Modern Housekeeping
 Present day conditions make the aid of a Bank Account and Check Book an almost indispensable necessity in conducting a Home.
 With a Checking Account an accurate record of all expenditures may be kept and an absolute receipt is received for all bills paid.
 And the added confidence it brings to the housewife in her dealings with the business world is well worth while.
 We cordially invite the women of Charlotte to take advantage of the facilities offered by this institution.

RAGING VOLCANO ON KAMCHATKA
Rocks as Large as Ships Hurlled from the Mouth of the Crater.
 Tokio, Nov. 10.—Showers of rocks larger than ships were hurled from a raging volcano on Kamchatka where a terrible and magnificent volcanic phenomenon occurred in August recalling the primitive days of the formation of the earth. After having been wrecked and washed away on the shore of Kamchatka Frederick McCormick, a well known American newspaper correspondent, witnessed the extraordinary eruption.
 In a report to the Japan Advertiser, Mr. McCormick says: "On arriving at Hakodate, in northern Japan, I heard from a fisherman of an earthquake above Hokkaido and the disappearance in the sea, September 5, of a part of the island of the Kurile group. The earthquake extended from Hokkaido to the Aleutians and was but a prolongation of the seismic phenomena occurring in Kamchatka, where I was wrecked on the Kronotsky Peninsula. Ten days later 60 sea miles to the south, I found myself at Semlachik from there I saw the magnificent eruption of the volcano Kahimskaia. Above a mountain ridge which lay between we could see without the aid of glasses the expulsion of showers of rocks, many of which must have been larger than ships as they flew through the sky in giant parabolas. Only the flowery crest of the eruption was visible to us as it played against the sky. The smoke reached upwards thousands of feet and 100 miles down the coast and out to sea.
 "Then the wind shifted to the west and the ship was sprinkled with volcanic dust. There was a great roar like the sound of an artillery battle, and it was reported that the water of Bronotsky Bay had risen in temperature 5-12 degrees while magnetic disturbances rendered the ship's compass unworkable. Fearing a submarine sea-wave we put out 45 miles off the shore and on September 5 recorded a violent earthquake which shook the ship. The same was experienced at the Commandorsky Islands and Ust Kamchatka.
 "There are few places where the direct and positive force of nature can be realized so intensely as in this far away land. There are about 63 volcanoes in Kamchatka of which 20 are active; there is no historian to record their great doings except an astonished fisherman 1,000 miles away. A geographical expedition from Sweden intends to announce next year the results of its scientific work in Kamchatka."

PRESIDENT WAS THE INSTRUMENT OF GOD
 Washington, Nov. 10.—(By the Associated Press.)—During an impressive memorial service, which was held yesterday at the Japanese Embassy for Premier Hara, who was assassinated last Friday at Tokio, Sennosuke Yokota, who particularly represents the Japanese Chamber of Commerce, on the eve of the sailing of the armament conference delegation from Japan, Mr. Hara expressed the conviction that President Harding, in calling the conference, was the instrument of God. The Prime Minister was not known as a religious man and Mr. Yokota explained that he was deeply moved to hear his chief and friend burst into a flood of religious emotion in discussing the Washington conference.

TOTAL FOREIGN BORN POPULATION 13,920,692
 Washington, Nov. 10.—The total foreign-born population of the United States on January 1, 1920 numbered 13,920,692, representing an increase of 404,800, or 3 per cent since 1910, according to Census Bureau figures made public yesterday. Of the total, 6,493,058 were naturalized, 1,223,490 had taken out their first papers and 5,398,605 were aliens. Status of the remaining 805,909 was not ascertained by the enumerators.
 The bureau said the announcement was the first ever made showing the citizenship distribution of the entire foreign-born population without distinction as to race, age or sex, previous statements having been limited to males 21 years of age and over.

OUR BANK YOUR SOLUTION—
 Agriculture is the basic bond between the people of our cities and those of our farming communities. These groups are dependent upon each other, one for the necessities of life, the other for a market.
 Since our organization it has been our privilege to participate in providing banking facilities for the support of both of these groups, such support aiding in the development of our City, County, State and Nation.

MARY'S DILEMMA
 Married Bill 15 years ago. He always made good salary, but they have no home, nothing for the rainy day, and are considerably in debt. She sees her neighbors prospering, paying for homes, carrying extra shares for investment in the Mutual, and happy. Bill neither drinks nor gambles and is devoted to her. She wants Mr. Keesler to explain.
NOTHING EASIER, MADAM
 Bill's a devotee of soft drinks, movies and club life. His cigar bill is about \$30 a month. He doesn't shine his own shoes, drives a \$5,000 auto and pays \$2.00 for his ties.
HOW ABOUT MRS. MARY
 Your hats, gowns and shoes don't fit Bill's salary. You entertain beyond your means. No children, yet you must have servants. You're no help to Bill, and he is not encouraged to save. Two lives—two failures thus far.
CHANGE YOUR TACTICS
 Cut 'em out right now, and take shares in the Mutual. That's the secret of your neighbors' success, and its your only hope. You must stick. Resolutions are good, but it's standing-by-your-guns that count.
THE MUTUAL B. & L. PLAN
 has no equal as a saver or home-builder. It's a wonder as to service, remuneration and size. Issues shares for every need, and can cure your malady. Running shares, \$72.50 shares, \$100.00 shares, all taxes paid by us. The best features for your savings right here. Where's your little thinker?
OUR OCTOBER SERIES AWAITS YOU.
 and the wise are rushing in. Why remain out in the cold?

PROTECTION.
 The story of the service Walker always gives would make quite a sizeable volume.
 The value of Walker's service is fully in keeping with the prestige it has won during the years its story has been unfolding.
 That prestige is based on its record of insuring uniform satisfaction.
 Those who highly esteem a service that meets every test continue to hold Walker's service without superior in Charlotte.
