if anything better than ever. The cloth is as fine as flax—smooth, even, dainty. But the printing! There the step ahead is plain. The Yankee printer has set a mark that should make a stir even in Mulhouse. Accurate as a picture, exact as if nature laid the hints. Flowers and birds and sprays, delicate tracery and dreamy designs that leave you

with wanton freedom all over the surface. The ground colors are grays, browns and hints of pink. Wondering how it is that such can buy a yard of such stuff. Oh! how beautiful. Yet the French—we can hear your sighs of admiration. Notice these sweet breaths, natural as if a careless hand had dropped them. See them alight with blossoms, as if Titania and her train had held a feast of flowers there. Look along the lines. Leave out the silk stripes and plaids, the Redford cords and all the rich ranges so beautiful that you question which gives richer results, the hell or the cotton? Come along to the original trappings of the period.

The aristocrats from Glasgow at \$2.00, \$3.00 and \$4.00 a pattern, simple at you.
