Textile Industry Heads To Southern Territory

History of Cotton Manufacturing in South Shows Slow Development for Awhile, to Be Succeeded by Mighty Impetus Within Recent Years.

That the cotton manufacturers of and once established in a mill vil-the New England section of the lage they rarely go back to the country that have for generations mountains or leave the mills to endominated this industry are being forced into the South because of With few exceptions the Southern "radical legislation and excessive cotton mills own their mill villages, taxation" and are reaching toward that is, they build costages close this territory where there is less around the mill and rent them to "legislative interference, lower taxes their employees at 25 cents per and a better class of labor" is the challenge which David Clarke, edi-includes electric lights and water

letin throws right into the heart of prices. Boston Transcript.

der the leadership only of the capitalistic interests of this section and from the mills. which now, he suggests, is to receive the impetus of this section and ufacturers from that section will un New England operatives pay high dertake throughout the South, particularly in the Carolinas.

cript is as follows:

Cottea manufacturing began in the South in 1813 with the establishing of a small mill at Lincoln-Most of the machinery was made on the spot and the total

During the next twenty years othmanufacturing and it is estimated that the presence of negro slaves South fully fifty years.
