It was thought

that when Rene Viviani was here recently on a special mission, he would visit Mr. Wilson but he did not and it is said perhaps the French ambassador advised him that it might be more tactful to refrain from doing so.

Most of the prices are 25 to 40 per cent less than normal and in some instances a half less than usual.

The materials are all those of the coming season, together with staples like Serges and Tricotines.

There is a predominance of the newly favored soft pile fabrics which are so lovely in themselves that they will look well in the most simply made garments. All of the fabrics are 54 and 56 inches wide, which makes small yardage possible. An average of four yards for suits and from 2½ to 3½ yards for a dress and about 1¼ yards for a skirt.

EIGHT ARE DROWNED WHEN BOAT CAPSIZES

Sault Ste Marie, Mich., Sept. 24.—Eight persons were drowned when their sail boat capsized in a squall on Lake Superior about 20 miles from here, according to a story told tonight by Harry Brooks, lumber camp employe. He claims to have seen the sail disappear about a mile from shore, while the boat was evidently trying to make land. The accident happened a fortnight ago. According to his story, Brooks was alone at the time of the storm and when aid arrived three hours later in the person of a fisherman, in a power boat, the two decided it was useless to make a search for the party. The victims are Mr. and Mrs. John Lewis, Mr. and Mrs. Simon Lewis and their two children; George Field and a small girl.

BIG DEMONSTRATION NEXT ARMISTICE DAY

Washington, Sept. 24.—Labor will make a great demonstration on November 11 to show it is strongly in favor of disarmament, according to a statement issued tonight by the American Federation of Labor. Reports received at the Federation headquarters here indicate that the call of Samuel Gompers, for a nation-wide disarmament demonstration on Armistice day, is receiving widespread support.
