CONDUCTORS CHANGE.

The News' Story Published Three

Weeks Ago Is Corroborated. It was The News that informed the public three weeks ago that the conductors on the Southern, who have been laying over in Charlotte, were, in the near future, to change to Spencer. This information, at the time, was obtained from a thoroughly trustworthy source and there has never been any doubt as to the accuracy of the report.

Charlotte will dislike very much to see this change, but, it will effect this that for the south-end conductors, 44 now have their homes in this city, will continue to reside here. It only means that for the south end conductors, 44 miles will be added to their run and the conductors who lay over here a PALACE MARKET HAS ALWAYS day, will go to Spencer.

The Southern's conductors are a splendid lot of gentlemen. Those who have been running here for many years say they regret the change but they think with the Southern officials that the company's interests demand the change. They are loyal to their superior officers and are willing to put up with temporary inconveniences in order that the company's interests may be better served. As has been said be fore. Charlotte will regret to see the change and the genial big hearted conductors share in Charlotte's regret.

THE WEATHER.

Forecasts for tonight and Thursday. For Charlotte and vicinity: Fair to night and Thursday.

WEATHER CONDITIONS. The depression that extended across the country yesterday has moved rapidly eastward, causing general rains in the Atlantic States in the past 24 hours. As a rule the amounts recorded were light to moderate, except along the coast: Hatteras reports 1.34 inches, Jupiter, Fla., had 3.28 inches, and Tampa 1.30 inches. Rain continues in eastern portion of the North Atlantic States and snew is falling in the lower Lake region. The storm is central off the Jersey coast this morning. High er pressure, with colder, clear weather again prevails in the central and upper Mississippi valley, with zero temperatures in the latter section. An energetic area of low pressure over the Montana is causing mild conditions over the Rocky mountain region. There is much cloudiness in the Gulf States today with rain falling in in-

FOREIGN NOTES OF INTEREST.

persuaded by lovers of dogs to consider the question of providing special cars on their trains in which dogs and their owners can travel together, in stead of the dogs being separated from their masters or mistresses, as at present is necessary.

At Luchlow, in Germany, 129 fathers have been fined a few cents apiece for allowing their children under ter years of age to dance at the harvest festival of a village near by. The vil lage pastor objected the dancing and reported the case to the police. It was discovered, however, that his children had danced, too, and he was fined with

Reports from Italy state that the phylloxera is working ravages among the vineyards of that country and that there will be an unprotected demand for American vines with which to graft the old ones. It is reported that 908 provinces in Italy have been in vaded by this insect and not less than 750,000 acres of vineland have been

entirely destroyed. The French mariners record for big icebergs off Cape Horn was broken recently, says a San Francisco dispatch in The Chicago Inter-Ocean, when the British ship Anglesey, Captain Thompson, arrived from Newcastle, England and reported that on September 20th off Cape Horn, she sailed into a great ice field, in the midst of which was a gigantic iceberg, approximately 10
