The Crops in the State.

The reports of correspondents of the Weekly Weather Crop Bulletin, issued by the North Carolina Experiment Station and State Weather Service for the week ending Saturday, May 21, 1892, show that favorable weather conditions have prevailed, and that the outlook is generally encouraging. Drought continues, but Showers on Thursday and Saturday mornings were well distributed and very beneficial. The nights have been rather too cool, while the temperature during the day has been a little above the average. The amount of sunshine was about normal.

The report for the western district -ays: The weather was generally very favorable for farm work and for growing crops. A few correspondents report rain indeed. Wheat is reported as excellent. Cotton and and plowing corn the first time is going on in some sections. Reports on the fruit crop say the prospect is good. Oats in good condition. Transplanting tobacco and setting out sweet potatoes is going on. Rains are reported as follows: Davidson College, 023 inch; Statesville, 043 inch; Asheville, 0.93 inch; Salisbury, 0.23 inch; Charlotte, 0.46 inch.
