A CONCILIATORY ANSWER TO THE ULTIMATUM.

We Talk in Washington Quoted News To-Day, and a Conciliatory Solution of the Trouble Anticipated.

WASHINGTON, Jan. 25, 9 a. m.

The State Department has received a cablegram from Minister Egan to the effect that President Montt was absent from Santiago at the baths, a summer resort in the mountains, and that Senator Parera, the minister of foreign affairs had requested a delay of a day or two before answering the demands of the United States for indemnity and apology. This was for the purpose of communicating with President Montt, and will preclude the possibility of any answer to President Harrison's ultimatum for several days to come.

Naval news at this juncture is an exceedingly scarce commodity. This morning the stories about the Philadelphia going to Gibraltar to head off the Chilean cruiser Captain Prat, which were extensively printed yesterday, were the subject of grave discussion among naval officers, and it was universally voted that whether they were true or not the movement indicated would be as shrewd a trick as could be devised. There has been a strong denial of the story from Secretary Tracy, yet on all sides is heard the comment that it would be very unnatural if he should not deny, for in time of war nothing can be admitted that will throw any light on a proposed campaign.

A chief of bureau talking with a reporter this morning said that the run from the Barbadoes to the Straits is 3,200 miles, or a couple of hundred more miles than from New York to Liverpool, and he added these significant words: "He will stop at the Madeira Islands. The ship will make the run as quickly as any vessel can."

CHILI'S REPLY.

WASHINGTON, Jan. 25.—A dispatch from Santiago de Chili, says: The Chilean government has sent a reply to the ultimatum of the United States. The reply is in effect as follows: Chili agrees to withdraw the offensive note sent by Senator Matta to all the Chilean Ministers abroad and acknowledges that its issuance was due to an error of judgment. Chili also withdraws its request for the withdrawal of the United States Minister Egan.

In addition, the Chilean government in its answer proposes that the affair of the attack on the Baltimore sailors in Valparaiso, be submitted to the arbitrage of some neutral nation. If the proposition is not acceptable to the United States government, the Chilean government suggests that the matter be submitted to the decision of the Supreme court of the United States.

CESSATION OF WAR TALK.

WASHINGTON, 3 p. m.—The conciliatory spirit shown by Chili and the evident desire to do right, has caused a cessation of war talk. It is generally conceded that if the Matta note is withdrawn, Congress will ask the President to grant Chili's request and a sister republic be asked to arbitrate.

Officers Elected.
The annual meeting of the stockholders of the Alpha Cotton Mills was held in this city last night. The reports showed the business of the mills to have been good with a very promising prospect for the future. Mr. C. Scott was re-elected president, and Mr. R. M. Miller, Jr., vice-president. The board of directors consists of C. Scott, R. M. Miller, Jr., J. H. Van Ness, R. M. White, Dr. R. J. Brevard, F. R. Durham, J. C. Long, B. F. Withers, R. B. Alexander, E. J. Heath. The Alpha is the first of the cotton mills built in Charlotte on the building and loan plan.

The Weather.
Following is a synopsis of weather prevailing at 8 a. m., to-day: The weather has generally become much cooler, with a cold wave in progress over the northeastern portion of the country. Temperatures in that section have diminished as much as 32 degrees, and this diminution has extended considerably south as far as Tennessee, and will reach us today. A high pressure prevails over the western portion of the country, while a low barometer extends from Maine to Florida along the coast. Generally fair weather prevails over the country.

Concord's Benevolent Society.
The Benevolent Society of the First Presbyterian church of Concord met for the first session of the present year at the manse on yesterday evening. CHESTER'S BIG BURN.
The Chester Manufacturing Co.'s Plant Recently Destroyed by Fire this Morning. Special to THE NEWS.

CHESTER, R. C., January 25.—This morning at one and half o'clock fire broke out in the Chester (ingham Mills and in a little while the whole property was a ruined mass. The building, together with \$20,000 worth of yarn were completely destroyed. The entire thing was insured for \$151,000, which is about two-thirds its value. The origin of the fire is unknown. It is supposed to have been accidental. When first discovered in the boiler room by the watchman it was quite small but instead of the watchman using the precautions provided for in the mill, in case of fire, he attempted to arouse the operatives near by and before help could come the fire was beyond all control, owing to the combustible nature of the material. The fire department did excellent work but to no avail. It is a great loss to Chester as it throws 150 operatives and their dependent families out of employment. The town will lose a revenue of \$1,000 a week. The majority of the stock holders say it will rise Phoenix like out of the ashes.

Death of a Prominent Citizen.
Mr. R. L. De Armon, one of Mecklenburg's oldest and most prominent citizens died at his home in Mallard (Creek township, last night. Mr. De Armon was about 75 years of age, and was formerly a member of the board of county commissioners.

Rogers & Co's advertisement is attracting attention all around. They yesterday received an order from a man in Lincoln county, who had read it, and wanted a bargain. He enclosed 5 cents for a man's handkerchief. The letter was registered and had on it in addition, two 2-cent stamps. But the man got his 5 cent handkerchief all the same, for it was promptly sent to him. That's financing on the part of the Lincoln county man, but it shows what advertising will do.

A Coroner's Jury Hung.
The man who was killed at the Charlotte, Columbia & Augusta railroad bridge, near Pineville, as noted in yesterday's News, proved to have been a former resident of Paw Creek township, this county, named Ransom Dunn. The jury hung on the case. Five of the jurors were of the opinion that he was knocked from the bridge, while the sixth juror held out that the man was not struck by a train but came to his death by falling from the bridge. Matters stood this way last night. To-day the engineer of the train which is supposed to have struck Dunn, was sent for from Columbia, to give his testimony to the jury, and may be, after hearing what he has to say, they will be able to agree on a verdict.

The jury this afternoon agreed on a verdict that the man was knocked from the bridge by a train, but released the engineer of all blame.
