A record of the baseball games played so far this season by the South | day morning near Kansas City. Mo. Atlantic League shows that the Charlotte club has one thing to brag on- it has lost nearly as many games as all the other clubs combined. Charlotte has lost Is games, Charles ton's, Columbia 10 and Winston 9. Charleston has won 14, Charlotte 4, Columbia 11, Winston 14, out of 22, 21, 21, and 22 games respectively.

The Eszor Woo.

Mary Hunter and Laura Davidson, two colored women of Biddlesville were arraigned before Esquire D. G. Maxwell yesterday afternoon, on charge of an affray. They fought with a razor and a stick, Mary Hunter being armed with the former weapon. Laura Davidson was gashed on the hand and the lid of her right eye was slit open. They were bound over to appear for trial before Judge Meares, at the next term of the criminal court.

Crops and Politics.

A goon many farmers were on the streets today and they divided their talk between crops and politics. As to the former they talk all one waythe crop prospects are encouraging in all respects. Cotton is doing fairly well, but needs one good warm rain to make it all right. The wheat could not be better, while corn and oats look as promising as could be desired. On the whole, they are greatly encouraged. As to politics, they are Democratic straightout, with only here and there a discontented reformer." Polk's party with will have a following in Meckienburg, but it will not be large enough to hurt. It may be set down as a fact right now, that in the coming election, the Democratic ticket will carry Mecklenburg over the Republicans, Prohibitionists. Third, Fourth, Fifth and other sortof parties.

The Crop Outlook in the State.

The Monthly Bulletin of the Department of Agriculture for May is out. In a resume of the crop prospects at present Commissioner John Robinson says editorially: Prospects at present are more encouraging to the liller of the soil than they were at this date last year. The wheat crop bide fair to be a good one been seeded to oats than for many years past, and the crop at present is looking well. The average planted Home in cotton is about thirty per cent less than the crop of 1891, while the acreage to corn has correspondingly increased. This is as it should be, and judicates a better condition ahead for the farmers of our State. The annual increased acreage in clover State is encouraging, and is indicative of a more independent condition of all who are engaged in covering their land with the beautiful green sward. An abundance of clover and grass encourages the growing of live stock of all kinds, and there is always a good profit to the farmer in raising his own stock. The cultiva--The new Sunday school room in tion of tobacco has increased in vestigation of the subject discloses the fact that forty-five counties are engaged in growing extensively and profitably this moneyed crop, producing over 76,000,000 pounds of tobacco annually. The present indications of this crop are eucouraging. The fruit crop, while it is not a full all local demands generally, and if into a shapeless piece of cloth and then the crop should be carefully hus- came down landing near the parabanded there will be much to spare. chute.
