COCA-COLA

We have Coca-Cola on draught and will continue to have it all summer. We sold hundreds of glasses last season and it is undoubtedly a quick relief for travellers.

A. B. REESE & CO'S.

Local Ripper

The Hornet's Nest Ripper and the Queen City Ripper will have a dull practice tonight.

Mr. John Griffith, who has been spotted in New York some weeks past, is now conveying a letter to his relatives here.

Thirty barrels of cotton were the receipts for week ending. The farmers are too busy plowing to think about selling their cotton in the market.

Mr. S. B. Christy, one of the prominent men of Mecklenburg county, is dangerously sick at his home in Crab Orchard at this time and his life is in doubt.

The proposed change in the law relating to the carrying of arms will be published in this paper. The two negroes claimed to be strikers, but the chief of police very properly objects to having them prowling around town.

Capt. R. V. Lorraine, county tax collector, is arranging a list of the delinquent tax payers to be published in the News on April 1. All who have not paid their taxes by that date will be published. This is a very disagreeable piece of business but the law requires it.

The State Chronicle has changed hands. Mr. J. H. DeLoach, a thoroughly equipped journalist, is buying Mr. Josephus Smith's paper, and Mr. J. H. DeLoach is a man of ability and a man of ideas. The News hopes that he will succeed in making the Chronicle the sort of paper that the people naturally expect.

An Authority on the Declaration. Mr. M. Donnelly has favored the News with volumes 2 and 3 of Johnston's Universal Cyclopaedia. They are interesting from the fact that they pay particular attention to the Mecklenburg Declaration of Independence, and present it in a clear light. This authority gives evidence to prove the soundness of our government's Declaration. We will refer to the subject more fully in a few days.

Another Colored Fire Company. The Neptune Fire Company has undergone its membership, and a movement is on foot to incorporate an auxiliary company. The Neptune is composed of colored men, and is one of Charlotte's oldest fire companies. It is a volunteer company, and has maintained its organization ever since the paid department was established. The Neptunes have founded the city's valiant service in times past, and it is an organization that is appreciated. The new company will be known as Dreadnaught No. 4. Jerry Gaffney is president, Jim Fox, captain, and Will Watson, secretary.

DEBARR OFF

The Heavy Loss Sustained Last Night by a Crab Orchard Farmer

Mr. Alexander Allen of Crab Orchard had the misfortune to lose his barn, two miles on bushes of corn, 1000 bundles of fodder, 100 bushels of cotton seed, the back and his entire outfit of farming utensils last night at 10 o'clock by fire. The origin of the fire is not known, but the general impression is that it was the work of an incendiary. Mr. Allen had a splendid farm and was known as one of the most successful farmers of Crab Orchard. The loss he sustained last night is indeed a severe one. It is thought that the entire loss will amount to \$10,000 with no insurance.

Building and Loan Affairs

In the city in the South are the benefits of the Building and Loan Association more thoroughly appreciated than in Charlotte. In fact, many own several cotton factories and blocks of residences to the Building and Loan system. There are 7 or 8 such institutions in Charlotte and all are in a flourishing condition. The annual meeting of one of these, The Mechanics Perpetual, was held last night and the report submitted by the secretary and treasurer is interesting. The association is now running its 15th series. The capital is composed of a total of 54,000 shares, of which \$2,000,000 is the total assets are \$2,000,000.

The value of shares at the close of the 15th series is represented as follows: 1st series \$100,000; 2nd series \$100,000; 3rd series \$100,000; 4th series \$100,000; 5th series \$100,000; 6th series \$100,000; 7th series \$100,000; 8th series \$100,000; 9th series \$100,000; 10th series \$100,000; 11th series \$100,000; 12th series \$100,000; 13th series \$100,000; 14th series \$100,000; 15th series \$100,000.

The directors elected for the ensuing year are: S. Wittkowsky, J. W. Miller, J. H. Waddington, R. H. Jordan, C. H. Davis, J. D. Church, J. M. Andrews, J. A. Elliott, A. C. Henderson, W. W. Plifer, R. E. Cowhram and Dr. George Graham.

The board of directors unanimously re-elected Mr. S. Wittkowsky president and Mr. R. E. Cowhram, secretary and treasurer. With these officers have been in charge of the affairs of the company since its inception. At the meeting last night, Mr. Wittkowsky made a felicitous address upon the increasing prosperity of the company, and gave some good pointers on building and loan matters generally.

Although the report of the secretary and treasurer for the six months ending February 29th showed a total of 100 shares, changes have occurred since then. The 100 shares of the first series have been withdrawn, but in the meantime, the association has gained 100 new shares, making the total number of shares now actually existing aggregate 500.

Death of a Little Child. The deep sympathy of our people will be extended to Mr. and Mrs. John D. Ross, in the death of their little son, Joseph Ross, which occurred last night at 8 o'clock. The funeral services will be conducted from Mr. Ross' residence, at 5 o'clock this afternoon, by Rev. Dr. R. C. Reed. This is the second child these devoted parents have followed to the grave within less than a year.

An Incident of the Meeting in Statesville Last Saturday

A Charlotte man who was in Statesville last Saturday and who returned here today gives the News the details of an incident that has not yet been published. Saturday it will be remembered was the day that Folk Skinner and Butler spoke at Statesville. Everybody in the meeting appeared to have attended the right of saying something and among those who felt called upon to make remarks were of less importance was Jim Reeves, the young man who it has been understood is under sentence of imprisonment from the State. After the speaking, Reeves appeared at the Cooper House and in an excited manner said that he wanted to kill Butler. He got into the hallway leading to the dining room Butler being then asleep, and pulling out a pistol and he intended to kill Butler as soon as he came out. The sheriff happened on the scene just then and took the young man's gun from him. Reeves stated as his grievance that Butler had called him a liar. The incident created a good deal of excitement about the hotel at the time.

Meeting of the Military Board

Col. J. T. Anthony, Col. W. L. Smith and Major Stewart Chamberlain last night for Raleigh, in attendance at a meeting of the State military board to be held there today. This meeting was called by Governor Holt to review the regulations of the State militia.

Robins and Butler at Statesville

John W. M. Robins, the old Democratic warhorse of Tradeville, was at Statesville today. He did not neglect the opportunity of replying to the Alliance speakers last Saturday, but he was so persistent that Marion Butler finally consented to divide time with him. April 2nd was at first set as the day for the contest, but after the speaking, Mr. Butler asked for another week's time, and Mr. Robins granted it. So the final debate between these two giants will take place in Statesville on April 9. It promises to be a great day.

Local Weather Report

The following is a synopsis of the weather prevailing at 8 a. m. today: The low pressure which was central in eastern Texas yesterday has extended considerably eastward, and is being felt east of the Mississippi river. At the same time a low which has made its appearance at Chicago, Ill., is extending southward and joining with the Texas low at St. Louis, Mo. These combined disturbances will probably be felt over this section during the latter part of this day in increasing cloudiness and during tomorrow in light rains. Generally cloudy weather prevails over the area covered by the lows, and snow is falling at several points in the northwest and light rains are falling on the southern limits of the northwest low.

For a good shoe you can say nothing too good; for a bad shoe nothing too bad. With a bad shoe you can't do anything; it's a hopeless case and the sooner you get rid of it the better you'll be off. We would just as soon think of trying to give a bad shoe a good character as we would of trying to give a good shoe a bad character. Our \$3.00 shoes speak for itself the most in absolutely no respect. It is just what economical buyers are looking for—it gives economy a chance without sacrificing either quality or comfort.
