You Furnish the Feet

We do the Rest.

That's all we want you to do—furnish the feet. We will not only do the rest, but we will do well. You know what the young man said to his sweetheart as he bade her goodbye. He grasped her cordially by the hand and exclaimed, "Be good to yourself my girl!" Perhaps that advice was unnecessary. Be good to your feet. Perhaps that advice is unnecessary, but we hit the target in the bull's eye when we say that nothing in the world is better for your feet than our fine shoes. They are a shoe that's fit for the foot, fits the foot, and what is just as much to the point, fits the pocketbook.

The annual report of the railway
commission will be sent out this
week. It will show that there are
railways in the State, with a total
length of 1,400 miles, every county
in the State being represented by
some or more roads. Alleghany,
Ashe, Clay, Davidson, Graham, Hyde,
Iredell, Transylvania, Union, Wil-
ming, Yancey and Yancey, Madison
counties. The taxable property of the
railways was assessed in 1890 at
\$12,217,000 and in 1891 at \$15,162,270
showing an increase of \$3,000,000. An
interesting feature of the admirably
complete report which contains 180
pages, is a summary of the capital
stock earnings. As of otherwise. This
shows that the capital stock is \$6,
011,314 in North Carolina. The
bonded debt in North Carolina is
\$1,832,000. The current liabilities
are \$6,824,000. The gross
earnings in North Carolina in 1891
year ending June 30, were \$1,661,125
and the operating expenses in that
State for the same period were \$6,824,
000. The report cautions the reader
These are the Albemarle and Chester-

Currituck; the Fairchild in Hyde;
the Norfolk & North Carolina, in
Dismal Swamp; the Chadbourn & Hart-

are tables showing the total value of
the 3,332 miles of railway track, which
is \$16,402,270; of rolling stock, \$1,682,
921; other property, \$52,000. No valua-
tion per mile is given officially for
the Seaboard & Roanoke, Raleigh &
Gaston and Wilmington & Weldon, but
in a foot-note \$10,000 per mile is
set down as the value.

The Worcester Mandolin Case.

When the court convened this
morning, C. H. Tuley resumed the
stand. He stated that the counsel
on both sides understood his atti-
tude in this case as did also the
clients he represented before the
Board of Commissioners, but in
order that there might be no misap-
prehension on the part of any one he
would say that he was not aware
that he was to be called as a witness
without a half hour before the
opening of the court, when he was
served with a subpoena that he did
not receive, except in letters on the
case. That was one of the witnesses
for the defense of the accused. He
had taken the only notes of the testi-
mony of the commissioners
which he was informed that he had
been summoned because he had
testimony in the trial of the
case. First like appearance as a
witness for plaintiff on this occasion
was taken as no evidence
of change in his position or opinion
but merely as the yielding of his
testimony to the mandate of a court
of justice which was above the law.
