PROCEEDINGS OF THE HOUSE AND SENATE (Continued from first page.)

tols, spring and air guns. Mr. White wanted to strike out spring and air guns. He thought this was paternal legislation, the State doing what should be left to parents and the heads of families. Mr. Thayer sent an amendment allowing until Aug. 1903 to dispose of such stock on hand. Mr. Wellborn offered an amendment not to apply to Alleghany, Ashe and Watauga. Mr. Webb, Mr. Godwin, Mr. Brown and Mr. Travis favored the bill. Mr. Beasley opposed it. Mr. Sprull, the veteran of the body, made a humorous speech saying, "I notice we young men alone are opposing this bill because we remember the joys of our boyhood. If this bill passed I shall ask for a bill putting the little boys under glass cases. I don't want the Senators to deprive we boys of our cannon crackers Xmas for I love to hear them."

After adopting all amendments and exempting counties of Alleghany, Ashe, Watauga, Edgecombe, Montgomery, New Hanover, Wake and Brunswick, by a vote of 22 to 15 the whole thing was then tabled and the defeat of the measure was greeted with applause on the floor of the Senate and in the lobbies.

MR. WOODARD'S PERSONAL PRIVILEGE. Senator Woodard then rose to a question of personal privilege and had the clerk to read an editorial from today's News and Observer headed "Will be Neither." Mr. Woodard called upon the Senators to witness that the editorial was false. He did not mention the News and Observer, criticize the people of Durham, assail any Senator or assume superiority in his speech on the Durham bill yesterday. The statements in the editorial are "false, defamatory and libelous and not born out by the report of the proceedings in the same paper." He had known the editor of the News and Observer since boyhood and had been his friend since childhood but he would not ask to retain such friendship when it was to be purchased only by attacking those that the editor attacked and supporting measures the Observer favored. He was not surprised that the editor in his radical quotations like Ellyses returning to his own. He bestowed on the editor's editorial his "commiseration and contempt."

The Senate then adopted a resolution of respect to Dr. J. L. M. Curry and to adjourn in his honor. Mr. Burton did not think it proper to adjourn to the memory of every prominent man. NASAL CATARRH CURED

Pe-ru-na Cures a Case of Five Years' Standing.

Mr. Rudolph M. Patterson, Chicago, Ill.

Hon. Rudolph M. Patterson, a well-known lawyer, of Chicago, Ill., writes the following letter to The Peruna Medicine Co., at Columbus, Ohio:

"The Peruna Medicine Company, Columbus, Ohio: Gentlemen—'I have been a sufferer from nasal catarrh for the past five years, and at the earnest solicitation of a friend I tried Peruna and am glad to say it has afforded a complete cure. It is with pleasure I recommend it to others.'—RUDOLPH M. PATTERSON.

Mrs. J. C. Garrett, of 38 West 117th Street, New York City, writes: "I can honestly recommend Peruna as a great catarrh remedy. It heals and heals quickly and permanently."

"This is simply the whole story in a word. I have for years suffered with catarrh, aggravated when I took cold and Peruna cured me. It is indeed a great medicine, and worthy the highest praise, for it is reliable and will never disappoint you."—Mrs. J. C. Garrett.

There are two things that the whole medical profession agree about concerning catarrh. The first is that catarrh is the most prevalent and omnipresent disease to which the people in the United States are subject. All classes of people have it. Those who stay indoors much and those who go outdoors much. Working classes have it and sedentary classes have it.

The doctor finds catarrh to be his constant and ever-present foe. It complicates nearly every disease he is called upon to treat.

The second thing about catarrh on which all doctors agree, is that it is difficult to cure it. Local remedies may give relief but they fail to cure permanently. Sprays or snuffs amount to little or nothing except to give temporary relief.

Catarrh is frequently located in internal organs which cannot be reached by any sort of local treatment. All this is known by every physician.

To devise some systemic internal remedy which would reach catarrh at its source, to eradicate it permanently from the system—this has been the desire of the medical profession for a long time. Forty years ago Dr. Hartman confronted this problem. He believed that he had solved it. He still believes he has solved it. He cures thousands of people annually. During all these years Peruna has been the remedy upon which he has relied.

It was at first a private prescription, afterwards manufactured expressly for him in large quantities. This remedy, Peruna, is now to be found in every drug-store and nearly every home in the land. It is the only reliable internal remedy ever devised to cure any case of catarrh, however long the case may have been standing.

Mr. Camillus Senne, 257 West 129th Street, New York, writes: "I have fully recovered from my catarrhal troubles. I suffered for three years with catarrh of the head, nose and throat. I tried all kinds of medicine without relief, but at last I have been cured by the wonderful remedy called Peruna."

"I read of Peruna in your Almanac, and wrote you for advice, which I followed. After taking one and one-half bottles of Peruna I am entirely cured, and can recommend Peruna to anyone as the best and surest remedy for any catarrhal troubles."—Camillus Senne.

A course of Peruna never fails to bring relief. There is no other remedy like Peruna. Its cures are prompt and permanent.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.
