FORGET SAFETY UNDER PRESSURE

Difficult to Think of Safety and Hit Ball at Same Time.

Boston, Sept. 29 .- It is difficult at times to reconcile the thought of safety first and hit the ball at the same time D. L. Cease, editor of the Railroad Trainmen of Cleveland told the dele gates at the National Safety Council

"It is difficult to teach an old dog new tricks," he said. "You know as well as I know that a switchman, brakeman or conductor who takes his time is not regarded as an efficient employe. You know also that it means time to hold up switching in these days when so many cars are handled at one time. You also know that railroad impatience will not stand for much of what seems even in this day of 'safety first and service afterward' to be unnecessary de-You know also that every train and yard man starts to work with the idea of getting done as soon as he possibly can firmly fixed in his mind. He also knows that every man on the job, from the president down to the engine foreman, expects him to keep that in mind until he is through. It is difficult at times to reconcile the thought of safety first and hit the ball at the

"It will take another generation to change this condition of mind. Danger, disability and death always were supposed to go hand in hand with a job

in train or yard service. 'It must be our united work too overcome the traditions of all of our railroad years to have our railway men realize that the railroads are in earnest in trying to save their men, and to get down under the hides of the men and their immediate superiors with the fact that safety means what it says and that unnecessary injury and death will mean discipline for the personal cause of either, if he can be reached.
