THE BELMONT'S ANNIVERSARY.

The Great Fire of a Year Ago Recalled and Some Notes About the Splendid New Building That Takes the Place of One Our People Did Not Expect to See Duplicated.

To-morrow night, January 31st, is the anniversary of the big fire that burned out the Wilson Drug Company and the Belmont Hotel, that stamped the guests of the Central Hotel and that at one time threatened the destruction of a large portion of the city. It was the most dangerous fire that had occurred in Charlotte since the cotton platform fire of April 1875.

The new Belmont is four stories high, and cost completed and furnished, the snug little sum of \$200,000. Handsome and imposing as is its exterior, one needs to take a stroll through its rooms and hallways to get a just appreciation of its beauty.

There is no other building in Charlotte, public or private that can compare to it in elegance. The first and second floors are fitted with walnut and ash, the third in native pine and the fourth in cherry. The wood-work is in carved designs of beautiful patterns, of the Queen Anne and Florentine styles.

The furnishing of the house is of the finest goods made. The parlor furniture and dry goods were bought in Charlotte, but the hallways and rooms were furnished by the Phoenix Furniture Company, of Grand Rapids, Michigan. The chairs were supplied by Heywood Bros. & Co., of Baltimore. W. & J. Sloan & Co., of New York, supplied the velvet carpeting. The plate glass was supplied by Sutherland & Myer, of New York; the blinds by Geo. O. Stevens, Baltimore; the cornices by Carpenter, Anear & Co., Louisville; the marbled mantels by Fischer Seaf Co., Louisville; the hard wood mantels by Riddle Slide Manufacturing Co., Baltimore; the ranges by Jewett & Co., Baltimore; the iron columns by Champion Iron Works, Kenton, O. The brick work was done by J. W. Woolen, and the carpenter work by

Josiah Asbury W. W. Ward & Co. furnished the cement, lime, etc., and Richard H. Morse supplied the Marquette (Ga.) marble tiling.

The china ware, table equipments and umbrellas other necessities were purchased in Charlotte. The new Belmont, as was the old, is connected with the Central by a covered bridge.

A Merchant Closed Out. D. R. Byrd, a merchant who was in business at Grover, then at Sparlanburg, and latterly at Clinton, was closed out by attachment, yesterday. His liabilities are about \$6,000.

Railroad Offices Consolidated. A special order issued from Atlanta by General Manager W. H. Green, says that on and after February 1st, the agencies at Greenville, R. C., will be consolidated, with C. E. Watson as Agent in charge of the business of the Columbia & Greenville, Atlanta & Charlotte, and Port Royal and Western Carolina railroads.

Five New Cottages in a Row. THE NEWS has had a good deal to say recently about the amount of building now going on in Charlotte, but it has overlooked one spot. In the northern section of the city, near the Ada mills, Mr. Frank Sudder has just completed a row of five cottages, each cottage containing five rooms. It is one of the prettiest rows of buildings on the suburbs.

Its Fame Goes Abroad. The Hotel and Travelers' Guide, of Philadelphia, contains this handsome notice of the Buford Hotel: "An elegant banquet was given at the Buford Hotel, Charlotte, N. C., on the 14th inst. under the auspices of Hathbone Lodge, No. 37, Knights of Pythias. The Buford is one of the most imposing edifices in Charlotte, and Proprietor G. W. Kittelle is worthy of the extensive patronage bestowed by the traveling public."

The Richmond Terminal. It is announced from New York that the Louisville, New Albany & Chicago Railroad had bought 1,000 freight cars and is rapidly improving its terminal facilities. This is interpreted in Wall Street to mean that the company is preparing to handle the Chicago business of the Richmond Terminal system. It was rumored today that the Chesapeake & Ohio is about to close negotiations which have been pending with the Louisville Southern, and as the latter is a connection and ally of the Louisville, New Albany & Chicago, it looks as if a new combination had been formed among the roads in that section.

The License Business. The board of county commissioners will meet in regular monthly session Monday morning, and the liquor license business will probably have another turn. Capt. Vail, the chairman of the board, is still confined at his home by sickness and will hardly be able to take part in the meeting, but that will leave the board, according to the status recently established, two dries and two wets. The board could transact business with only three members present.

Just what the programme is, no one seems to know, but the matter of the application of Joe Lindy will very probably be renewed and brought to a finish. It is said also, that Mr. Wm. R. Cochrane will apply for a license.

The steak sold at H. C. Irwin's market always gives satisfaction. Try some of his Western meats.

DEATH BETWEEN THE CARS.

The Life Crushed Out of a Workman at Statesville.

A colored man, named Gibson, whose home was at Salisbury, and who was employed as a brakeman on the Western North Carolina road, was crushed to death between two freight cars, at Statesville, yesterday afternoon. Gibson was coupling cars, and (sat) home in the business. He was stepping backward between two box cars, when he stumbled and fell. His body was caught between the bumpers and was crushed to pieces, causing instant death. The coroner's jury found that Gibson came to his death by an accident, for which the railroad was not to blame.

Cotton Figures.

The receipts of cotton at Charlotte during the past month have been picking up a little, as the saying goes, and the general decrease in the comparative receipts is somewhat lessened. The receipts by wagon this month were 308 bales, against 1124 bales for the same month in 1891. The receipts to date from the first of last September are 12,477 bales, against 20,369 for the same period last year, a decrease of 7,892 bales.

A Railroad Superintendent Buys a Lot and Will Build in Charlotte. Mr. Moncure, superintendent of the Carolina Central Railroad Company, has concluded negotiations for the purchase of a lot in Charlotte, the lot which he has purchased is located on North Church street, and the consideration was \$1,500. Mr. Moncure will erect a handsome residence on the lot, and will move here as soon as his new dwelling is completed. Charlotte will give Mr. Moncure and his family a most cordial welcome.

The Weather.

Following is a synopsis of weather prevailing at 8 a. m., to-day: Generally settled conditions still prevail over this section. Temperatures have generally remained stationary over this section but have fallen in the Lake region and as far south as Tennessee. Considerably cooler weather will prevail by to-morrow morning. Light precipitation has occurred around the eastern Lakes, and along the coast as far south as Norfolk; elsewhere there has been a notable dryness.

The Next Cotton Crop.

There is one thing that is bound to diminish the next cotton crop, both as to acreage and production. That is the tremendous falling off in the sales of fertilizers. There are many persons who estimate the total output of this season at only 25 per cent. of that of last year; while the most sanguine dealers and manufacturers consider 40 to 50 per cent. an excessive estimate. There are tens of thousands of acres of cotton land in the South that are not worth cultivating, and that will not be cultivated, without the use of fertilizers, and there are tens of thousands more that will be cultivated without fertilizers, on which the yield of cotton will be far below the average on account of the absence of the usual stimulants. This enormous decrease in the sales of commercial fertilizers is a "pointer" that will have a marked influence on the future of prices.

Many Persons are broken down from overwork or household cares. Brown's Iron Bitters rebuilds the system, aids digestion, removes excess of bile, and cures malaria. Get the genuine.

FAIR TO SEE.

None of the seasons Novelties begins to compare with our glittering array of CARD BASES. How popular they are is evidenced by the demand for them. It has been steadily increasing and it has not reached a climax yet. If you are out of the fashion, you are virtually out of the world and the world never yet boasted of anything daintier or more fashionable than our NECKLACES. They are so exquisite in design and so perfect in elaboration that nothing but an unconditional surrender is in order when you see them.
