

# BEAUTY CHATS

COSMETIC GLOVES.

It is just as well to be prepared at the time of the year with lotions to combat the drying effects of the Winter winds. Most of us suffer during Winter from chapped hands, some of us in fact who do a great deal of manual labor suffer from chapped hands both Winter and Summer. In any case where the skin has become quite dry and chapped the best treatment to give is to wear what are called cosmetic gloves. These are not the ordinary, old gloves coated in some way with special oil preparation, but should always be worn at night. The idea, of course, being that the skin can be coated with cosmetic gloves several hours and that the gloves keep the oil in contact with the skin will also keep the bed linen from grease stains. To give the hands this treatment an old pair of leather gloves, a couple of sizes too large, turn them

inside out and cover the lining with cold cream or some special paste. Turn them back and put them on just before going to bed and immediately after you have washed the hands with soap and very hot water.

One well recommended cosmetic glove paste is made as follows: Refined pine tar.....1 pint Olive oil.....1 teaspoonful This must be heated when mixed so that the pine tar is blended with the drops of any perfumed oil you like. This is spread over the lining of the gloves. What remains on the skin is easily washed off the following morning.

L. M.—Hot, crude oil massaged into bald spots will often restore the growth of hair, unless there is a very shiny surface to the skin, in which case nothing will induce the growth again.

This oil is much better than lanoline for the scalp.

L. E. D.—Consult the doctor about that lump in the front of your neck. It may be a goitre, which could be cured easily now at this early stage.

Peggy S.—You should weigh 110 pounds. Your colors will be all of those found in the Autumn leaves.

I. M. P.—Your weight is correct. Join a gymnasium for the exercises to give height, as many of them require the special apparatus.

Muffie Doty, Patty.—Consult the doctor about the granulated eyelids. The old fashioned castile soap is a fine grade for all toilette purposes. I do not think that ankles are larger from the habit of wearing low shoes, as ankles get so much more freedom this way, the exercise should tend to make them more slim than when they are encased in a tight leather covering, such as usually happens when wearing high shoes.

B. E. W.: A Friend.—I will be pleased to mail the formula for the cream, if you send an addressed, stamped envelope. This also applies to the request for directions on dieting for reduction.

All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

### MONTENEGRINS IN REVOLT.

London, Nov. 10.—According to the newspapers here, the Montenegrins are declared to be in revolt against Jugoslavia. A Montenegrin battalion is said to have occupied Mount Louchen, an important strategic position.

### HIGHWAY BOARD IS AWARDED DECISION

In civil court Wednesday afternoon, Judge T. J. Shaw awarded judgment to the Mecklenburg Highway Commission in a hearing involving disputed obligations between the highway commission and the board of county commissioners as to which was liable for \$2,703.84 due on the road contract between the Charlotte township line and the Union county line on the Monroe road. The commissioners gave notice of appeal to the Supreme Court and the case will finally be settled there.

J. L. DeLaney, counsel for the highway commission, argued that the county commissioners gave the contract for the improvement of the Monroe road before the highway commission was created and that the commissioners were, therefore, logically the body that ought to pay for it. The attorneys for the county commissioners, on the other hand, argued that the highway commission, since it had taken over the road-building and road-repair functions of the county, was the proper authority to pay the bill.

The case will probably reach the Supreme Court in about 30 days.

### FORT MILL EXHIBIT AT ROCK HILL FAIR

Fort Mill, Nov. 10.—Several pupils and teachers from Fort Mill graded school completed the Fort Mill exhibit at Rock Hill fair last night, and the display is a very creditable one. The success of the effort to have Fort Mill represented at the fair is due to the Parent-Teacher association, which organization, at its last meeting, appointed a committee to solicit exhibits throughout the community, and made all the arrangements for the installation. The response to the requests for exhibits was very generous, and the initiative of the very influential association is generally commended.

### ASHEVILLE GETS SECOND SCHOOL

#### Salesmanship School Will Be Conducted in That City Next Week.

Statesville, Nov. 10.—Asheville gets the second school in retail salesmanship to be conducted in the State under the auspices of the North Carolina Merchants Association through the co-operation of the national and State departments of education. The first school, which ran for six weeks, was completed in Charlotte last week and as the result of a conference held in Charlotte between Professors T. E. Zebrows and George W. Coggin of Raleigh, State director and supervisor of vocational educational education, respectively, J. Paul Leonard, executive secretary of the North Carolina Merchants Association, and Morris Lipsinsky, representing the Asheville Merchants Association, it was decided to establish the second school in Asheville.

Mrs. Ella S. Tuttle of San Francisco, who has been employed to conduct the schools in this State, was here this morning en route to Asheville, where she will organize classes and begin instruction within the next few days. Mrs. Tuttle took her course in salesmanship instruction at the University of New York and has since done splendid work in a number of cities. Prior to taking her course she had practical experience in every phase of department store work, and she is recognized as a very capable teacher. State Secretary Leonard, under whose supervision the schools in salesmanship are being established in the State, says Mrs. Tuttle did splendid work in Charlotte and he believes the establishment of this teaching service in the State will prove of inestimable value to the merchants and their salespeople, and will be appreciated by the buying public.

A recorder court for the county of Iredell was established by the board of commissioners in session Monday. A. L. Starr, of Mooresville, was appointed recorder, and John G. Lewis, of Statesville, prosecuting attorney. The organization becomes effective December 1. Statesville will celebrate Armistice Day with appropriate exercises. Features of the celebration will be exercises by the school children, American Legion social program, Minstrel parade, foot ball and Seligm Seen Minstrels.

### DISCONTINUE STREET RAILWAY.

Detroit, Nov. 10.—Conforming to an order ordinance adopted by the voters here Tuesday, the Detroit United Railway will discontinue operations on two of the principal thoroughfares by November 25, to make way for municipal street car lines. It was announced last night by A. F. Edwards, vice-president of the company.

### Rheumatism Grows Worse If Neglected

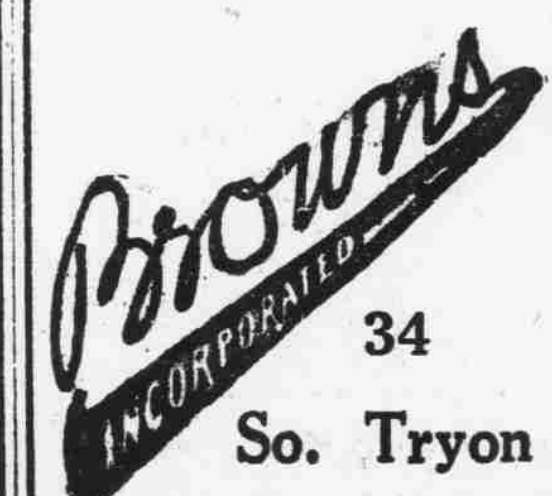

It is a Uric Acid Trouble. It makes its presence known by local aches and pains, inflamed joints and stiff muscles but cannot be permanently relieved by local applications. Its cause is constitutional and it must have constitutional treatment. Take Hood's Sarsaparilla, which corrects the acid condition of the blood on which the disease depends and makes you feel young again. "Three doctors said I could not be cured of rheumatism but at 64 I am still alive, well and strong thanks to the yearly use of Hood's Sarsaparilla. I am convinced there is nothing better for rheumatism." C. E. Goodrich, Bolivar, Mo.

**Wear Better Suits and Overcoats**

Wear better clothes for the same reason that you buy better gas for your automobile. Better coal for your furnace, "the quality" grade of anything you wear or use.

New Fall Suits, and Overcoats from the best manufacturers, \$25 upwards.
