**STATE MEDICAL SCHOOL WANTED**

Mecklenburg Society of Physicians Gets Behind Movement Energetically.

Full approval of the movement for a graduate medical school in North Carolina through the extension of the medical course at the University two years was expressed by the Mecklenburg Medical Society at its regular meeting Tuesday night.

On October 22, "University Day," this movement was inaugurated by the Mecklenburg County Alumni Association of the University of North Carolina. A resolution presented by John A. McRae and unanimously adopted by the association. The society has previously taken steps towards such an enterprise that a four year medical course may be available in this State for young men. The time is now ripe for pushing the movement, according to Dr. J. F. Munroe, president.

The local medical society will get behind the school to the limit and stay behind it, it was explained, no matter where the school might be located. Naturally the place offering the best inducements will be chosen. It will have to be located, however, in some city of the State where hospitals are sufficient enough to provide plenty of practice work.

The University of North Carolina once had a school in Raleigh when the last two years of the medical course were given, but it was abandoned about 10 years ago, and since that time the students have been required to take the last of their courses outside of the State.

The logical thing to do is for the University to add two more years to its medical course, declared Dr. Munroe. As it is, it is too expensive for some young men who seek medical education. North Carolina is one of the few states that has no graduate medical school. It is growing rapidly in other lines, Dr. Munroe said, and the time is now ripe when steps should be taken in the direction of a complete medical school.

While local doctors declared they would like to see Charlotte get the school, they, nevertheless, are willing to stand behind the movement no matter where it may be located.

A committee to investigate all facts concerned with the movements was appointed Tuesday night. It is composed of Dr. J. P. Matheson, chairman; Dr. D. W. Paison and Dr. H. L. Sloan, with Dr. Munroe as an ex officio member.

**TWO COMPANIES ARE IN NEW QUARTERS**

The Stephens Company and the Myers Park Homes Company, which have had offices in the basement of the Realty building since they were organized, have moved into new quarters in the Dowd building at 17 West Fourth street, the quarters being directly under those occupied by the Chamber of Commerce staff of the new building of the second floor.

The Stephens and Myers Park Homes Company are engaged in developing Myers Park. The Stephens Company was the original company formed for the purpose of selling real estate and developing homes in Myers Park. The Myers Park Homes Company was formed about two years ago and is now engaged in house-building in Myers Park. George Stephens is president of the Stephens Company, A. J. Draper, vice-president and W. C. Rankin, secretary. V. J. Guthery is president of the Myers Park Homes Company. T. E. Hemby is vice-president and W. C. Rankin is secretary.

**GREATER CLEVELAND GOES WITHOUT MILK**

Cleveland, Ohio, Nov. 2.—Hundreds of thousands of thousands of people of Greater Cleveland were without milk this morning as a result of the failure of between 750 and 800 drivers of the Tulling-Belle, Yermolen and subsidiary companies report for work.

The men went on strike at midnight after a vote by members of the Milk and Ice Cream Wagon Drivers Chauffeurs and Helpers Union, after a break in negotiations for a new wage scale, which had been going on since October 1, when the companies announced a reduction of \$6.50 in the weekly wages, which averaged \$38.

Between 75 and 80 per cent of the milk deliveries are affected, according to estimates. Union officials announced, however, that hospitals and families having babies would be supplied.

**GOTHAM'S 'BREAKFAST IS MILKLESS AFFAIR'**

New York, Nov. 2.—Citizens of the metropolitan area rose again this morning to breakfast without milk and cream on the second day of the milk handlers' strike, with slight prospect of a strike settlement in sight. Except for deliveries by small distributors, the milk delivery system continued in a state of paralysis.

Representatives of the employer organization, the Milk Conference Board and Milk Wagon Drivers Union were called to the office of Mayor Hylan today to discuss possible terms of settlement. Both sides expressed little hope of reaching a settlement.

**YODER CURETON FAILS TO WAIT FOR SENTENCE**

Gastonia, Nov. 2.—Yoder Cureton, negro from Charlotte, while on trial here yesterday morning in the local Superior court, now in session, escaped from the courtroom while awaiting his sentence to be pronounced. He was held on two charges, speeding and operating an automobile while drunk and was under bond when he escaped. Curias was immediately issued for his arrest.
