A family in the State of Massachusetts, attracted by the natural resources and climate of North Carolina, decided to break up housekeeping there and come here to live.

They were undecided at first as to whether they should dispose of their piano there and buy one when they arrived in this State. They got my prices, and after examining them found that I could not only sell them a Piano as cheap as they could buy North, but that they would save some \$15 freights.

I attribute solely my success in the Piano and Organ business to the low prices I sell them and to the ONE PRICE system. A little child can buy a Piano or Organ from me as the shrewdest bargain driver in the country. I don't do any overcharging. Prices are the lowest. One price to all. One man's money is as good to me as another.

Easy terms for payments. Who could offer easier terms? Where is the man who could not buy a nice instrument on the terms I sell them? I will sell you an Organ and let you pay \$5.00 cash and \$5.00 each month until paid for and a Piano for \$25.00 and \$10.00 per month.

I pay all freights to your nearest depot. I give a handsome stool, music and instruction books with every Organ. I give you a handsome plush stool and embroidered cover and music book with every Piano you buy from me.

I give you fifteen days trial on every Piano or Organ you buy from me, and if the same is not what it was represented, you can return it and I will pay freight both ways.

All new instruments are guaranteed for 6 years and will be repaired or replaced with a good one if found of inferior construction under proper usage.

I guarantee each and every purchaser pleased or no sale. I will exchange and keep exchanging until you are pleased. I can and will please you.

I carry the largest stock. I handle nothing but the most reliable makers. I will sell you cheaper than you can buy anywhere. This is the platform on which I stand and on which I always expect to stand.

I ask you to come and see for yourself.
