Linen is linen with us. Remember that here Linen is all made of flax. Nothing goes through our hands but the finest quality of flax. The great lot of Seigle's Linen Towels is on the market now. West window full of specimens showing the quality and style of each variety. We name: 48-100, 48-110, 48-120, 48-130, 48-140, 48-150, 48-160, 48-170, 48-180, 48-190, 48-200. All the prices are the same. Seigle's Linen Towels are made from the same flax as the cotton. Our work for it you will never buy them any less than these prices. Quality is what you want and price is what you pay. Our towels are made from the finest flax and are made in a way that pays you the most for your money. If you could buy them at 25 per cent. off you would not buy them. Here is a chance to buy a lot of Towels you are sure to need. We have later twenty five per cent. better quality than in the regular way. If you wish the drift of our argument. The Towels are here to show and people who have seen them will show them to you. OUR SHOES ARE ON TOP.

Common sense governs the making of the modern shoe and common sense should govern every level headed purchaser. Don't take your custom where you have to take precautions too. The dealer who sells fraudulent shoes should be made to wear them; the more fraudulent the shoe, the more severe and well deserved the punishment would be. There is no trash in our 3.00 shoe. It is an honest article clear through. It is a perfect phenomenon of cheapness and it simply can't be matched in footgear for the money.

The Last School Fund.
The graded school problem was the subject of an earnest discussion last night between the city finance committee and a committee from the school board. A number of suggestions were made, but no one was able to point a way out of the difficulty. A marked feature of the discussion was the fact that all present expressed an earnest desire to keep the schools going if there was any possible way of raising the necessary money. One suggestion was that the city sell off a portion of the city school property and apply the money thus raised to the school fund, but this proposition, even should it be found practicable, would hardly meet with public approval. Practically, there was no result whatever, so last night's meeting, and the city remains stripped of its graded school fund. Another meeting of the school board and the aldermen is to be held Monday evening.

Charlotte and the State Convention.
The Greenboro Record seconds THE NEWS suggestion that Charlotte is the proper place for holding the next Democratic State convention. The Record endorses all of Charlotte's claims for the convention and says that Charlotte ought to have it. We believe that two thirds of the papers in the State are of the same opinion. The only building in the State capable of holding the convention is at Charlotte, and in addition that Charlotte has hotel and railroad facilities such as no other place can offer.

The Weather.
The following is a synopsis of the weather at 8 a. m. today: An area of low pressure is central this morning at Huron, S. D., which extends east of the Mississippi river, and is being attended by cold weather along its track. Its influence will probably be felt over this section today in the form of rain and warmer weather. The anti-cyclonic area located out west yesterday has passed rapidly across the country, and is this morning located off the coast near Washington city.
Rain has occurred along the lake regions, and off the Florida coast; elsewhere generally cloudy and threatening weather prevails.
Temperatures have fallen over this immediate section, but have risen elsewhere. In the extreme northwest they have risen as much as 42 degrees during the past twenty-four hours.

A GOOD MAN GOES

Death to Greenboro Last Night of Ex-Governor.

Ex-Gov. Alfred Moore Beale, ex-Governor of North Carolina, died at his home in Greensboro last night at 9 o'clock after a long and wasting illness. He was one of the purest and best men that ever served his State and the record of his public and private life is faultless.
Governor Beale was born in Rockville, on the 26th day of November 1827. He was educated at the University of North Carolina, but was not graduated. He afterwards taught for a time, then studied law and was admitted to the bar in 1851. In 1853 he became solicitor of Rockingham county. He was a member of the lower house of the Legislature in 1862, 1863 and 1864, and was then elected to Congress as a Democrat serving from December 7th, to March 3, 1869 he was elected clerk and master of the court of equity of Rockingham county and held that office until the outbreak of the war. In 1860 he was a presidential elector on the Breckinridge ticket, and at the beginning of the war he entered the Confederate army as a private. He was elected captain, subsequently promoted colonel, and then made brigadier general. He took part in the battle of Williamsburg and in the engagements around Richmond, and after General Pender was wounded at the battle of Fredericksburg, took command of his brigade. He was severely wounded at Chancellorsville and at Gettysburg and was present at most of the other battles until the close of the war. He resumed the practice of his profession after the war, was elected to the State Legislature in 1870, '71 and served in congress by successive elections from 1872 to 1884. On Nov 4th 1884, he was elected Governor of North Carolina for the term that ended in January 1889.

Local Happenings.
If there is any one who is looking for a good job, it is better to look for it in the city than in the country. The city offers more opportunities for advancement and a better chance of success. The city is the center of business and industry, and it is here that the most important work is done. The city is also the center of education and culture, and it is here that the most advanced knowledge is to be found. The city is the best place to live if you want to make a success of your life. It is here that you can find the most interesting and profitable work, and it is here that you can find the most advanced and useful education. The city is the best place to live if you want to be a part of the progress of the world.
