Point de Ireland.

Point de Génie.

These are the two popular Laces that we sell. They are Boston lace with over. They make jackets of them. They trim Hatters with them, they make muffing wraps, they trim Ginghams and Challies.

Our stock is full of overflowing with these. A great deal of suitable stuff known to the trade. All New York and Boston are well supplied with these Laces. They are in white, cream, terra and black, silk and Cotton.

New Challies.

The art printers of the world had these goods to work on, and they have done their best. You will never see better stuff.

New India Silks.

The creams of New York's beauty are in the lot. Picked from the whole stock of choicer silks and they are now here for you picking at a very low price.

New Crepons.

Crep and crimp stuff is a very rage in New York. We have them now. Don't be behind Bedford and Cable Cards are swell. All shades of these most desirable of Spring Dress Fabrics. Samples of yards by mail.

For a good shoe you can say nothing too good; for a bad shoe nothing too bad. With a bad shoe you can't do anything; it's a hopeless case and the sooner you get rid of it, the better you'll be off. We would just as soon think of trying to give a bad shoe a good character as we would of trying to give a good shoe a bad character. Our \$300 shoe speaks for itself the minute it is on the foot. It is unreliable in absolutely no respect. It is just what economic buyers are looking for—it gives economy without sacrificing either quality or comfort.

The Dope in Richmond Terminal.

The Richmond Terminal stock is down to 12. A special from New York to Smith & Watts to-day says Richmond Terminal securities have declined on a rumor that Mr. Olcott has resigned from the reorganization committee and that the guarantee syndicate has broken up. A member of the committee answers up to state that there is no truth to either report. Mr. Olcott has not resigned from the committee and the guarantee is ironclad, intact and satisfactory to its members. We have asked President Olcott for a statement of his position in the matter.

He replied: You can say I have not resigned, have never had any intention of resigning and have no such intention now.

That ought to cover the case.

The Veterans Meeting at New Orleans Col. E. D. Hall, president of the Confederate Veterans Association of this State has issued a call to the veterans organization that is of interest. The resolution under which the call is issued says: The president of the North Carolina Veterans' Association is requested to issue a call to each camp, or county or city association Confederate veterans, requesting each association in the State to convene and elect two delegates for each camp and an additional delegate for every twenty members above the first twenty to represent the organization in the convention of United Confederate Veterans, to be held at New Orleans, April 8th and 9th.

The delegates for the State at large are: E. D. Hall, Wilmington; R. F. Hope, Raleigh; Rufus Barringer, Charlotte; A. J. Andrews, Raleigh; W. L. DeRosset, Wilmington; Matt W. Ransom,arysburg; Z. B. Vance, Charlotte; H. C. Jones, Charlotte; Elias Carr, Old Spice; F. H. Busbee, Raleigh.

The sixth district delegates are: J. L. Cantrell, Wilmington; R. T. Bennett, Wakefield; S. B. Alexander, Charlotte.

Downing.

Robert Downing, the handsome young American tragedian who appears at the opera house to-night in "Hamlet and Pythias," is thusly described by Mr. Barrow, the well known dramatic critic of the Chicago Inter Ocean: "A man to whom nature has given the proportions of an athlete, the symmetry of a Greek statue, and the strong propulsion of a bright, clear, wide intelligence, represents a force which in the theatre world compels admiration. A picture of manhood in physical development, full-chested, broad-shouldered, muscled like a Hercules, fine head, well poised on a sturdy neck, a handsome face, smooth under the touch of youth, but given character by dark eyes that catch their expression from passing thoughts or troubled passion; a voice of great depth and volume and resonance, yet musical and at will tenderly pathetic."

Eight Train Loads for Russia.

One hundred and seventy-five cars of flour, containing 22,000 barrels, were sent out in eight sections yesterday by the Washburn-Crosby Company mills at Minneapolis to the Russian Relief Association of Philadelphia. The association bought this flour for Russia. The trains were daily decorated with flag-bunting and mottoes. They will run into Philadelphia in one section, if possible pulled by eight engines. A great race will be given when it arrives at its destination. The steamer Conemaugh will carry it to Texas.

Robert Downing, the talented young American tragedian who appears at the opera house to-night as one of the most prominent and enthusiastic Knights of Pythias in America, being a Sir King of the Columbia District No. 3 U. R. R. P. Washington D. C., and a member of Webster Lodge No. 7 of the same city. Mr. Downing has no less than nine members of the order in his company a pretty good showing for one organization.

The Star's Opinion Somewhat Changed.

LONDON, March 25.—The Star which yesterday held that Lord Salisbury ought not to have knuckled under to Blame in the Boiling Sea matter last year, declaring that the Prime Minister was not right in declining to assent to the prolongation of the modus vivendi, has made a sudden change in its views and to-day publishes an article strongly advising Lord Salisbury to renew the modus vivendi. Yesterday the Star said that the renewal of the arrangement would be an injustice to the Canadians, today it says the renewal will cause Canada to scream, adding, "but better that than a serious quarrel between Great Britain and the United States."

For a good shoe you can say nothing too good; for a bad shoe nothing too bad. With a bad shoe you can't do anything; it's a hopeless case and the sooner you get rid of it, the better you'll be off. We would just as soon think of trying to give a bad shoe a good character as we would of trying to give a good shoe a bad character. Our \$300 shoe speaks for itself the minute it is on the foot. Local Weather Report.

The following is a synopsis of the weather prevailing at 8 a.m. to day: The high pressure located over this section yesterday morning continues its northeasterly progress, and appears this morning at Washington D. C. Following up the wake of this high continues the low of Texas which continues to produce heavy rains to the south of this point. Montgomery reporting 32-20 inches during the preceding 24 hours. The movements of these two areas will probably continue their same relative courses, and upon the nearer approach of the center of the low to this section heavier rains will result. The end of this stormy period does not appear in sight, as a decided low has appeared in the northwest and is closely following upon the Texas low.
